Shlomo Aloni, Zvi Avridror

Israeli F-4 Phantom II Aces Shlomo Aloni, 2004-04-27 The American manufactured F-4 Phantom II was used by the Israelis in air-to-ground missions, as an attack aircraft, and air-to-air missions as a fighter. Despite performing both roles with equal success the Israeli reliance on the Mirage III and Nesher delta fighters meant that the F-4 was used most regularly in its air-to-ground role. The kill total of the Israeli F-4 community was, consequently, a modest 116.5; significantly lower than that of other Israeli aircraft types in service between 1969 and 1982. A handful of aces were, nevertheless, created and, using first hand accounts, this unique book tells their stories. Many F-4 pilots had previously flown the Mirage III but most of the navigators were either inexperienced flying school graduates or had been transferred from transport aircraft. The decision to create such teams may have appeared an odd one and it certainly led to a number of interesting experiences but proved, ultimately, to be so successful that by 2010 the Israeli air force will have more two-seat combat aircraft than single-seat fighters. The F-4 experience was, therefore, crucial to moulding the future of the Israeli air force.

Israeli F-15 Eagle Units in Combat Shlomo Aloni, 2013-01-20 Post-Yom Kippur War, Israel purchased the F-15 Eagle, the then world's best air-to-air fighter, in an effort to prevent another surprise attack from the air. For the first time in its history the IDF/AF operated a fighter that was a full generation ahead of opposing interceptors in the region. The first 'kill' F-15 Baz (Buzzard) arrived in Israel in 1976 and soon proved its worth in combat. Israeli Baz pilots were credited with 12.5 kills between 1979 and 1981, with 33 victories following during the June 1982 Lebanon War. Despite substantial combat, no

Israeli F-15 has ever been lost to enemy action. In the 1990s the US government supplied the IDF/AF with the F-15I Ra'am (Thunder) to fulfill the long-range surface-to-surface missile mission post-Desert Storm. From A to I, the extremely capable, and combat-tested, Israeli F-15 force will continue to deter potential enemies well into the foreseeable future. This book examines the history and development of these units.

Lavi John W. Golan, 2016-01-01 The Lavi fighter program, the largest weapons-development effort ever undertaken by the State of Israel, envisioned a new generation of high-performance aircraft. In a controversial strategy, Israel Aircraft Industries intended to develop and manufacture the fighters in Israel with American financial support. The sophisticated planes, developed in the mid-1980s, were unique in design and intended to make up the majority of the Israeli air force. Though considerable prestige and money were at stake, developmental costs increased and doubts arose as to whether the Lavi could indeed be the warplane it was meant to be. Eventually the program became a microcosm for the ambitions, fears, and internal divisions that shaped both the U.S.-Israeli relationship and Israeli society itself. But the fighter never made it to operational service, and until now, the full breadth and significance of the Lavi story have never been examined and presented. *Lavi: The United States, Israel, and a Controversial Fighter Jet* traces the evolution of the Lavi fighter from its genesis in the 1970s to its scrapping in August 1987. John W. Golan examines the roles of Israeli military icons and political leaders such as Ezer Weizman, Ariel Sharon, Menachem Begin, and Yitzhak Rabin in the program and in relation to their counterparts in the United States. On the American side, Golan traces the evolution of government policy toward the program, detailing the

complex picture of the U.S. foreign policy apparatus and of U.S.-Israeli relations in general—from President Reagan’s public endorsement of the program on the White House lawn to Defense Secretary Caspar Weinberger’s unremitting attempts to cancel it in succeeding years.

Hammers Shlomo Aloni, Zvi Avridror, 2010 From the B-17 Flying Fortress and PBY Catalina, via the F-4 Phantom to the F-15I Thunder, Israeli Air Force 69 Squadron, the Hammers, have always been the long-range, heavy bombing element of Israeli air power. 69 Sqdn. fought in six wars and flew thousands of missions. The first Hammers mission was the bombardment of Cairo in July 1948. The final B-17 missions were flown during the 1956 Suez War, the last of the Flying Fortresses to bomb operationally anywhere. From 1969, the Hammers flew the legendary F-4 through participation in the War of Attrition, the Yom Kippur War and the Lebanon War. Flying the F-15I since 1998, the Hammers story of operations, aircraft and persons is the essence of this book that unveils, for the first time ever, the full story of Israeli B-17 operations, the complete story of how the Israeli Phantoms defeated the Syrian SAM network in Lebanon, the thundering introduction of the F-15I into Israeli service, and much more.

Iranian F-4 Phantom II Units in Combat Farzad Bishop, Tom Cooper, 2012-11-20

Different versions of the jet have provided the backbone of the frontline strength of the Iranian air force since the 1970s, and whole generations of Iranian pilots and ground personnel have been trained to fly and maintain them. Indeed, the type bore the brunt of active combat operations during the long war with Iraq. Iranian F-4 Phantom IIs were also

some of best equipped examples ever exported by the USA. Some Iranian Phantom II pilots gathered immense experience on the type, flying it in combat for more than ten years. This book removes the veil of secrecy surrounding Iranian Phantom II operations since the war with Iraq.

McDonnell Douglas F-4 Phantom Geoff Coughlin, 2022-06-20 The McDonnell Douglas F-4 Phantom II was the most-produced American supersonic military jet with 5,195 aircraft being produced. By any standards the F-4 has been incredibly successful, used not only by the USAF and US Navy but many air forces around the world including Germany, Israel, Turkey and Japan. The F-4 was designed as a long-range fighter interceptor and fighter bomber, excellent in all roles assigned to it. The Phantom has performed leading roles in multiple conflicts around the world from the Vietnam War through to the Gulf War. Although the F-4 left US service in 1996 it has continued in service with other air forces, only just being retired in 2020 from the Japanese Air Self-Defence Force. This new title in Pen & Sword's highly successful Flight Craft series covers the development and operational use of the F-4 Phantom II and brings to life the variety of color schemes and markings applied by many of the multiple air arms that have operated the Phantom around the world by including quality color profiles. Multiple model projects are included covering significant variants of the F-4 like the F-4B, F-4D, F-4E, F-4F, F-4G, F-4J, F-4EJ-Kai; British FGR-2 and F-4J(UK). All the popular model scales are represented: 1:72, 1:48 and 1:32A first for scale modellers everywhere - a book aimed at scale modellers of all levels interested in building the F-4 Phantom II.

Sierra Hotel : flying Air Force fighters in the decade after Vietnam ,2001 In

February 1999, only a few weeks before the U.S. Air Force spearheaded NATO's Allied Force air campaign against Serbia, Col. C.R. Anderegg, USAF (Ret.), visited the commander of the U.S. Air Forces in Europe. Colonel Anderegg had known Gen. John Jumper since they had served together as jet forward air controllers in Southeast Asia nearly thirty years earlier. From the vantage point of 1999, they looked back to the day in February 1970, when they first controlled a laser-guided bomb strike. In this book Anderegg takes us from glimmers of hope like that one through other major improvements in the Air Force that came between the Vietnam War and the Gulf War. Always central in Anderegg's account of those changes are the people who made them. This is a very personal book by an officer who participated in the transformation he describes so vividly. Much of his story revolves around the Fighter Weapons School at Nellis Air Force Base (AFB), Nevada, where he served two tours as an instructor pilot specializing in guided munitions.

Israeli A-4 Skyhawk Units in Combat Shlomo Aloni, 2013-01-20 The light and agile A-4 Skyhawk was the first modern American jet to be offered to the Israeli Air Force, marking the point where the US took over from France as Israel's chief military supplier. Deliveries began too late for the A-4 to fight in the Six-Day War, but it soon formed the backbone of the IAF's ground-attack force. From 1969 to 1970 it flew endless sorties against Egyptian forces in the War of Attrition. Then, during the Yom Kippur War, five squadrons of A-4s saw combat and 50 planes were lost as they battled against the Arab armored onslaught. Using previously unpublished first-hand accounts and rare photography from the IAF archives and pilots' private collections, Shlomo Aloni tells the definitive history of the

IAF's A-4 squadrons, including the story of Ezra "BABAN" Dotan who became an ace with an unique double-kill of MiG17s.

Air Warfare in the Missile Age Lon O. Nordeen, 1985

Ghosts of Atonement Shlomo Aloni, 2015 In the years that preceded the October 1973 Yom Kippur War, Israel invested heavily in the creation of a heavy attack force of four F-4 Phantom/Kurnass squadrons. They would fly 3,000+ sorties, claim 80+ kills, and suffer 30+ losses during the nineteen days of one of the most intensive, savage wars in modern military history. This book delves into the details of individual Israeli F-4 Phantom/Kurnass crew missions and their day-to-day operations during the war. This is a must for anyone with interest in F-4 Phantom operations, Israeli Air Force heritage, and modern military history.

Israeli Air Force Operations in the 1956 Suez War Shlomo Aloni, 2016-01-20 By participating in 1956 Suez Crisis Israel exploited an opportunity to join forces with France and the United Kingdom in an attack against Egypt in order to accomplish diplomatic, military and political objectives: to open the Red Sea international shipping lane to ships sailing from and to Eilat; to strengthen its alliance with France; to end – or at least to scale down – Egyptian hosted Palestinian terror attacks against Israel; to launch a preventive war in order to crush Egyptian military power before its completion of the transition to Soviet weapons could tempt Egypt to attack Israel and in order to accomplish a profound victory to deter Egypt from pursuing a another round of war policy. Operation KADESH was the Israeli part in the Anglo-French attack and this title chronicles Israeli Air

Force operations along the timeline of Operation KADESH - from day 1 on 29 October 1956 until day 11 on 8 November 1956 - in thus far unmatched depth and detail; all known Israel Air Force missions and sorties are listed and described and all air combats between Israeli Mysteres and Egyptian MiGs and Vampires are presented and analyzed. The large variety of aircraft flown - Dassault Mysteres, Dassault Ouragans and Gloster Meteors; B-17 Flying Fortresses, P-51 Mustangs and De Havilland Mosquitoes; T-6 Texans (Harvards) and T-17 Kaydets (Stearmans); Nord 2501 Noratlases, C-47 Skytrains (Dakotas), Pipers and Consuls and even a pair of Sikorsky S-55 helicopters - are all covered in this title, which presents Israeli Air Force operations during the Suez War in a depth and detail unseen in previous publications. The text is supported by numerous photographs and color profiles. Middle East@War - following on from our highly successful Africa@War series, Middle East@War replicates the same format - concise, incisive text, rare images and high quality color artwork providing fresh accounts of both well-known and more esoteric aspects of conflict in this part of the world since 1945.

Israel's Best Defense Eliezer Cohen, 1993

Modern Israeli Air Power Thomas Newdick, Ofer Zidon, 2013 Israel remains the cornerstone of Middle East conflicts and tensions, and the spearhead of Israeli military might remain the Air Corps (Kheil Ha'Avir) of the Israeli Defense Forces. Renowned for its continuous efforts to maintain dominance in every dimension of air warfare, improve its capabilities, and outsmart its opponents, the Israeli Air Force has recently been moving away from preparations for interstate wars towards improving its potential to wage

asymmetric conflicts, counterinsurgency campaigns and special operations. It has become smaller and leaner, but also much more efficient, and is foremost a force with much improved quick-reaction capabilities. Nowadays the IAF employs cutting-edge domestic and imported technology for gathering intelligence, in its command and communication systems, and in its flying units, with the aim of obtaining real-time targeting information, making it prepared for every eventuality, no matter when or where. This book provides a compact yet comprehensive, up-to-date, and in-depth analysis and directory of modern Israeli air power, detailing flying units and relevant infrastructure, its aircraft and the armament they use. Using text and superb illustrations, the title covers every flying unit and every base, every aircraft type flown and every weapons system, offering a unique insight into what Israel considers its 'best defense'.

Israeli Fighter Aces Peter B. Mersky, 1997 The first account of the experiences and backgrounds of what many consider the most successful group of combat aviators of the post -- World War II era.

Israeli Eagles Amos Dor, 2020-09-15 The book, which collects unpublished photos and information, is divided into several chapters dedicated to the introduction in service of the aircraft, its use in peace and wartime operations with the first line squadrons, and its participation to several international air exercises. Besides several color profiles, this book offers more than 500 photos, many of great interest, rare and unpublished, coming from private archives that show all the aircraft operated, serial number by serial number. The book has been prepared by Amos Dor, a well known Israeli author, and comes after years of research.
