Pan-Asianism in Modern Japanese History Sven Saaler, J. Victor Koschmann, 2007-01-24 Regionalism has played an increasingly important role in the changing international relations of East Asia in recent decades, with early signs of integration and growing regional cooperation. This in-depth volume analyzes various historical approaches to the construction of a regional order and a regional identity in East Asia. It explores the ideology of Pan-Asianism as a predecessor of contemporary Asian regionalism, which served as the basis for efforts at regional integration in East Asia, but also as a tool for legitimizing Japanese colonial rule. This mobilization of the Asian peoples occurred through a collective regional identity established from cohesive cultural factors such as language, religion, geography and race. In discussing Asian identity, the book succeeds in bringing historical perspective to bear on approaches to regional cooperation and integration, as well as analyzing various utilizations and manifestations of the pan-Asian ideology. *Pan-Asianism in Modern Japanese History* provides an illuminating and extensive account of the historical backgrounds of current debates surrounding Asian identity and essential information and analyses for anyone with an interest in history as well as Asian and Japanese studies.

Tourism and War Richard Butler, Wantanee Suntikul, 2013-05-07 This is the first volume to fully explore the complex relationship between war and tourism by considering its full range of dynamics; including political, psychological, economic and ideological factors at different levels, in different political and geographical locations. Issues of peace and tourism are dealt with insofar as they pertain to the effects of war on tourism that emerge after the cessation of hostilities. The book therefore reveals how not only location, but also political strategies, accidents of history, transportation linkages, and economic expediency all have played their role in the development and continuation of tourism before, during, and after wartime. It further shows how the effects of war are seldom if ever simply a negation or reversal of the effects of peace on tourism. The volume draws on a range of examples, from medieval times to the present, to reveal the multi-faceted development of tourism amidst and because of conflict in a wide variety of locations, including the Pacific, Europe, the Middle East, North America, Africa and South East Asia, showing the diverse ways in which tourism and war interacts. In doing so it explores how some locations have been developed as tourist attractions primarily because of war and conflict, e.g. as resting and training places for troops, and others flourished because of the threat of danger from conflicts to more traditional tourist locations. This thought provoking volume contributes to the understanding of the interrelationships between war, peace and tourism in many different parts of the world at different scales. It will be valuable reading for all those interested in this topic as well as dark tourism, battlefield tourism and heritage tourism.

Japan and Germany as Regional Actors Alexandra Sakaki, 2015-02-27 This important book fills the gap in existing literature by employing an explicitly comparative framework for analyzing and evaluating Germany's and Japan's post-Cold War regional foreign policy trajectories. Through a qualitative content analysis of key foreign policy speeches, this book traces and compares German

and Japanese national role conceptions by identifying policymakers' perceived duties and responsibilities of their country. Further, through two case studies on missile defence policies and textbook disputes this study investigates actual foreign policy behaviour in order to question the assertion that post Cold War Germany and Japan are following very different paths.

Hokkaido Highway Blues Will Ferguson, 2003 It had never been done before. Not in 4000 years of Japanese recorded history had anyone followed the Cherry Blossom Front from one end of the country to the other. Nor had anyone hitchhiked the length of Japan. But, heady on sakura and sake, Will Ferguson bet he could do both. The resulting travelogue is one of the funniest and most illuminating books ever written about Japan. And, as Ferguson learns, it illustrates that to travel is better than to arrive.

Untangling My Chopsticks Victoria Abbott Riccardi, 2008-12-18 Two years out of college and with a degree from Le Cordon Bleu in Paris, Victoria Riccardi left a boyfriend, a rent-controlled New York City apartment, and a plum job in advertising to move to Kyoto to study kaiseki, the exquisitely refined form of cooking that accompanies the formal Japanese tea ceremony. She arrived in Kyoto, a city she had dreamed about but never seen, with two bags, an open-ended plane ticket, and the ability to speak only sushi-bar Japanese. She left a year later, having learned the language, the art of kaiseki, and what was truly important to her. Through special introductions and personal favors, Victoria was able to attend one of Kyoto's most prestigious tea schools, where this age-old Japanese art has been preserved for generations and where she was taken under the wing of an American expatriate who became her mentor in the highly choreographed rituals of this extraordinary culinary discipline. During her year in Kyoto, Victoria explored the mysterious and rarefied world of tea kaiseki, living a life inaccessible to most foreigners. She also discovered the beguiling realm of modern-day

Japanese food—the restaurants, specialty shops, and supermarkets. She participated in many fast-disappearing culinary customs, including making mochi (chewy rice cakes) by hand, a beloved family ritual barely surviving in a mechanized age. She celebrated the annual cleansing rites of New Year's, donning an elaborate kimono and obi for a thirty-four-course extravaganza. She includes twenty-five recipes for favorite dishes she encountered, such as Chicken and Egg Rice Bowl, Japanese Beef and Vegetable Hotpot, and Green-Tea Cooked Salmon Over Rice. *Untangling My Chopsticks* is a sumptuous journey into the tastes, traditions, and exotic undercurrents of Japan. It is also a coming-of-age tale steeped in history and ancient customs, a thoughtful meditation on life, love, and learning in another land.

Retro Game Super Translation Selection Hanenashi Error, 2017-06-03 Presented by retro video game website Hardcore Gaming 101. Localization is a tricky business, especially due to the myriad of differences between both the English and Japanese languages and cultures. *Retro Game Super Translation Selection* examines 101 lines of dialogue from classic video games, compares how they were localized, and includes some explanation for the business or cultural reasons surrounding such changes. Originally authored by a professional video game translator, this is a localized version of a doujinshi released at the Game Legend retro game event in late 2016, and features a unique perspective rarely seen in the English speaking world! Also includes four columns by guest writers that compare English and Japanese onomatopoeia, examines different game titles between territories, explains the math behind retro games, and illustrates the many changes made to the Pokémon Game Boy titles. Covered games include: Final Fantasy, Dragon Warrior / Dragon Quest, Super Mario World, Landstalker, Lunar: The Silver Star, Zero Wing, River City Ransom, Cybernator, Pokémon, Lufia II, Shadowgate, Shadowrun, Maniac Mansion, Princess Tomato in the Salad Kingdom, and many

more!NOTE: The paperback edition of this book is in black and white, but the Kindle version uses color images.

Modern Kyoto Alice Y. Tseng, 2018-10-31 Can an imperial city survive, let alone thrive, without an emperor? Alice Y. Tseng answers this intriguing question in *Modern Kyoto*, a comprehensive study of the architectural and urban projects carried out in the old capital following Emperor Meiji's move to Tokyo in 1868. Tseng contends that Kyoto—from the time of the relocation to the height of the Asia-Pacific War—remained critical to Japan's emperor-centered national agenda as politicians, planners, historians, and architects mobilized the city's historical connection to the imperial house to develop new public architecture, infrastructure, and urban spaces. Royal births, weddings, enthronements, and funerals throughout the period served as catalysts for fashioning a monumental modern city fit for hosting commemorative events for an eager domestic and international audience. Using a wide range of visual material (including architectural plans, postcards, commercial maps, and guidebooks), Tseng traces the development of four core areas of Kyoto: the palaces in the center, the Okazaki Park area in the east, the Kyoto Station area in the south, and the Kitayama district in the north. She offers an unprecedented framework that correlates nation building, civic boosterism, and emperor reverence to explore a diverse body of built works. Interlinking microhistories of the Imperial Garden, Heian Shrine, Lake Biwa Canal, the prefectural library, zoological and botanical gardens, main railway station, and municipal art museum, among others, her work asserts Kyoto's vital position as a multifaceted center of culture and patriotism in the expanding Japanese empire. Richly illustrated with many never-before-published photographs and archival sources, *Modern Kyoto* challenges readers to look beyond Tokyo for signposts of Japan's urban modernity and opens up the study of modern emperors to incorporate fully built environments and spatial practices dedicated in their name.

Divided Lenses Michael Berry, Chiho Sawada, 2017-12-31 *Divided Lenses: Screen Memories of War in East Asia* is the first attempt to explore how the tumultuous years between 1931 and 1953 have been recreated and renegotiated in cinema. This period saw traumatic conflicts such as the Sino-Japanese War, the Pacific War, and the Korean War, and pivotal events such as the Rape of Nanjing, Pearl Harbor, the Battle of Iwo Jima, and the bombings of Hiroshima and Nagasaki, all of which left a lasting imprint on East Asia and the world. By bringing together a variety of specialists in the cinemas of East Asia and offering divergent yet complementary perspectives, the book explores

how the legacies of war have been reimagined through the lens of film. This turbulent era opened with the Mukden Incident of 1931, which signaled a new page in Japanese militaristic aggression in East Asia, and culminated with the Korean War (1950–1953), a protracted conflict that broke out in the wake of Japan's post-World War II withdrawal from Korea. *Divided Lenses* explores the ways in which events of the intervening decades have continued to shape politics and popular culture throughout East Asia and the world. The essays in part I examine historical trends at work in various national cinemas, including China, Taiwan, Japan, Korea, and the United States. Those in part 2 focus on specific themes present in the cinema portraying this period—such as comfort women in Chinese film, the Nanjing Massacre, or nationalism—and how they have been depicted or renegotiated in contemporary films. Of particular interest are contributions drawing from other forms of screen culture, such as television and video games. *Divided Lenses* builds on the growing interest in East Asian cinema by examining how these historic conflicts have been imagined, framed, and revisited through the lens of cinema and screen culture. It will interest later generations living in the shadow of these events, as well as students and scholars in the fields of cinema studies, cultural studies, cold war studies, and World War II history.

Japanese Popular Culture and Contents Tourism Philip A. Seaton, Takayoshi Yamamura, 2018-02-02
Contents tourism is tourism induced by the contents (narratives, characters, locations and other creative elements) of films, novels, games, manga, anime, television dramas and other forms of popular culture. Amidst the boom in global interest in Japanese popular culture, the utilization of popular culture to induce tourism domestically and internationally has been central to the Cool Japan strategy and, since 2005, government policy for local community revitalization. This book presents four main case studies of contents tourism: the phenomenon of anime pilgrimage to sites appearing

in animated film; the travel behaviours and pop-spiritualism of female history fans to heritage sites; the collaboration between local community, fans and copyright holders that underpinned an anime-induced tourism boom in a small town north of Tokyo; and the large-scale economic impacts of tourism induced by NHK's annual samurai period drama (Taiga Drama). It is the first major collection of articles published in English about media-induced tourism in Japan using the contents tourism approach. This book will be of particular interest to students and researchers of media and tourism studies in Asia. This book was previously published as a special issue of Japan Forum.

Operations Other Than War Jennifer M. Taw, John E. Peters, 1995 Analyzes how changing world demographics will affect future Army operations other than war.

Securing Paradise Vernadette Vicuña Gonzalez, 2013-07-11 In *Securing Paradise*, Vernadette Vicuña Gonzalez shows how tourism and militarism have functioned together in Hawai'i and the Philippines, jointly empowering the United States to assert its geostrategic and economic interests in the Pacific. She does so by interpreting fiction, closely examining colonial and military construction projects, and delving into present-day tourist practices, spaces, and narratives. For instance, in both Hawai'i and the Philippines, U.S. military modes of mobility, control, and surveillance enable scenic tourist byways. Past and present U.S. military posts, such as the Clark and Subic Bases and the Pearl Harbor complex, have been reincarnated as destinations for tourists interested in World War II. The history of the U.S. military is foundational to tourist itineraries and imaginations in such sites. At the same time, U.S. military dominance is reinforced by the logics and practices of mobility and consumption underlying modern tourism. Working in tandem, militarism and tourism produce gendered structures of feeling and formations of knowledge. These become routinized into everyday life in Hawai'i and the Philippines, inculcating U.S. imperialism in the Pacific.

Beaches, Ruins, Resorts Waleed Hazbun, 2008 Despite being viewed as a dangerous region to visit, leisure travel across the Middle East has thrived even in the post-9/11 era. In *Beaches, Ruins, Resorts*, Waleed Hazbun investigates this overlooked industry to show how tourism is shaping the economic development and international relations of the region in dramatic ways. Hazbun tells the new and surprising story of how the draw of glittering beaches, luxury hotels and resorts, and sightseeing at ancient ruins impact the Arab world--promoting both economic globalization and political authoritarianism.

Japanese Tourism and Travel Culture Sylvie Guichard-Anguis, Okpyo Moon, 2008-11-27 This book examines Japanese tourism and travel, both today and in the past, showing how over hundreds of years a distinct culture of travel developed, and exploring how this has permeated the perceptions and traditions of Japanese society. It considers the diverse dimensions of modern tourism including appropriation and consumption of history, nostalgia, identity, domesticated foreignness, and the search for authenticity and invention of tradition. Japanese people are one of the most widely travelling peoples in the world both historically and in contemporary times. What may be understood as incipient mass tourism started around the 17th century in various forms (including religious pilgrimages) long before it became a prevalent cultural phenomenon in the West. Within Asia, Japan has long remained the main tourist sending society since the beginning of the 20th century when it started colonising Asian countries. In 2005, some 17.8 million Japanese travelled overseas across Europe, Asia, the South Pacific and America. In recent times, however, tourist demands are fast growing in other Asian countries such as Korea and China. Japan is not only consuming other Asian societies and cultures, it is also being consumed by them in tourist contexts. This book considers the patterns of travelling of the Japanese, examining travel inside and outside the Japanese archipelago

and how tourist demands inside influence and shape patterns of travel outside the country. Overall, this book draws important insights for understanding the phenomenon of tourism on the one hand and the nature of Japanese society and culture on the other.
