**Japan at War** Haruko Taya Cook, Theodore Failer Cook, 2000 Approximately three million Japanese died in a conflict that raged for years over much of the globe, from Hawaii to India, Alaska to Australia, causing death and suffering to untold millions in China, southeast Asia and the Pacific Islands, as well as pain and anguish to families of soldiers and civilians around the world. Yet how much do we know of Japan's war? In a sweeping panorama, Haruko Taya and Theodore Cook take us from the Japanese attacks on China in the 1930s to the Japanese home front during the devastating raids on Tokyo, Hiroshima and Nagasaki, offering the first glimpses of how this violent conflict affected the lives of ordinary Japanese people. 'Oral History of a compellingly high order.' Kirkus Reviews 'This book seeks out the true feelings of the wartime generation [and] illuminates the contradictions between official views of the war and living testimony.' Yomiuri Shimbun

*American Battleships, 1886-1923* John C. Reilly, Robert L. Scheina, 1980

Silver State Dreadnought Stephen M. Younger, 2018 Silver State Dreadnought is the story of a ship and the men who sailed in her. It covers the ship's life from its construction in 1912 to its sinking in 1948. It covers its activity in World War I, during which it was based in Queenstown, Ireland as protection for American convoys bringing troops to Europe. The book also looks at the naval reduction treaties of the 1920s and the ship's reconstruction in 1928 with the latest in naval technology. - Provided by publisher.

**Imperial Biologists** Hideo Mohri, 2019-03-26 This book sheds light on a little-known aspect of the Imperial family of Japan: For three generations, members of the family have devoted themselves to biological research.

Emperor Showa (Hirohito) was an expert on hydrozoans and slime molds. His son, Emperor Akihito, is an ichthyologist specializing in gobioid fishes, and his research is highly respected in the field. Prince Akishino, Emperor Akihito's son, is known for his research on giant catfish and the domestication of fowl, while Prince Hitachi, Emperor Akihito's brother, has conducted research on cancer in animals. The book shows how they became interested in biology, how seriously they were committed to their research, what their main scientific contributions are, and how their achievements are valued by experts at home and abroad. To commemorate the 60-year reign of Emperor Showa and his longtime devotion to biology, the International Prize for Biology was founded in 1985. The prize seeks to recognize and encourage researches in basic biology. A list of winners and a summary of their research are presented in the last part of the book. The author, an eminent biologist who has given lectures to the Imperial Family, explains their research and tells the fascinating story of biology and the Imperial Family of Japan. The book is a valuable resource, not only for biology students and researchers, but also for historians and anyone interested in science and the Royal and Imperial families.

*World War II at Sea* Craig L. Symonds, 2018-04-02  
Author of *Lincoln and His Admirals* (winner of the Lincoln Prize), *The Battle of Midway* (Best Book of the Year, *Military History Quarterly*), and *Operation Neptune*, (winner of the Samuel Eliot Morison Award for Naval Literature), Craig L. Symonds has established himself as one of the finest naval historians at work today. *World War II at Sea* represents his crowning achievement: a complete narrative of the naval war and all of its belligerents, on all of the world's oceans and seas, between 1939 and 1945. Opening with the 1930 London Conference, Symonds

shows how any limitations on naval warfare would become irrelevant before the decade was up, as Europe erupted into conflict once more and its navies were brought to bear against each other. *World War II at Sea* offers a global perspective, focusing on the major engagements and personalities and revealing both their scale and their interconnection: the U-boat attack on Scapa Flow and the Battle of the Atlantic; the miracle evacuation from Dunkirk and the pitched battles for control of Norway fjords; Mussolini's Regia Marina-at the start of the war the fourth-largest navy in the world-and the dominance of the Kidō Butai and Japanese naval power in the Pacific; Pearl Harbor then Midway; the struggles of the Russian Navy and the scuttling of the French Fleet in Toulon in 1942; the landings in North Africa and then Normandy. Here as well are the notable naval leaders-FDR and Churchill, both self-proclaimed Navy men, Karl Dönitz, François Darlan, Ernest King, Isoroku Yamamoto, Erich Raeder, Inigo Campioni, Louis Mountbatten, William Halsey, as well as the hundreds of thousands of seamen and officers of all nationalities whose lives were imperiled and lost during the greatest naval conflicts in history, from small-scale assaults and amphibious operations to the largest armadas ever assembled. Many have argued that World War II was dominated by naval operations; few have shown and how and why this was the case. Symonds combines precision with story-telling verve, expertly illuminating not only the mechanics of large-scale warfare on (and below) the sea but offering wisdom into the nature of the war itself.

**Hirohito** Jean Sénat Fleury, 2019-10-11 *Hirohito: Guilty or Innocent: The Trial of the Emperor* is a book of information and training, a reference book that should be read as an educational tool on Japan's war in South East Asia and the Pacific. The book opens the debate on

Hirohito's responsibility during World War II with a posthumous trial against the Japanese emperor before the Permanent Peoples' Court for crimes against peace, war crimes, and crimes against humanity.

*Radiotelegraph & Radiotelephone Codes, Prowords and Abbreviations* John W Alcorn VK2JWA,1997

**War Made New** Max Boot,2006-10-19 A monumental, groundbreaking work, now in paperback, that shows how technological and strategic revolutions have transformed the battlefield Combining gripping narrative history with wide-ranging analysis, War Made New focuses on four revolutions in military affairs and describes how inventions ranging from gunpowder to GPS-guided air strikes have remade the field of battle—and shaped the rise and fall of empires. War Made New begins with the Gunpowder Revolution and explains warfare's evolution from ritualistic, drawn-out engagements to much deadlier events, precipitating the rise of the modern nation-state. He next explores the triumph of steel and steam during the Industrial Revolution, showing how it powered the spread of European colonial empires. Moving into the twentieth century and the Second Industrial Revolution, Boot examines three critical clashes of World War II to illustrate how new technology such as the tank, radio, and airplane ushered in terrifying new forms of warfare and the rise of centralized, and even totalitarian, world powers. Finally, Boot focuses on the Gulf War, the invasion of Afghanistan, and the Iraq War—arguing that even as cutting-edge technologies have made America the greatest military power in world history, advanced communications systems have allowed decentralized, irregular forces to become an increasingly significant threat.

*Japan's Empire Disaster* Jean Sénat Fleury,2021-04-27  
A former judge with a passion for history, Jean Sénat

Fleury was born in Haiti and currently lives in Boston. He wrote several historical books, such as: *The Stamp Trial*, *Jean-Jacques Dessalines: Words from Beyond the Grave*, *Toussaint Louverture: The Trial of the Slave Trafficking*, *Adolf Hitler: Trial in Absentia in Nuremberg*, *The Trial of Osama Bin Laden*, *Hirohito Guilty or Innocent: The Trial of the Emperor*. His new book, *Japan's Empire Disaster*, provides an understanding of the expansionist policy practiced by Japan during the end of the nineteenth and the first period of the twentieth century. From the adoption of the Meiji constitution in 1889 and the first period of the Shōwa era (1927-1945), the military controlled the Japanese constitutional government. The result was years of political instability, more internal conflicts, violence, murders, assassinations, overseas aggression, and war crimes. The book demonstrates that in Japan, during the Pacific War, the real driving force of the war was the Imperial Japanese Army and the Imperial Japanese Navy. Hirohito, as supreme commander, gave full support to the army and navy. On multiple occasions, he sanctioned many government policies. In fact, he was responsible for the atrocities that the Japanese troops committed in Asia during the Pacific War. *Japan's Empire Disaster* is a book of information and training. The book describes Japan's opening to modernization with the 1853 arrival of commodore Matthew Calbraith Perry in the country, and also details the history of the wars launched by Emperor Meiji and Emperor Hirohito to build Japan's empire in the nineteenth and the twentieth centuries.

*A History of Sea Power* William Oliver Stevens, Allan Ferguson Westcott, 1920

*The Tsar's Last Armada* Constantine Pleshakov, 2003-04-24 A lively account of one of the greatest naval battles in history retraces the fateful

journey of the Tsar's armada from the Suez Canal to the Korea Strait, where it was destroyed by the Japanese Navy in 1905. Reprint.

Historical Dictionary of United States-Japan Relations

John Van Sant, Peter Mauch, Western Sydney

University, Yoneyuki Sugita, 2007-01-29 The Historical Dictionary of United States-Japan Relations traces this one hundred and fifty year relationship through a chronology, an introduction, appendixes, a bibliography, and cross-referenced dictionary entries on key persons, places, events, institutions, and organizations. Covering everything from Walt Whitman's poem, A Broadway Pageant, commemorating the visit of the Shogun's Embassy to the U.S. in 1860, to zaibatsu, this ready reference is an excellent starting point for the study of Japan's dealings with the U.S.

**Racing the Enemy** Tsuyoshi Hasegawa, 2006-09-30

With startling revelations, Tsuyoshi Hasegawa rewrites the standard history of the end of World War II in the Pacific. By fully integrating the three key actors in the story—the United States, the Soviet Union, and Japan—Hasegawa for the first time puts the last months of the war into international perspective. From April 1945, when Stalin broke the Soviet-Japanese Neutrality Pact and Harry Truman assumed the presidency, to the final Soviet military actions against Japan, Hasegawa brings to light the real reasons Japan surrendered. From Washington to Moscow to Tokyo and back again, he shows us a high-stakes diplomatic game as Truman and Stalin sought to outmaneuver each other in forcing Japan's surrender; as Stalin dangled mediation offers to Japan while secretly preparing to fight in the Pacific; as Tokyo peace advocates desperately tried to stave off a war party determined to mount a last-ditch defense; and as the Americans struggled

to balance their competing interests of ending the war with Japan and preventing the Soviets from expanding into the Pacific. Authoritative and engrossing, *Racing the Enemy* puts the final days of World War II into a whole new light.

### **Japanese Popular Culture and Contents Tourism**

Philip A. Seaton, Takayoshi Yamamura, 2018-02-02 Contents tourism is tourism induced by the contents (narratives, characters, locations and other creative elements) of films, novels, games, manga, anime, television dramas and other forms of popular culture. Amidst the boom in global interest in Japanese popular culture, the utilization of popular culture to induce tourism domestically and internationally has been central to the Cool Japan strategy and, since 2005, government policy for local community revitalization. This book presents four main case studies of contents tourism: the phenomenon of anime pilgrimage to sites appearing in animated film; the travel behaviours and pop-spiritualism of female history fans to heritage sites; the collaboration between local community, fans and copyright holders that underpinned an anime-induced tourism boom in a small town north of Tokyo; and the large-scale economic impacts of tourism induced by NHK's annual samurai period drama (Taiga Drama). It is the first major collection of articles published in English about media-induced tourism in Japan using the contents tourism approach. This book will be of particular interest to students and researchers of media and tourism studies in Asia. This book was previously published as a special issue of Japan Forum.

*50 Battles That Changed the World* William Weir, 2018-05-29 An informative look at the military conflicts that most altered the course of history and civilization, from ancient times to the modern world. Rather than celebrating warfare, *50 Battles That Changed*

the World looks at the clashes the author believes have had the most profound impact on world history. Ranked in order of their relevance to the modern world, these struggles range from the ancient past to the present day and span the globe many times over. Some of the battles in this book are familiar to us all—Bunker Hill, which prevented the American Revolution from being stillborn, and Marathon, which kept the world's first democracy alive. Others may be less familiar—the naval battle at Diu (on the Indian Coast), which led to the ascendancy of Western Civilization and the discovery of America, and Yarmuk, which made possible the spread of Islam from Morocco to the Philippines. With remarkable accounts of both famous and lesser-known clashes, *50 Battles That Changed the World* provides impressive insight into the battles that shaped civilization as we know it.

**Modelling Naval Ships in Small Scales** Mike McCabe, 2021-04-26 This book provides a wealth of practical guidance on building and painting realistic model naval ships aimed at those who are new to this hobby through to the experienced modeller. An in-depth look at the creation of four models is included: the Type 45 destroyer HMS Daring (Dragon), the pre-war aircraft carrier USS Wasp (Aoshima), the River-class frigate HMS Nadder (Starling Models) and the 'pocket battleship' Admiral Graf Spee (Academy). With a focus on the popular kit scales of 1/700 and 1/350 in the waterline style, this book demonstrates the techniques used in building model ships, from the basic to the more complex, larger-scale models requiring many differing skills. There are chapters on the fundamentals such as building resin kits, painting and weathering, rigging and creating a water effect. It provides guidance on more advanced techniques such as the use of photo-etched parts and creating rough-water

effects. Finally, it is packed with helpful tips and finishing touches, such as making flags and how to take professional-standard photographs of your completed model.

**Scenes From the Japan-China War** Jukichi

1862-1929 Inouye, Eiki Illustrator Yamamoto, 2021-09-10

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations.

Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

**Naval Surface Fire Support** Bradley Martin, Brittany

Clayton, Jonathan Welch, 2021-09-30 The authors developed recommendations to improve existing formal requirements and technological solutions regarding naval surface fire support, a way for the U.S. Navy to provide the equivalent of artillery support for forces operating ashore.

*From Pole to Pole, a Book for Young People* Sven

Anders Hedin, 2023-07-18 Swedish explorer Sven Anders Hedin recounts his adventures in this book for young readers. Hedin describes his travels in Asia and Africa, including his crossings of the Gobi and Sahara deserts and his visits to remote mountain regions and ancient ruins.

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it.
