*The Imperial Japanese Navy of the Russo-Japanese War* Mark Stille,2016-03-24 When the Imperial Japanese Navy destroyed Russia's battle fleet during the Russo-Japanese War, it marked the emergence of Japan as one of the world's major naval powers. Japan's navy had been built up over just two decades, with the IJN acquiring a fleet of modern foreign-built warships. Coupled with the IJN's leadership and high levels of training, this proved enough to destroy the fleet of one of the world's historic naval powers. This book explains in concise detail the IJN's fleet of 1904-1905, from its battleships and armored cruisers to the torpedo boats that launched 'the first great torpedo attack in history,' and outlines the history of the naval campaign against the Russian fleet.

*Sino-Japanese Naval War 1894-1895* Piotr Olender,2014-07-19 This new book covers the Sino-Japan Naval War 1894-1895, a little-known part of late 19thC naval history. The First Sino-Japanese War (1 August 1894 \_ 17 April 1895) was fought between Qing Dynasty China and Meiji Japan, primarily over control of Korea. After more than six months of continuous successes by the Japanese army and naval forces, as well as the loss of the Chinese port of Weihai, the Qing leadership sued for peace in February 1895. The background, operations and outcomes are described in detail. All the ships involved, both Japanese and Chinese, are described and illustrated with full technical specifications. Profusely illustrated with scale drawings, maps, drawings and rare photos.

*Russian Battleships and Cruisers of the Russo-Japanese War* Mark Lardas,2019-10-31 This book examines the major warships of the Imperial Russian Navy which participated in the Russo-Japanese

War. The focus is on the battleships, coastal defence warships, and cruisers of the Pacific Squadron and Baltic Squadron that fought during the war. It discusses in detail their design and development between the years of 1885 and 1905, concentrating particularly on battleships and cruisers. The book explores, in depth, the mutually influential relationship between Russian and foreign warship design, as Russia progressed from a reliance on foreign designs and shipyards towards an ability to produce its own influential ships, such as the Novik. The title also outlines the gripping operational history of the Russian warships which participated in the Russo-Japanese war, tracing their activity before and during the combat, as well as the post-war fate of those ships which were bombarded, scuttled, captured, or salvaged. Packed with contemporary photography and full-colour illustrations, this title offers a detailed and definitive guide to the design, development, and destiny of the Russian warships which battled the Japanese in the Eastern seas.

Rebuilding the Royal Navy D. K. Brown, George Moore, 2012-07-30 This design history of post-war British warship development, based on both declassified documentation and personal experience, is the fourth and final volume in the author's masterly account of development of Royal Navy's ships from the 1850s to the Falklands War. In this volume the author covers the period in which he himself worked as a Naval Constructor, while this personal knowledge is augmented by George Moore's in-depth archival research on recently declassified material. The RN fleet in 1945 was old and worn out, while new threats and technologies, and post-war austerity called for new

solutions. How designers responded to these unprecedented challenges is the central theme of this book. It covers the ambitious plans for the conversion or replacement of the bigger ships; looks at all the new construction, from aircraft carriers, through destroyers and frigates, to submarines (including nuclear and strategic), to minesweepers and small craft. The authors pay particular attention to the innovations introduced, and analyses the impact of the Falklands War. At the start of the twenty-first century the Royal Navy is still a powerful and potent force with new and a number of innovative classes, both surface and sub-surface, coming on stream. This book offers a fascinating insight into how the post-war fleet developed and adapted to the changing role of the Navy.

**Industrial Clusters in Asia** A. Kuchiki, M. Tsuji, 2005-10-19 This book focuses on East Asia, which has been attracting FDI and a centre of industrial agglomeration, and because of this, the production structure in the world has been dynamically transforming. This book analyzes this world trend and provides a framework for strategy that is required not only for Japanese local governments to implement industrial cluster policy, but also for firms to survive the global competition.

*Digital Transformation in Business and Society* Babu George, Justin Paul, 2019-10-04 The digital traces that people leave behind as they conduct their daily lives provide a powerful resource for businesses to better understand the dynamics of an otherwise chaotic society. Digital technologies have become omnipresent in our lives and we still do not fully know how to make the best use of the data these technologies could harness. Businesses leveraging big data appropriately could definitely gain a sustainable competitive advantage. With a balanced mix of texts and cases, this book discusses a variety of digital technologies and how they transform people and organizations. It offers

a debate on the societal consequences of the yet unfolding technological revolution and proposes alternatives for harnessing disruptive technologies for the greater benefit of all. This book will have wide appeal to academics in technology management, strategy, marketing, and human resource management.

**No Ordinary Joes** Larry Colton, 2010-10-05 On April 23, 1943, the seventy-man crew of the USS Grenadier scrambled to save their submarine—and themselves—after a Japanese aerial torpedo sent it crashing to the ocean floor. Miraculously, the men were able to bring the sub back to the surface, only to be captured by the Japanese. No Ordinary Joes tells the harrowing story of four of the Grenadier's crew: Bob Palmer of Medford, Oregon; Chuck Vervalin of Dundee, New York; Tim McCoy of Dallas, Texas; and Gordy Cox of Yakima, Washington. All were enlistees from families that struggled through the Great Depression. The lure of service and duty to country were not their primary motivations—they were more compelled by the promise of a job that provided “three hots and a cot” and a steady paycheck. On the day they were captured, all four were still teenagers. Together, the men faced unimaginable brutality at the hands of their captors in a prisoner of war camp. With no training in how to respond in the face of relentless interrogations and with less than a cup of rice per day for sustenance, each man created his own strategy for survival. When the liberation finally came, all four anticipated a triumphant homecoming to waiting families, loved ones, and wives, but instead were forced to find a new kind of strength as they struggled to resume their

lives in a world that had given them up for dead, and with the aftershocks of an experience that haunted and colored the rest of their days. Author Larry Colton brings the lives of these four “ordinary” heroes into brilliant focus. Theirs is a story of tragedy and courage, romance and war, loss and endurance, failure and redemption. With a scope both panoramic and disarmingly intimate, *No Ordinary Joes* is a powerful look at the atrocities of war, the reality of its aftermath, and the restorative power of love.

*But Not in Shame* John Toland,2016-08-17 December 7, 1941 - at exactly 7:55AM on a seemingly peaceful Sunday morning, the United States was plunged into the greatest war in history! What were the events which determined the Pearl Harbor catastrophe? What were the last few days on Wake Island like? What really occurred on the infamous Bataan Death March and why did it happen? How did MacArthur make his dramatic escape from Corregidor? And what is the story behind the greatest capitulation in American history, General Wainwright's forced surrender of the Philippines? *But Not in Shame* begins with the race to decode intercepted secret Japanese messages the day before the Pearl Harbor attack, and ends six months later with the stunning victory which unexpectedly turned the tide - the Battle of Midway. More than an exciting narrative of battles and leaders, it is a story of the individuals on both sides who took part in the most critical decisions and momentous events.
