Digital Copyright and the Consumer Revolution Matthew Rimmer, 2007-01-01 A very helpful and accessible collection of contemporary issues in digital copyright law. . . Rimmer's book is quite possibly the most enjoyable and easy to read guide to selected issues of digital copyright law on the market today. . . Its core strength is undoubtedly its accessibility it is a pleasure to read. Martin Arthur Kupperts, Journal of Intellectual Property Law and Practice Matthew Rimmer's book provides much needed insight into the current status of digital copyright and its relationship to the general purchasing public. . . This book, which has a structure that flows with concinnity and concision, makes it easy to navigate some of the most complicated and controversial issues. Lisa Wong, Osgoode Hall Law Journal This engaging account of US copyright law (and copyright wars) is thorough and informative. Following a comprehensive and compelling introduction, encompassing a literature review and outline of the methodology and arguments to be adopted. . . His deep understanding of the subject matter, as well as his profound empathy with consumers, are evident throughout the work; the book will, no doubt, foster a similar interest in another generation of copyright law scholars. Louise Buckingham, Copyright Reporter Digital Copyright and the Consumer Revolution is a very important and timely book. . . and is a crucial vade mecum on the ever evolving global maze of case law and copyright reform. Colin Steele, Australian Library Journal It will most definitely prove to be an indispensable tool for researchers concerned with recent legal developments in the copyright field, both in America and Australia. Rimmer's Hands Off My iPod is a comprehensive and detailed analysis of current problems facing copyright holders as the struggle (and often fumble) to find a balance between profiting off their property and keeping the newly-powerful, increasingly agile user happy. Adam Sulewski, Journal of High Technology Law Rimmer brings the tension between law and technology to life in this important and accessible work. Digital Copyright and the Consumer Revolution helps make sense of the global maze of caselaw and copyright reform that extend from San Francisco to Sydney. The book provides a terrific guide to the world's thorniest digital legal issues as Rimmer demonstrates how the consumer interest is frequently lost in the crossfire. Michael A. Geist, the Canada Research Chair of Internet and E-Commerce Law, the University of Ottawa, Canada This book documents and evaluates the growing consumer revolution against digital copyright law, and makes a unique theoretical contribution to the debate surrounding this issue. With a focus on recent US copyright law, the book charts the consumer rebellion against the Sonny Bono Copyright Term Extension Act 1998 (US) and the Digital Millennium Copyright Act 1998 (US). The author explores the significance of key judicial rulings and considers legal controversies over new technologies, such as the iPod, TiVo, Sony Playstation II, Google Book Search, and peer-to-peer networks. The book also highlights cultural developments, such as the emergence of digital sampling and mash-ups, the construction of the BBC Creative Archive, and the evolution of the Creative Commons. Digital Copyright and the Consumer Revolution will be of prime interest to academics, law students and lawyers interested in the ramifications of copyright law, as well as policymakers given its focus upon recent legislative developments and reform proposals. The book will also appeal to librarians, information managers, creative artists, consumers, technology developers, and other users of copyright material.

**Big Day Coming** Jesse Jarnow, 2012-06-05 The first biography of Yo La Tengo, the massively influential band who all but defined indie music. Yo La Tengo has lit up the indie scene for three decades, part of an underground revolution that defied corporate music conglomerates, eschewed pop radio, and found a third way. Going behind the scenes of one of the most remarkable eras in American music history, Big Day Coming traces the patient rise of husband-and-wife team Ira Kaplan and Georgia Hubley, who—over three decades—helped forge a spandex-and-hairspray-free path to the global stage, selling millions of records along the way and influencing countless bands. Using the continuously vital Yo La Tengo as a springboard, Big Day Coming uncovers the history of the legendary clubs,

bands, zines, labels, record stores, college radio stations, fans, and pivotal figures that built the infrastructure of the now-prevalent indie rock world. Journalist and freeform radio DJ Jesse Jarnow draws on all-access interviews and archives for mesmerizing trip through contemporary music history told through one of its most creative and singular acts.

**The Future of the Internet** Jonathan Zittrain, 2009-05-28 In *The Future of the Internet: And How to Stop It* Jonathan Zittrain explores the dangers the internet faces if it fails to balance ever more tightly controlled technologies with the flow of innovation that has generated so much progress in the field of technology. Zittrain argues that today's technological market is dominated by two contrasting business models: the generative and the non-generative. The generative models - the PCs, Windows and Macs of this world - allow third parties to build upon and share through them. The non-generative model is more restricted; appliances such as the xbox, iPod and tomtom might work well, but the only entity that can change the way they operate is the vendor. If we want the internet to survive we need to change. People must wake up to the risk or we could lose everything.

**Promises to Keep** William W. Fisher, III, 2004 During the past fifteen years, changes in technology have generated an extraordinary array of new ways in which music and movies can be produced and distributed. Both the creators and the consumers of entertainment products stand to benefit enormously from the new systems. Sadly, we have failed thus far to avail ourselves of these opportunities. Instead, much energy has been devoted to interpreting or changing legal rules in hopes of defending older business models against the threats posed by the new technologies. These efforts to plug the multiplying holes in the legal dikes are failing and the entertainment industry has fallen into crisis. This provocative book chronicles how we got into this mess and presents three alternative proposals--each involving a combination of legal reforms and new business models--for how we could get out of it.

*Fan Fiction and Fan Communities in the Age of the Internet* Kristina Busse, 2014-09-17 Fans have been responding to literary works since the days of Homer's *Odyssey* and Euripedes' *Medea*. More recently, a number of science fiction, fantasy, media, and game works have found devoted fan followings. The advent of the Internet has brought these groups from relatively limited, face-to-face enterprises to easily accessible global communities, within which fan texts proliferate and are widely read and even more widely commented upon. New interactions between readers and writers of fan texts are possible in these new virtual communities. From *Star Trek* to *Harry Potter*, the essays in this volume explore the world of fan fiction--its purposes, how it is created, how the fan experiences it. Grouped by subject matter, essays cover topics such as genre intersection, sexual relationships between characters, character construction through narrative, and the role of the beta reader in online communities. The work also discusses the terminology used by creators of fan artifacts and comments on the effects of technological advancements on fan communities. Instructors considering this book for use in a course may request an examination copy here.

*Logo, revised edition* Michael Evamy, 2020-08-18 'The next time you are tempted to design a logo, take a look at this book. Chances are, it has already been done. By raising the bar, this wonderful resource will make better designers of all of us.' – Michael Bierut of Pentagram Design, on the first edition of *Logo* This bestselling logo bible has provided graphic designers with an indispensable reference source for over a decade, and over 300 new logos have been added to this fully revised and updated edition. All the logos are grouped into categories such as crosses, stars, crowns, animals, and people, and are shown in black and white to emphasize the visual form of the logos. This offers designers a ready resource to draw upon in the research phase of identity projects. Logos are also indexed alphabetically by name of designer, and by industrial sector for ease of use.

**Appropriating Technology** Ron Eglash, 2004 From the vernacular engineering of Latino car design to environmental analysis among rural women to the production of indigenous herbal cures-groups outside the centers of scientific power persistently defy the notion that they are merely passive recipients of technological products and scientific knowledge. This is the first study of how such outsiders reinvent consumer products-often in ways that embody critique, resistance, or outright revolt. Contributors: Richard M. **I Must Say** Martin Short, 2014-11-04 In this engagingly witty, wise, and heartfelt memoir, Martin Short tells the tale of how a showbiz-obsessed kid from Canada transformed himself into one of Hollywood's favorite funny-men, known to his famous peers as the comedian's comedian. Short takes the reader on a rich, hilarious, and occasionally heartbreaking ride through his life and times, from his early years in Toronto as a member of the fabled improvisational troupe *Second City* to the all-American comic big time of *Saturday Night Live*, and from memorable roles in such movies as *iThree Amigos!* and *Father of the Bride* to Broadway stardom in *Fame Becomes Me* and the Tony-winning *Little Me*. He reveals how he created his most indelible comedic characters, among them the manic man-child Ed Grimley, the slimy corporate lawyer Nathan Thurm, and the bizarrely insensitive interviewer Jiminy Glick. Throughout, Short freely shares the spotlight with friends, colleagues, and collaborators, among them Steve Martin, Tom Hanks, Gilda Radner, Mel Brooks, Nora Ephron, Eugene Levy, Catherine O'Hara, Paul Shaffer, and David Letterman. But there is another side to Short's life that he has long kept private. He lost his eldest brother and both parents by the time he turned twenty, and, more recently, he lost his wife of thirty years to cancer. In *I Must Say*, Short talks for the first time about the pain that these losses inflicted and the upbeat life philosophy that has kept him resilient and carried him through. In the grand tradition of comedy legends, Martin Short offers a show-business memoir densely populated with boldface names and rife with retellable tales: a hugely entertaining yet surprisingly moving self-portrait that will keep you laughing--and crying--from the first page to the last.

*Set of 10 Plastic* Bmh Books, 1993 Set of 10 plastic charts include: From Creation to Abraham, Old Testament Patriarchs and Judges, Old Testament Kings and Prophets, The Period Between the Testaments, New Testament Chronological Chart, Chronology of the Crucifixion and the Last Week, The Thousand Year Reign of Christ Over the Earth, Five Worlds of History, Science and Prophecy, Babylonian Captivity, The Tribulation and Christ's Second Coming

*Atlas of Novel Tectonics* Jesse Reiser, Nanako Umemoto, 2006-03-09 Architects Jesse Reiser and Nanako Umemoto have been generating some of the most provocative thinking in the field for nearly twenty years. With *Atlas of Novel Tectonics*, Reiser+Umemoto hone in on the many facets of architecture and illuminate their theories with great thought and simplicity. The *Atlas* is organized as an accumulation of short chapters that address the workings of matter and force, material science, the lessons of art and architectural history, and the influence of architecture on culture (and vice versa). Reiser+Umemoto see architectural design as a series of problem situations, and each chapter is an argument devoted to a specific condition or case. Influenced by a wide range of fields and phenomena Brillat-Savarin's classic *The Physiology of Taste* is one of their primary models the authors provide a cross-section of thinking and inspiration. The result is both an elucidation of the concepts that guide Reiser+Umemoto through their own design process and a series of meditations on topics that have formed their own sense as architects. *Atlas of Novel Tectonics* offers an entirely fresh perspective on subjects that are generally taken for granted, and does so with a welcome punch and energy.

**Logo Design Love** David Airey, 2009-12-20 There are a lot of books out there that show collections of logos. But David Airey's "Logo Design Love" is something different: it's a guide for designers (and clients) who want to understand what this mysterious business is all about. Written in reader-friendly, concise language, with a minimum of designer jargon, Airey gives a surprisingly clear explanation of the process, using a wide assortment of real-life examples to support his points. Anyone involved in creating visual identities, or wanting to learn how to go about it, will find this book invaluable. - Tom Geismar, Chermayeff & Geismar In *Logo Design Love*, Irish graphic designer David Airey brings the best parts of his wildly popular blog of the same name to the printed page. Just as in the blog, David fills each page of this simple, modern-looking book with gorgeous logos and real world anecdotes that illustrate best practices for designing brand identity systems that last. David not only shares his experiences working with clients, including sketches and final results of his successful designs, but uses the work of many well-known designers to explain why well-crafted brand identity systems are important, how to create iconic logos, and how to best work with clients to achieve success as a designer. Contributors include Gerard Huerta, who designed the logos for Time magazine and Waldenbooks; Lindon Leader, who created the current FedEx brand identity system as well as the CIGNA logo; and many more. Readers will learn: Why one logo is more effective than another How to create their own iconic designs What sets some designers above the rest Best practices for working with clients 25 practical design tips for creating logos that last

**Overstated** Colin Quinn, 2020-09-22 In Colin Quinn's new book, the popular comedian, social commentator, and star of the shows *Red State Blue State* and *Unconstitutional* tackles the condition of our union today. Utah: The Church of States Vermont: The Old Hippie State Florida: The Hot Mess State Arizona: The Instagram Model State Wisconsin: The Diet Starts Tomorrow State The United States is in a fifty-states-wide couples' counseling session, thinking about filing for divorce. But is that really what we want? Can a nation composed of states that are so different possibly hang together? Colin Quinn, comedian, social commentator, and writer and star of *Red State Blue State* and *Unconstitutional*, calls us out state-by-state, from Connecticut to Hawaii. He identifies the hypocrisies inherent in what we claim to believe and what we actually do. Within a framework of big-picture thinking about systems of government—after all, how would you put this country together if you started from scratch today?—to dead-on observations about the quirks and vibes of the citizens in each region, *Overstated* skewers us all: red, blue, and purple. It's ultimately infused with the same blend of optimism and practicality that sparked the U.S. into being.

His devoted clientele have included Lee Radziwill, Diane von Furstenberg, Elizabeth Taylor, Barbra Streisand, and Gwen Stefani. This elegantly designed volume--filled with original photography of the jewelry, Webb's own sketches and drawings, and more than sixty images from leading fashion magazines--will become the definitive reference book for collectors, dealers, and curators, and those who swoon at all that glitters.

Projects and Their Consequences Jesse Reiser, 2019-05-28 *Projects and Their Consequences* presents fifteen key projects from leading architectural thinkers Reiser + Umemoto. *Projects and Their Consequences* traces thirty years of innovative, multidisciplinary investigations of form, structure, technique, and planning. Projects include large-scale studies of infrastructure for the East River Corridor and Hudson Yards areas in Manhattan and the Alishan Railway in Taiwan, as well as schemes for cultural institutions including the New Museum, Children's Museum of Pittsburgh, and University of Applied Arts Vienna. Also included are thought-provoking textual projects: narrative works that blur the boundaries of art and architecture. *Projects and Their Consequences* balances incisive interviews and essays with more than 400 strikingly original drawings, collages, and paintings. Large-format and beautifully designed, it is a necessary volume for architects and those interested in the intersection of architecture, art, and culture.
