Social and Economic Dimensions of Carrageenan Seaweed Farming Diego Valderrama, Juning Cai, Nathanaël Hishamunda, Neil B. Ridler, 2013 Carrageenan is a gelling agent extracted from red seaweeds and it has multiple applications in the food processing and other industries. Increasing demand for carrageenan has led to rapid expansion of carrageenan seaweed (primarily Kappaphycus and Eucheuma) farming in tropical areas. This expansion is expected to continue, but many issues need to be addressed to enable the sector to develop its full potential in contributing towards sustainable livelihoods, human development and social well-being. Including six country case studies and a global synthesis, this document provides a comprehensive and balanced assessment of the economic, social and governance dimensions of carrageenan seaweed farming. Information and insights provided by this document should facilitate evidence-based decision-makings in both the public and private sectors.

Lakota Woman Mary Crow Dog, Richard Erdoes, 2014-11-18 The bestselling memoir of a Native American woman's struggles and the life she found in activism: "courageous, impassioned, poetic and inspirational" (Publishers Weekly). Mary Brave Bird grew up on the Rosebud Indian Reservation in South Dakota in a one-room cabin without running water or electricity. With her white father gone, she was left to endure "half-breed" status amid the violence, machismo, and aimless drinking of life on the reservation. Rebelling against all this—as well as a punishing Catholic missionary school—she became a teenage runaway. Mary was eighteen and pregnant when the rebellion at Wounded Knee happened in 1973. Inspired to take action, she joined the American Indian Movement to fight for the rights of her people. Later, she married Leonard Crow Dog, the AIM's chief medicine man, who revived the sacred but outlawed Ghost Dance. Originally published in 1990, *Lakota Woman* was a national bestseller and winner of the American Book Award. It is a story of determination against all odds, of the cruelties perpetuated against American Indians, and of the Native American struggle for rights. Working with Richard Erdoes, one of the twentieth century's leading writers on Native American affairs, Brave Bird recounts her difficult upbringing and the path of her fascinating life.

Management in Complex Environments Brian Ganson, 2013-10-25 Companies operating in complex environments require a rigorous understanding of the economic, political, social and conflict dynamics of which they become part. Such insight helps them navigate substantial risks and challenges, grow their business even in unexpected places, work more effectively with local, national and international actors, and make meaningful contributions to stability and development. This book combines expert analysis, company case stories, and reflections from more than 100 business leaders. Drawing on a vast repository of knowledge and experience, it poses essential questions to better understand a particular complex environment and lead the company within it. It concretely demonstrates how leaders can help their companies meet their full range of goals - technical, financial, legal, reputation and social - by addressing the questions set out in this book. It is an invaluable resource for corporate practitioners and others concerned with company operations in complex environments. The book is the result of an intense and fruitful collaboration among the Africa Centre for Dispute Settlement, University of Stellenbosch Business School; the Corporate Engagement and Reflecting on Peace Practice Programs of CDA; the Geneva Peacebuilding Platform; the Institute for Business in the Global Context of The Fletcher School, Tufts University; the IRENE Institute of ESSEC Business School; the International Council of Swedish Industry; and the Stockholm Policy Group. Biological and Artificial Intelligence Environments Bruno Apolloni, Maria Marinaro, Roberto Tagliaferri, 2007-11-04 The book reports the proceedings of the 15th Italian workshop on neural networks issued by the Italian Society on Neural Networks SIREN. The longevity recipe of this conference stands in three main points that normally renders the reading of these proceedings so interesting as appealing. 1. The topics of the neural networks is considered an attraction pole for a set of researches centered on the inherent paradigm of the neural networks, rather than on a specific tool exclusively. Thus, the subsymbolic management of the data information content constitutes the key feature of papers in various fields such as Pattern Recognition, Stochastic Optimization, Learning, Granular Computing, and so on, with a special bias toward bioinformatics operational applications. An excerpt of all these matters may be found in the book. 2. Though managed at domestic level, the conference attracts contributions from foreign researchers as well, so that in the book the reader may capture the flavor of the state of the art in the international community. 3. The conference is a meeting of friends as well. Thus the papers generally reflect a relaxed atmosphere where researchers meet to generously exchange their thought and explain their actual results in view of a common cultural growing of the community.

Brand Touchpoints Aparna Sundar, 2018 Brand touchpoints are used to reinforce the basic premise of branding, which is to distinguish brands from their competitors and remain memorable, ultimately keeping customers resolute

in their allegiance. Information related through brand touchpoints increases brand familiarity, contributes to a brand's value, improves attitudes towards a brand, and in general is essential to maintain an ongoing relationship with consumers. Given the role of brand touchpoints, a look at contemporary issues is warranted. *Brand Touchpoints* is a collection of chapters by academics, practitioners and designers on the current evolution of brand communication. The book looks at existing issues in the marketplace and ways to influence the branding process. First, the changing role of brand touchpoints is reviewed in terms of the move from physical assets such as stores, trucks, and outdoor billboards to digital applications. A foundational sense of how consumers develop inferences surrounding brand touchpoints is then explored. Following this, prescriptive models for building brands to enhance the effectiveness of brand touchpoints are proposed. Then the ability of tangible touchpoints such as product design, packaging, and other tangible aspects of the brand to inform macro branding is reviewed. A case is made for more research on multisensory aspects of a brand. Chapters in the final section of the book explore brand touchpoints as it influences microtrends of prosocial consumers, children and ardent sports fans. To conclude, novel linkages in brand literature that set up an agenda for future research as it relates to consumer culture is discussed. The diverse set of chapters in this book offer a well-timed, in-depth summary of the various academic literature and industry phenomenon. Chapters are contributed by leading academic and industry experts which include: Chris Allen, University of Cincinnati; Clarinda Rodrigues, Linnaeus University; Claudio Alvarez, Baylor University; Conor Henderson, University of Oregon; Dominic Walsh, Landor Associates; Doug Ewing, Bowling Green State University; Drew Boyd, University of Cincinnati; Frank R. Kardes, University of Cincinnati; Frank Veltri, University of Oregon; Kathryn Mercurio, University of Oregon; Lars Bergkvist, Zayed University; Marc Mazodier, Zayed University; Matt Carcieri, The Jim Stengel Company; Maureen Morrin, Temple University; Peter Chamberlain, University of Cincinnati; Remi Trudel, Boston University; Sara Baskentli, City University of New York; Susan P.
