Diamonds Take Forever Jessica Jiji,2009-11-10 Hot for the rock . . . If her old-fashioned family had never left Morocco, Michelle Benamou would have been in big trouble, being almost thirty and nowhere near married. Luckily, in the hardy multicultural stew of New York City, she's been able to follow her other dreams, working her way up from broadcast news producer to on-air reporter. Still, there's something sparkly missing from the ring finger of her left hand. . . Michelle thinks maybe her sexy, ex-Marine boyfriend can provide it -- until Joe abruptly tells her adios. Her old friend Benny from the Bronx is an intriguing possibility -- but he's out in L.A. . . . and not quite divorced. It's tough for a sexy, very modern urban woman to follow the traditional calls of the marriage muezzins to matrimony -- especially when the rest of her life starts racing rapidly downhill. Suddenly in desperate need of an affordable new Manhattan apartment (an oxymoron), and quite possibly a new career (a catastrophe), Michelle's got other worries besides finding

passionate love sealed with an I do. But a diamond is just coal, after all, until it's forged by fire and time. And sometimes something precious, strong, dazzling, and enduring can turn up when you least expect it . . .

How To Judge A Book By Its Lover Jessica Jiji,2020-09-07 HOW TO TELL A BOOK BY ITS LOVER, by Jessica Jiji, is a fast-paced, funny and endearing rom-com treat. Long Island-born Laurel Linden, who fancies herself a writer, craves a publishing contract for her 600-page historical novel about Napoleon Bonaparte's hairdresser. Despite mounting evidence that her book is a mess, Laurel holds out hope it will be a bestseller, biding her time until she's fabulously famous by earning cash as a New York City dog walker. Meanwhile, she has to steel herself against everyone urging her to quit writing fiction and get a real job, especially sister Jenna, the drama-queen-turned-perfect-housewife who always thinks she knows best. Laurel wants to date a sexy and sophisticated New Yorker but her only offer is from Irwin, a suburban pediatric dentist. With no hope of success in her career or her love life, she decides to accept a job at a girdle-industry trade magazine and give Irwin a shot at her heart. That's when she lands her newest dog-walking client - Anderson Gallant, the son of one of the most powerful men in publishing - and meets a handsome Belgian art critic named Lucien. Her best friend Vanessa encourages Laurel to find the guts to manipulate

Anderson into giving her a huge book deal, nab Lucien as her boyfriend and stand up to Jenna. But, slowly and dreadfully, Laurel comes to realize that her epic Napoleon's Hairdresser is hilariously bad, Lucien is a pretentious jerk, and, worst of all, Vanessa is a frenemy. In a bold move, Laurel gives up her book contract, her boyfriend and the toxic BFF. And that's when she discovers that life's scariest risk leads to its sweetest happily ever after. A delightfully funny and witty urban tale of a compelling young woman's search for romance and career success that finds a fabulous finale when high dreams and ambitions are adjusted to sweeter, closer-to-home choices. -- Susana Aikin, author of *THE WEIGHT OF THE HEART*. I loved it. Funny and soulful with lots of jokes. A cross between *Seinfeld* and *Bridget Jones*. - Nick Griffin, late night comic.

Historical Records of the Five Dynasties Xiu Ouyang, 2004 Only fragments of historical text from China's middle period have been translated into English, until now. Here at last is the first major Chinese historical work from the Song dynasty. Written by Ouyang Xiu, an intellectual giant of the eleventh century, this is a history of the preceding century (907--979), a period known as the Five Dynasties. The historical and literary significance of Ouyang's achievement cannot be underestimated. In rewriting the existing official history of the Five Dynasties, Ouyang -- whose own time was characterized by extraordinary intellectual and political innovation -- made several notable decisions. He rewrote the history in the ancient style preferred by forward-thinking literati; he even rewrote the original documents quoted within biographies. He also relied on his own moral categories,

reevaluating the worth of the historical figures in light of his own convictions that individuals should take personal responsibility for the fate of society. Ouyang's history would eventually become the official version -- the last state-sanctioned dynastic history of imperial China to be written by an individual in a private capacity. In addition to its provocative insights and lucid presentation, Historical Records of the Five Dynasties is an eloquent statement on the art of historical writing in the eleventh century. A preeminent scholar of Chinese history, Richard L. Davis has provided a thorough introduction and rendered nearly two-thirds of the Chinese original into English, including complete sections critical to understanding the politics and personalities of the time. Biographical clusters based on Ouyang's moral categories also appear in full, helping readers to appreciate the Confucian agenda that informs the work.

Jiji Emilie Achin, 2018-03-06 Alors que Jiji vit un conte de fées, le destin décide de lui mettre des bâtons dans les roues. Elle qui pensait, il y a encore quelques semaines, finir ses jours seule, son prince charmant lui a fait une demande dans les circonstances plutôt insolites. Elle n'imagine pas ce que l'avenir lui réserve, mais ce qui l'importe aujourd'hui, c'est d'être heureuse avec l'homme qu'elle aime. Seulement, elle va rapidement comprendre qu'en amour, rien n'est acquis.

Jiji Lily Robert-Foley, 2016-09-08 Jiji tells the story of two tragic lovers : the signifier and the signified; aching to be together yet doomed to remain apart. Like lovers flirt, the language in Jiji flirts with breaking its bond with the reader. The text erodes, drawing farther and farther from accessible reading. Falling in love is the story of learning to read a new code. A broken heart is the story of unlearning normal codes. In Jiji, the lovers create a new way of making text called « machines » : conceptual poetry devices intended to read and study language by revealing and rewriting structures implicit in reappropriated texts to create new texts and rinse, lather, repeat. When the machines begin, the orthographic modifications stop; the end begins. Be brave, reader.

Sweet Dates in Basra Jessica Jiji, 2010-04-10 “In this story of love and search for identity, Jessica Jiji succeeds fully in capturing passions, depth of feeling, and strong relationships beyond ethnic and religious differences.” —Naim Kattan, author of Farewell Babylon Jessica Jiji’s Sweet Dates in Basra is a compelling, poignant, and unforgettable tale

of friendship and family, set in Iraq during the second world war. A dramatic departure from Jiji's previous novel, *Diamonds Take Forever*, *Sweet Dates in Basra* brilliantly captures the atmosphere of a volatile Middle East during the previous century and pays tribute to the lost traditions of a once-idyllic world.

International Security in the Asia-Pacific Alan Chong, 2017-09-13 This volume argues that international security in the Asia-Pacific lends itself to contradictory analyses of centrifugal and centripetal trends. Transitional polycentrism is intrinsically awkward as a description of the security of states and their populations; it implies the loosening of state control and the emergence of newly asserted authority by mixed constellations of intergovernmental organizations and non-state actors. It implies a competition of agendas: threats to the integrity of borders and human security threats such as natural disasters, airliner crashes, and displacement by man-made pollution and food scarcity. Conversely, polycentrism could also imply a return to a more neo-realist oriented international order where great powers ignore ASEAN and steer regional order according to their perceived interests and relative military superiority. This book embraces these contradictory trends as a foundation of analysis and accepts that disorder can also be re-described from the perspective of studied detachment as polycentric order.

Interconnection Network Reliability Evaluation Neeraj Kumar Goyal, S.

Rajkumar, 2020-09-15 Keeping in view the growth of the technological frontiers, there is always a need for the development of reliable, fault tolerant and cost- effective interconnection networks (INs) which are the critical metrics to achieve the goal of

parallelism. The main objective of this book is to design new fault tolerant interconnection network layouts capable of path redundancy among dynamic failures. New INs designs are proposed and their observed results are found promising when compared with some of the earlier networks. The book also covers the reliability evaluation of various industrial network topologies considering multiple reliability performance parameters (2-TR, broadcast and ATR). Finally, the book also focuses on reliability evaluation and comparison of various topologies considering connectivity among multiple sources and multiple destinations (MSMT) nodes.
