Make Animal Sculptures with Paper Mache Clay Jonni Good,2010 If you've always wanted to create life-like animal sculptures, but you thought it would be too hard or too expensive, you're in for a very pleasant surprise. This book contains step-by-step instructions and over 250 photos to guide you through the enjoyable process of making realistic animal sculptures in a whole new way. Jonni Good's easy techniques help you create stunning wildlife art without the mess usually associated with papier mache - and the patterns included in each chapter guarantee that your sculptures will be perfectly shaped and proportioned from the very start. Paper mache clay takes about 5 minutes to make, using inexpensive ingredients. Applying the clay to your form is as easy as frosting a cake. It goes on smooth, and dries hard and strong. It's easy to form life-like details like eyes and noses, fur and scales. Then finish your sculptures with acrylic paints to bring them to life. Jonni even shows you how to create your own patterns from original drawings or photos, so you can use her techniques to sculpt any animal you like. Creating life-like animal sculptures has never been so easy, or so much fun!

**Under the Skin** Linda Villarosa, 2022-06-14 PULITZER PRIZE FINALIST • A stunning exposé of why Black people in our society 'live sicker and die quicker'—an eye-opening game changer.—Oprah Daily From an award-winning writer at the New York Times Magazine and a contributor to the 1619 Project comes a landmark book that tells the full story of racial health disparities in America, revealing the toll racism takes on individuals and the health of our nation. In 2018, Linda Villarosa's New York Times Magazine article on maternal and infant mortality among black mothers and babies in America caused an awakening. Hundreds of studies had previously established a link between racial discrimination and the health of Black Americans, with little progress toward solutions. But Villarosa's article exposing that a Black woman with a college education is as likely to die or nearly die in childbirth as a white woman with an eighth grade education made racial disparities in health care impossible to ignore. Now, in *Under the Skin*, Linda Villarosa lays bare the forces in the American health-care system and in American society that

cause Black people to “live sicker and die quicker” compared to their white counterparts. Today's medical texts and instruments still carry fallacious slavery-era assumptions that Black bodies are fundamentally different from white bodies. Study after study of medical settings show worse treatment and outcomes for Black patients. Black people live in dirtier, more polluted communities due to environmental racism and neglect from all levels of government. And, most powerfully, Villarosa describes the new understanding that coping with the daily scourge of racism ages Black people prematurely. Anchored by unforgettable human stories and offering incontrovertible proof, *Under the Skin* is dramatic, tragic, and necessary reading.
