Introductory Grammar of Amharic Wolf Leslau,2000 This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Zanele Muholi Yasufumi Nakori,Allen Sarah,2020 Born in South Africa in 1972, Zanele Muholi came to prominence in the early 2000s with photographs that sought to envision black lesbian, gay, bisexual, trans, queer, and intersex lives beyond deviance or victimhood. Muholi's work challenges hetero-patriarchal ideologies and representations, presenting the participants in their photographs as confident and beautiful individuals bravely existing in the face of prejudice, intolerance, and, frequently, violence. While Muholi's intimate photographs of others launched their international career, their intense self-portraits solidified it. The illustrations include images from the key series Muholi has produced over the past 20 years, as well as never-before-published and recent works. This book, and the exhibition it accompanies, present the full breadth of Muholi's photographic and activist practice. Exhibition: Tate Modern, London, UK (29.04-18.10.2020) / Maison Europ enne de la Photographie, Paris, France (11.2020-02.2021) / Martin Gropius Bau, Berlin, Germany (03-07.2021) / Bildmuseet, Umea, Sweden (10.2021-03.2022).

Leon of Juda Robert Frank,2017 Leon of Juda is the seventh book in Robert Frank's (born 1924) acclaimed series of visual diaries, which combine iconic photos from throughout his career with the more personal pictures he makes today. Here, still lifes taken in Frank's home in Bleecker Street, New York, and landscapes around his house in Mabou, Nova Scotia, jostle alongside spontaneous portraits of friends, colleagues and his wife, the artist June Leaf, as well as vintage postcards. With these images Frank creates a seemingly casual layout that recalls the look and spirit of a private album or scrapbook. Equally humble and ambitious, Leon of Juda shows how the past tempers Frank's present and how his life is not only documented in, but shaped by, bookmaking.

Goya's War Janis A. Tomlinson,Kathleen Stewart Howe,2013 This book draws on the most recently scholarship by art historians and historians on the context and meaning of Goya's series of eighty aquatint etchings, the *Desastres de la Guerra*, much of it made available for the first time in English. Goya scholar Janis Tomlinson re-orders the sequence of the posthumously published 1863 edition to illustrate the artist's stylistic evolution as well as the etchings' relation to their historical context. Believing Is Seeing Errol Morris,2014-05-27 Academy Award-winning director Errol Morris turns his eye to the nature of truth in photography. In his inimitable style, Errol Morris untangles the mysteries behind an eclectic range of documentary photographs. With his keen sense of irony, skepticism, and humor, Morris shows how photographs can obscure as much as they reveal, and how what we see is often determined by our beliefs. Each essay in this book is part detective story, part philosophical meditation, presenting readers with a conundrum, and investigates the relationship between photographs and the real world they supposedly record. *Believing Is Seeing* is a highly original exploration of photography and perception, from one of America's most provocative observers.

Omaha Sketchbook Gregory Halpern,2019-08-31 For the last fifteen years, Gregory Halpern has been photographing in Omaha, Nebraska, steadily compiling a lyrical, if equivocal, response to the American Heartland. In loosely-collaged spreads that reproduce his construction-paper sketchbooks, Halpern takes pleasure in cognitive dissonance and unexpected harmonies, playing on a sense of simultaneous repulsion and attraction to the place. Omaha Sketchbook is ultimately a meditation on America, on the men and boys who inhabit it, and on the mechanics of aggression, inadequacy, and power.

Goya Francisco Goya,Goya (ART),Stephanie Loeb Stepanek,Frederick Ilchman,Janis A. Tomlinson,2014 Francisco Goya has been widely celebrated as the most important Spanish artist of the late eighteenth and early nineteenth centuries, the last of the Old Masters and the first of the Moderns, and an astute observer of the human condition in all its complexity. The many-layered and shifting meanings of his imagery have made him one of the most studied artists in the world. Few, however, have made the ambitious attempt to explore his work as a painter, printmaker, and draftsman across media and the timeline of his life. This book does just that, presenting a comprehensive and integrated view of Goya through the themes that continually challenged or preoccupied him, and revealing how he strove relentlessly to understand and describe human behavior and emotions even at their most orderly or disorderly extremes. Derived from the research for the largest Goya art exhibition in North America in a quarter century, this book takes a fresh look at one of the greatest artists in history by examining the fertile territory between the two poles that defined the range of his boundlessly creative personality.

Telex Iran Gilles Peress,Ghulām Ḥusayn Sā'idī,1997 Telex : Iran is an extraordinarily personal document of a public event. The photographs Gilles Peress took over a five-week period during the 1979/80 seizure of the American embassy in Tehran form neither a study nor an analysis. Peress didn't plan to go to Iran: the instant imagery, the caricatures of fanatics on his TV got to him. He felt the need to understand for himself the apparent madness about which the Western media could only generalize
