Watching Neighbours Twice a Day... Josh Widdicombe, 2021-09-16 'A wonderful blend of nostalgia, hilarity and personal anecdotes that only Josh Widdicombe could deliver' James Acaster 'If you read only one book by Josh Widdicombe this year, make it this one' Jack Dee 'Beautifully written, cleverly crafted and charmingly funny' Adam Hills 'This is a book about growing up in the '90s told through the thing that mattered most to me, the television programmes I watched. For my generation television was the one thing that united everyone. There were kids at my school who liked bands, kids who liked football and one weird kid who liked the French sport of petanque, however, we all loved Gladiators, Neighbours and Pebble Mill with Alan Titchmarsh (possibly not the third of these).' In his first memoir, Josh Widdicombe tells the story of a strange rural childhood, the kind of childhood he only realised was weird when he left home and started telling people about it. From only having four people in his year at school, to living in a family home where they didn't just not bother to lock the front door, they didn't even have a key. Using a different television show of the time as its starting point for each chapter *Watching Neighbours Twice a Day...* is part-childhood memoir, part-comic history of '90s television and culture. It will discuss everything from the BBC convincing him that Michael Parkinson had been possessed by a ghost, to Josh's belief that Mr Blobby is one of the great comic characters, to what it's like being the only vegetarian child west of Bristol. It tells the story of the end of an era, the last time when watching television was a shared experience for the family and the nation, before the internet meant everyone watched different things at different times on different devices, headphones on to make absolutely sure no one else could watch it with them.

James Acaster's Classic Scrapes - The Hilarious Sunday Times Bestseller James Acaster, 2017-08-24 ****THE SUNDAY TIMES BESTSELLER**** 'I don't think I've ever read a book that has made me cry with laughter as much as this one. It was very difficult reading it in public as I looked like a madman' - Richard Herring James Acaster has been nominated for the Edinburgh Comedy Award five times and has appeared on prime-time TV shows like *TASKMASTER*, *MOCK THE WEEK*, *LIVE AT THE APOLLO* and *WOULD I LIE TO YOU?* But behind the fame and critical acclaim is a man perpetually getting into trouble. Whether it's disappointing a skydiving instructor mid-flight, hiding from thugs in a bush wearing a bright red dress, or annoying the Kettering Board Games club, a didgeridoo-playing conspiracy theorist and some bemused Christians, James is always finding new ways to embarrass himself. Appearing on Josh Widdicombe's radio show to recount these stories, the feature was christened 'James Acaster's classic scrapes'. Here, in his first book, James recounts these tales (including never-before-heard stories) along with self-penned drawings, in all their glorious stupidity.

New Media and Politics Barrie Axford, Richard Huggins, 2001-01-26 Exploring the theme of the putative transformation of political modernity under the impact of new media, this book adopts a questioning approach to the ways in which cultural and technological factors are affecting the temper of political life, and reflects the variety of normative thinking about and empirical research on the changing character of politics in mediatized cultures. *New Media and Politics* examines: the extent to which commercial populism now dominates electoral and other political discourses; the ways in which the functions of leadership, government and political parties are modified by different forms of both old and new media; the democratic or undemocratic import of such changes; and the ways in which the dominant territorial paradigm of politics is challenged by the space and time devouring capacities of electronic media.

Language and Creativity Ronald Carter, 2015-09-16 *Language and Creativity* has become established as a pivotal text for courses in English Language, Linguistics and Literacy. Creativity in language has conventionally been regarded as the preserve of institutionalised discourses such as literature and advertising, and individual gifted minds. In this ground-breaking book, bestselling author Ronald Carter explores the idea that creativity, far from being simply a property of exceptional people, is an exceptional property of all people. Drawing on a range of real examples of everyday conversations and speech, from flatmates in a student house and families on holiday to psychotherapy sessions and chat-lines, the book argues that creativity is an all-pervasive feature of everyday language. Using close analysis of naturally occurring language, taken from a unique 5 million word corpus, *Language and Creativity* reveals that speakers commonly make meanings in a variety of

creative ways, in a wide range of social contexts and for a diverse set of reasons. This Routledge Linguistics Classic is here reissued with a new preface from the author, covering a range of key topics from e-language and internet discourse to English language teaching and world Englishes. Language and Creativity continues to build on the previous theories of creativity, offering a radical contribution to linguistic, literary and cultural theory. A must for anyone interested in the creativity of our everyday speech.

The International Hypoxia Symposia was founded to enable scientists, clinicians, physiologists, immunologists, mountaineers and other interested individuals to share their experiences of the situations associated with the lack of oxygen and the adaptations that allow us to survive.

Foundations of Pragmatics Wolfram Bublitz, Neal R. Norrick, 2011 Opening the 9-volume-series Handbooks of Pragmatics, this handbook provides a comprehensive overview of the foundations of pragmatics. The Cambridge Handbook of Sociolinguistics Rajend Mesthrie, 2011-10-06 The most comprehensive overview available, this Handbook is an essential guide to sociolinguistics today. Reflecting the breadth of research in the field, it surveys a range of topics and approaches in the study of language variation and use in society. As well as linguistic perspectives, the handbook includes insights from anthropology, social psychology, the study of discourse and power, conversation analysis, theories of style and styling, language contact and applied sociolinguistics. Language practices seem to have reached new levels since the communications revolution of the late twentieth century. At the same time face-to-face communication is still the main force of language identity, even if social and peer networks of the traditional face-to-face nature are facing stiff competition of the Facebook-to-Facebook sort. The most authoritative guide to the state of the field, this handbook shows that sociolinguistics provides us with the best tools for understanding our unfolding evolution as social beings.

Communicating & Relating Robert B. Arundale, 2020-01-10 Communicating & Relating offers an account of how relating with one another emerges in communicating in everyday interacting. Prior work has indicated that human relationships arise in human communicating, and some studies have made arguments for why that is the case. Communicating & Relating moves beyond this work to offer an account of how both relating and face emerge in everyday talk and conduct: what comprises human communicating, what defines human social systems, how the social and the individual are linked in human life, and what comprises human relating and face. Part 1 develops the Conjoint Co-constituting Model of Communicating to address the question How do participants constitute turns, actions, and meanings in everyday interacting? Part 2 argues that the processes of constituting what is known

cross-culturally as face are the processes of constituting relating, and develops Face Constituting Theory to address the question How do participants constitute relating in everyday interacting? The answers to both questions are grounded in evidence from everyday talk and conduct. Like other volumes in the Foundations of Human Interaction series, Communicating & Relating offers new perspectives and new research on communicative interaction and on human relationships as key elements of human sociality.
