Modern Popular Theatre Jason Price, 2016-09-05 This book offers a concise history of popular theatre since the early twentieth century. Using key popular culture theories and critical perspectives, Jason Price analyses popular theatres across different cultural and political contexts, drawing on a diverse range of international artists and theatre-makers who have worked with popular forms, including Vsevolod Meyerhold, Blue Blouse, Bertolt Brecht, Erwin Piscator, the San Francisco Mime Troupe, the Bread and Puppet Theatre and more. As well as defining what 'popular' means in relation to performance and the audiences who watch it, the book considers some of the political frameworks and causes that popular theatre has been placed in service of, such as socialism, the New Left and the gay rights movement. It also addresses the uses of cabaret, puppetry and circus outside their native popular contexts, examining the role they play in avant-garde and experimental theatre practices. In doing so, Price encourages readers to look beyond popular theatre as a simple form of entertainment and to consider its potential as a form of political activism, as a community-builder,

and as a valuable tool for artistic experimentation.

Chart Patterns Thomas N. Bulkowski, 2016-06-01 Take chart patterns beyond buy triggers to increase profits and make better trades Chart Patterns: After the Buy goes beyond simple chart pattern identification to show what comes next. Author and stock trader Thomas Bulkowski is one of the industry's most respected authorities in technical analysis; for this book, he examined over 43,000 chart patterns to discover what happens after you buy the stock. His findings are detailed here, to help you select better buy signals, avoid disaster, and make more money. Bulkowski analyzed thousands of trades to identify common paths a stock takes after the breakout from a chart pattern. By combining those paths, he discovered the typical routes a stock takes, which he calls configurations. Match your chart to one of those configurations and you will know, before you buy, how your trade will likely perform. Now you can avoid potentially disastrous trades to focus on the big winners. Each chapter illustrates the behavior of a specific pattern. Identification guidelines help even beginners recognize common patterns, and expert analysis sheds light on the period of the stock's behavior that actually affects your investment. You'll discover ideal buy and sell setups, how to set price targets, and more, with almost 370 charts and illustrations to guide you each step of the way. Coverage includes the most common and popular patterns, but also the lesser-known ones like bad earnings surprises, price mirrors, price mountains, and straight-line runs. Whether you're new to chart patterns or an experienced professional, this book provides the insight you need to select better trades. Identify chart patterns Select better buy signals Predict future behavior Learn the best stop locations Knowing the pattern is one thing, but knowing how often a stop will trigger and how often you can expect a stock to reach its target price is another matter entirely—and it impacts your trade performance immensely. Chart Patterns: After the Buy is the essential reference guide to using chart patterns effectively throughout the entire life of the trade.

The Chowderhead Crusades J J Walsh,2020-12-27 Comic-Con, 2036. The world is rocked by the bizarre and inexplicable materialization of Cateklysm Catholicon - a colorfully clad whackjob decreeing that humanity's only hope lies in the lessons found in superhero comic books. Cateklysm's Challenge is born, enticing even the most skeptical with a prize that promises the power to change the world. But two decades later, the world has gone to crap. The prize, the Challenge, and Cateklysm himself have all been forgotten by everyone but the Chowderheads - diehard superhero worshippers, who champion the progressive ideology infused into comics. Enter Clayton Clayborn, a tragically orphaned, seventeen-year-old, second-generation Chowderhead living a dystopian nightmare existence on a Martian space freighter. Obsessed with the Challenge, he'll face a gauntlet of comic book nerdery that will take him to alien worlds, thrust him into gladiatorial combat against supervillain look-alikes, and push him to the brink of annihilation in the heart of what seems to be the Batcave. But as Stan Lee would put it, Excelsior.
