Tord Boontje Martina Margetts, 2006 This is a document of my work going back ten years. It has been an amazing journey that started by taping blankets to chairs made from sticks and cutting up old wine bottles. The journey has now led me to a place of mass production and television commercials. Along the way I have met many supportive people who took the risk of traveling with me. I like working in collections, experimenting with new thoughts, and seeking change and development, which is a main driving force behind my work. I believe that if we see design as a way of shaping the future of our world, it should be as exciting and thrilling as a great film or book. At the same time, it should communicate not only who we are, but also how we would ideally like our world to be. Tord Boontje. -- foreword, page 21.
