JAMES WHITCOMB RILEY

🔍 **ACHTUNG-PANZER!** Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian’s book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian’s classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

🔍 **HAGESVARA** Sujith Sukumar, 2021-05-19 It is the story of Yuga, a mysterious young warrior, who was born and brought up in the forest. He lives with his Guru who tries to save the hidden secrets of the Shatapatha Kingdom from the followers of Darkness. Their ancestors are afraid of the rebirth of the Shadow of Darkness Lord in the future. Aryan is the king of their kingdom, who is wise and generous. He and his protectors begin their Tapasya to please their creator, ‘Garuda - The King of Birds’ for grace and to defend them from the followers of Lord Darkness. The Creator pleases and boon them with the hidden secrets, and also, reminds them to do some karma so that they can own the hidden secrets. In the middle of a battle, the Shatapathans find one of their protectors who had disappeared with King Aryan for so many years. The protector sends Yuga with them. It’s a journey of Yuga exploring the hidden secrets.

From writer Paul Jenkins (Spawn: Resurrection, The Inhumans, Marvel Knights: Sentry) and artist Hendry Prasetya (Mighty Morphin Power Rangers), God Complex: Dogma is a unique spin on ancient mythology with a focus on one man’s journey of faith. Collects God Complex #1-6

🔍 **Typographic Systems of Design** Kimberly Elam, 2007-05-03 Typographic organization has always been a complex system in that there are so many elements at play, such as hierarchy, order of reading, legibility, and contrast. In Typographic Systems, Kim Elam, author of our bestselling books, Geometry of Design and Grid Systems, explores eight major structural frameworks beyond the grid including random, radial, modular, and bilateral systems. By taking the reader through exercises, student work, and professional examples, Elam offers a broad range of design solutions. Once essential visual organization systems are understood the designer can fluidly organize words or images within a structure, combination of structures, or a variation of a structure. With clarity and substance, each system from the structured axis to the nonhierarchical radial array is explained and explored so that the reader comes away with a better understanding of these intricate complex arrangements. Typographic Systems is the seventh title in our bestselling Design Briefs series, which has sold more than 100,000 copies worldwide.

The fourth edition enriches every chapter with new information on institutions contributing to the sources and enforcement of international law, including the World Trade Organization, the International Criminal Tribunals for Yugoslavia and Rwanda, the prospective International Criminal Court, and organizations in the fields of law of the sea and arms control. International criminal law now has a chapter of its own, and the casebook gives expanded treatment to human rights, environmental law, and economic law.

🔍 **Cold War Modern** David Crowley, Jane Pavitt, 2008 Modern life after 1945 seemed to promise both utopia and catastrophe. Both could, it seemed, be achieved at the ‘push of a button’. Reassessing ‘classic’ designs and introducing many little-known objects.
