Core Kassten Alonso,2011-03-01 THIS INTENSE AND COMPACT NOVEL crackles with obsession, betrayal, and madness, and was an Oregon Book Award Finalist for fiction 2005. As the narrator becomes fixated on his best friend's girlfriend, his precarious hold on sanity rapidly deteriorates into delusion and violence. This story can be read as the classic myth of Hades and Persephone (Core) rewritten for a twenty-first century audience as well as a dark, foreboding tale of unrequited love and loneliness. Alonso skillfully uses language to imitate memory and psychosis, putting the reader squarely inside the narrator's head. In addition, deliberate misuse of standard punctuation blurs the distinction between the narrator's internal and external worlds. A sense of alienation and Faulknerian grotesquerie permeate this landscape where desire is borne in the bloom of a daffodil and sanity lies toppled like an applecart in the mud.

Young People Re-Generating Politics in Times of Crises Sarah Pickard,Judith Bessant,2017-07-31 This book provides insight into the diverse ways young people from around the world are regenerating politics in innovative and multifaceted ways. The authors, who include academics and activists, challenge claims that young people are apolitical, apathetic and living up to the 'me generation' stereotype. Contributions cover a rich body of case examples of traditional and new forms of youth politics in response to situated injustices and political and socio-economic crises. Significant and optimistic, the collection presents strong evidence from across the globe that these developments are not isolated incidences, but are in fact part of a systemic, large-scale transformation leading to a regeneration of the political landscape by young people. The book is aimed at students and scholars in the fields of politics, sociology, policy studies and youth and childhood studies.

Music Scenes Andy Bennett,Richard A. Peterson,2004 While more than 80 percent of the world's commercial music is controlled by four multinational firms, most music is made and enjoyed in diverse situations divorced from such corporate behemoths. These fourteen original essays examine the fascinating world of music scenes, those largely inconspicuous sites where clusters of musicians, producers, and fans explore their common musical tastes and distinctive lifestyle choices. Although most music scenes come and go with hardly a trace, they nevertheless give immense satisfaction to their participants, and a few - New York bop jazz, Merseybeat, Memphis rockabilly, London punk, Bronx hip-hop - achieve fame and spur musical innovations. To date, serious study of the scenes phenomenon has focused mainly on specific music scenes while paying less attention to

recurrent dynamics of scene life, such as how individuals construct and negotiate scenes to the various activities. This volume remedies that neglect. The editors distinguish between three types of scenes - local, translocal, and virtual - which provide the organizing framework for the essays. Aspects of local scenes, which are confined to specific areas, are explored through essays on Chicago blues, rave, karaoke, teen pop, and salsa. The section on translocal scenes, which involve the coming together of scattered local scenes around a particular type of music and lifestyle, includes articles on Riot Grrrls, goths, art music, and anarcho-punk. Aspects of virtual scenes, in which fans communicate via the internet, are illustrated using alternative country, the Canterbury sound, postrock, and Kate Bush fans. Also included is an essay that shows how the social conditions in places where jazz was made influenced that music's development.
