Managing the Human Dimension of Disasters Kjell Brataas,2021-03-30 Managing the Human Dimension of Disasters provides the most comprehensive and up-to-date analysis on how individuals cope with tragedy and loss. Kjell Brataas gives a voice to those who have suffered and have been affected by unimaginable trauma. Noted experts recount stories and share their knowledge of how they assisted victims following tragedies such as the Manchester Arena bombing, the 2004 Indian Ocean tsunami, terror attacks, several aircraft disasters and school shootings, the 9/11 attacks and the COVID-19 pandemic. The book focuses on those affected by a disaster, including the bereaved, survivors and first responders. Leaders of support groups formed after these tragedies, trauma therapists and psychologists from three continents offer their experiences dealing with victims and the aftermath of disaster. Chapters provide guidance on memorializing tragedies, site visits, donation management, media relations, social media, grief counseling and human resilience. Readers will be shown that psychological support is critical after a disaster and learn from those who deal with emergencies. Brataas' unmatched volume offers new understandings, recommendations, best practices and benchmarks on how best to assist victims in the aftermath of disaster. A valuable resource for students, researchers and practitioners.

Corrugated Kix Mike Leavitt,2021-04 Maybe you've wondered how a shoe is made. Maybe you have an art class assignment you're struggling with. Maybe you're a bored sneakerhead in desperate need of something different. Mike Leavitt is here to the rescue. Corrugated Kix is his long-running series of cardboard shoes he's constructed and exhibited for over 15 years. This book - a detailed Chuck Taylor tutorial - is the first publication of a project, started in 2006, that's aimed not only at environmental sustainability and consumer satire. It's a hands-on, DIY approach that, with a motivational focus on confidence-building throughout the book, Leavitt sincerely hopes to impart with this intensive detailing of his cardboard shoe construction process. Over 60 detailed images and 80 pages of instruction illuminate each papercraft cobbling procedure along the way. Whether your interest is art, design, craft or fashion, this is a step by step process sure to lighten your feet.

Nosetalgia Michael Gitter,2005-12 Nosetalgia is the first and only book of its kind in the world. And it literally stinks! It has 14 nostalgic scratch-and-sniff spots to take you back.In the hyper-protective, safety-conscious world we live in, we can consider it a badge of honor that as kids we breathed in the deliciously noxious smells of damp mimeograph paper, model airplane glue, Wite-Out, rubber cement, Magic Markers, and Superelastic Bubble Plastic and lived to tell about it. Very few things transport you in time like your sense of smell. It is the oldest, most primal sense and the one most tied to memory. And while we can identify over 10,000 individual smells, it is still the most underappreciated of all our senses. The authors of Nosetalgia: The Smells That Take You Back present a way to help release stored and oft-forgotten childhood memories. This unique book features 96 pages of vibrant, full-color photos of a wide variety of items from the '50s, '60s, '70s, and '80s, from Lip Smackers to Odorama memorabilia. To complete the experience, there are 14 scratch-and-sniff scent spots, from menthol (recalling Vick's VapoRub) to coconut (Coppertone suntan lotion and the smell of piña coladas) and a variety of bubblegums, perfumes, and colognes to help trigger smell memories for the reader. It is a scratch-and-sniff book for grownups who want to relive the glory days of their childhoods. People the world over continue to ride the wave of nostalgia that has swept the entire globe. Nosetalgia will be a coffee-table must-have. It is something people will flip through again and again and will tell their friends about.
