**World Heritage and Sustainable Development** Peter Bille Larsen,William Logan,2018-07-03 In 2015, the General Assembly of State Parties to the World Heritage Convention passed a ground-breaking Sustainable Development policy that seeks to bring the World Heritage system into line with the UN's sustainable development agenda (UNESCO 2015). World Heritage and Sustainable Development provides a broad overview of the process that brought about the new policy and the implications of its enactment. The book is divided into four parts. Part I puts the policy in its historical and theoretical context, and Part II offers an analysis of the four policy dimensions on which the policy is based – environmental sustainability, inclusive social development, inclusive economic development and the fostering of peace and security. Part III presents perspectives from IUCN, ICOMOS and ICCROM – the three Advisory Bodies to the World Heritage Committee, and Part IV offers ‘case study’ perspectives on the practical implications of the policy. Contributions come from a wide range of experienced heritage professionals and practitioners who offer both ‘inside’ perspectives on the evolution of the policy and ‘outside’ perspectives on its implications. Combined, they present and analyse the main ideas, debates and implications of the policy change. This book is key reading for all heritage professionals interested in developing a better understanding of the new Sustainable Development policy. It is also essential reading for scholars and students working in the area.

*Rhythm in Architecture* Moisei Ginzburg, Moiseĭ Ākovlevich Ginzburg, 2016 *Rhythm in Architecture* is the first ever translation into English of a key early Modernist text, written by the celebrated Soviet Constructivist architect Moisei Ginzburg and first published in Russian as *Ritm v Arkhitekture* in 1923. Ginzburg is most famous for his Narkomfin Building in Moscow, completed in 1932, which he described as a social-condenser: a radical experiment in communal living. While Ginzburg's second book *Style and Epoch*, published in 1924, is often seen as the manifesto for Russian Constructivism, *Rhythm in Architecture*--which preceded it--can be seen as his attempt to create a synthesis in thinking about architecture as a whole, seeking to show how the true essence of all works of architecture are inspired by the laws of rhythm. *Rhythm in Architecture* is republished in cooperation with the Ginzburg Design Practice run by Moisei Ginzburg's grandson, Aleksey and his partner Natalia Shilova. It is the first of a planned series of reprints of Ginzburg's four books, *Home*, 1934 and *Industrialising Housing Construction*, 1937 as well as *Style and Epoch*, 1924--the only one previously available in English.

**The Imagined and Real Jerusalem in Art and Architecture** Jeroen Goudeau, Mariette Verhoeven, Wouter Weijers, 2014-09-22 In *The Imagined and Real Jerusalem in Art and Architecture* specialists in various fields of art history, from Early Christian times to the present, discuss in depth a series of Western artworks, artefacts, and buildings, which question the visualization of Jerusalem.

The Past in the Present Ioannis Poullos, 2014-08-07 *The Past in the Present* deals with the complexities in the operation and management of living heritage sites. It presents a new interpretation of such sites based on the concept of continuity, and its evolution to the present. It is demonstrated that the current theoretical framework and practice of conservation, as best epitomised in a values-based approach and the World Heritage concept, is based on discontinuity created between the monuments (considered to belong to the past) and the people of the present, thus seemingly unable to embrace living heritage sites. From this position, the study suggests an innovative approach that views communities and sites as an inseparable entity: a Living Heritage Approach. This approach brings a new insight into key concepts such as authenticity and sustainable development. Through the use of the monastic site of Meteora, Greece, as a case study, the discussion generated aims to shift the focus of conservation from 'preservation' towards a continual process of 'creation' in an ongoing present, attempting to change the way heritage is perceived, protected and, more importantly, further created. "The Past in the Present is an important and much-needed contribution to the debate about living heritage - and it is particularly significant in the context of the heritage of the past in the modern world. Anyone concerned with how the past is, or should be, integrated within modern lives and identities will need to read this book." - Leslie Brubaker, Director, Centre for Byzantine, Ottoman and Modern Greek Studies, University of Birmingham, UK. "This interesting and thoroughly researched book by Ioannis Poullos is a useful tool in promoting the Living Heritage Approach, and provides a sound theoretical basis for future work. Living Heritage Approach is a paradigm shift that suggests a new way of addressing conservation for our heritage. ICCROM is proud to have introduced this approach, also with the contribution of Ioannis." - Gamini Wijesuriya, Project Manager, ICCROM.

**The People's War** Robert W. Thurston, Bernd Bonwetsch, 2000 *The People's War* lifts the Stalinist veil of secrecy to probe an almost untold side of World War II: the experiences of the Soviet people themselves. Going beyond dry and faceless military accounts of the eastern front of the Great Patriotic War and the Soviet state's one-dimensional heroic People, this volume explores how ordinary citizens responded to the war, Stalinist

leadership, and Nazi invasion. Drawing on a wealth of archival and recently published material, contributors detail the calculated destruction of a Jewish town by the Germans and present a chilling picture of life in occupied Minsk. They look at the cultural developments of the war as well as the wartime experience of intellectuals, for whom the period was a time of relative freedom. They discuss women's myriad roles in combat and other spheres of activity. They also reassess the behavior and morale of ordinary Red Army troops and offer new conclusions about early crushing defeats at the hands of the Germans--defeats that were officially explained as cowardice on the part of high officers. A frank investigation of civilian life behind the front lines, *The People's War* provides a detailed, balanced picture of the Stalinist USSR by describing not only the command structure and repressive power of the state but also how people reacted to them, cooperated with or opposed them, and adapted or ignored central policy in their own ways. By putting the Soviet people back in their war, this volume helps restore the range and complexity of human experience to one of history's most savage periods.
