Theories of Personality Duane P. Schultz, Sydney Ellen Schultz, 2001 This revision of the Schultz's popular text surveys the field, presenting theory-by-theory coverage of the major theorists who represent the psychoanalytic, neopsychanalytic, life-span, trait, humanistic, cognitive, behavioral, and social-learning approaches, as well as clinical and experimental work. Where warranted, the authors show how the development of certain theories was influenced by events in a theorist's personal and professional life. This thoroughly revised Seventh Edition now incorporates more examples, tables, and figures to help bring the material to life for students. The new content in this edition reflects the dynamism in the field. The text explores how race, gender, and culture issues figure in the study of personality and in personality assessment. In addition, a final integrative chapter looks at the study of personality theories and suggests conclusions that can be drawn from the many theorists' work.

Museum Object Lessons for the Digital Age Haidy Geismar, 2018-05-14 *Museum Object Lessons for the Digital Age* explores the nature of digital objects in museums, asking us to question our assumptions about the material, social and political foundations of digital practices. Through four wide-ranging chapters, each focused on a single object – a box, pen, effigy and cloak – this short, accessible book explores the legacies of earlier museum practices of collection, older forms of media (from dioramas to photography), and theories of how knowledge is produced in museums on a wide range of digital projects. Swooping from Ethnographic to Decorative Arts Collections, from the Google Art Project to bespoke digital experiments, Haidy Geismar explores the object lessons contained in digital form and asks what they can tell us about both the past and the future. Drawing on the author's extensive experience working with collections across the world, Geismar argues for an understanding of digital media as material, rather than immaterial, and advocates for a more nuanced, ethnographic and historicised view of museum digitisation projects than those usually adopted in the celebratory accounts of new media in museums. By locating the digital as part of a longer history of material engagements, transformations and processes of translation, this book broadens our understanding of the reality effects that digital technologies create, and of how digital media can be mobilised in different parts of the world to very different effects.

Stick a Flag in It Arran Lomas,2020-10-01 From the Norman Invasion in 1066 to the eve of the First World War, *Stick a Flag in It* is a thousand-year jocular journey through the history of Britain and its global empire. The British people have always been eccentric, occasionally ingenious and, sure, sometimes unhinged – from mad monarchs to mass-murdering lepers. Here, Arran Lomas shows us how they harnessed those traits to forge the British nation, and indeed the world, we know today. Follow history's greatest adventurers from the swashbuckling waters of the Caribbean to the vast white wasteland of the Antarctic wilderness, like the British spy who infiltrated a top-secret Indian brothel and the priest who hid inside a wall but forgot to bring a packed lunch. At the very least you'll discover Henry VIII's favourite arse-wipe, whether the flying alchemist ever made it from Scotland to France, and the connection between Victorian coffee houses and dildos. Forget what you were taught in school – this is history like you've never heard it before, full of captivating historical quirks that will make you laugh out loud and scratch your head in disbelief.

Physics of Tsunamis Boris Levin, Mikhail Nosov, 2008-10-27 Till the very end of the twentieth century tsunami waves (or 'waves in a harbour', translated from Japanese) were considered an extremely rare and exotic natural phenomenon, originating in the ocean and unexpectedly falling upon the seaside as gigantic waves. The 26th of December 2004, when tsunami waves wiped out, in a single day, more than 250,000 human lives, mourned in many countries, turned out to be a tragic date for all mankind. The authors of this book, who have studied tsunami waves for many years, - tended it to be a systematic exposition of modern ideas concerning

- The mechanisms of tsunami wave generation
- The peculiarities of tsunami wave propagation in the open ocean and of how waves run-up beaches
- Methods for tsunami wave registration and the operation of a tsunami warning system
- The mechanisms of other catastrophic processes in the ocean related to the seismic activity of our planet

The authors considered their main goal to be the creation of book presenting modern knowledge of tsunami waves and of other catastrophes in the ocean to scientific researchers and specialists in geophysics, oceanography, seismology, hydroacoustics, geology, geomorphology, civil and seaside engineering, postgraduate students and students of relevant professions.

Sukuma Labor Songs from Western Tanzania Frank D. Gunderson, 2010 This volume is an interpretive analysis of a collection of 335 song texts treated as primary historical sources. The collection highlights the cultural practices that link music with labor in Sukuma communities in northwestern Tanzania. These linkages are evident in the music of the elephant, snake, and porcupine hunting associations that flourished in the precolonial epoch, in the nineteenth-century regional and long-distance porter associations, and in the farmer associations that have proliferated since the beginning of the twentieth century. Acting primarily as an interpretive editor, the author collaborated with several Tanzanian scholars and translators towards fine-tuning the translation of these texts into English, and gathered testimonies in order to create succinct interpretive statements about the songs.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatised in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to

New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Exploring the Edge of Empire Florian Mühlfried, 2011 This collection explores theoretical and empirical developments in the anthropology of the Caucasus and Central Asia, originating in or shaped by the Soviet era. Special attention is paid to the creation of local and national schools, as well as to the role of institutional and biographical dis/continuities. Within the academic field of anthropology in the Soviet republics, Russia-based research institutes and regional branches of the former Soviet Academy of Sciences played a special role. Explorations of this role and of the impact of ideology are pertinent to the controversial question as to whether the Soviet Union was essentially a colonial enterprise. The book's contributors include leading anthropologists from the Caucasus and Central Asia, as well as regional specialists from the Russian Federation and Western countries. (Series: Halle Studies in the Anthropology of Eurasia - Vol. 25)

Beuysian Legacies in Ireland and Beyond Christa-Maria Lerm-Hayes, Victoria Walters, 2011 This collection of trans-disciplinary essays addresses the artistic, cultural, and political legacies of Joseph Beuys' expanded concept of art and its societal application, for example, through the Free International University (FIU). Since the 1980s, Beuys' practice has had a strong influence on the Peaceful Revolution, relational aesthetics and the art and reconciliation movement, attempting to bring about cultural understanding and reconciliation in situations of conflict. His work is pertinent to how we think

about diversity and sustainability and may constitute an applied anthropology. (Series: European Studies in Culture and Policy - Vol. 6)

Historical Dictionary of Russian and Soviet Cinema Peter Rollberg, 2016-07-20 Russian and Soviet cinema occupies a unique place in the history of world cinema. Legendary filmmakers such as Sergei Eisenstein, Vsevolod Pudovkin, Dziga Vertov, Andrei Tarkovsky, and Sergei Paradjanov have created oeuvres that are being screened and studied all over the world. The Soviet film industry was different from others because its main criterion of success was not profit, but the ideological and aesthetic effect on the viewer. Another important feature is Soviet cinema's multinational (Eurasian) character: while Russian cinema was the largest, other national cinemas such as Georgian, Kazakh, and Ukrainian played a decisive role for Soviet cinema as a whole. The *Historical Dictionary of Russian and Soviet Cinema* provides a rich tapestry of factual information, together with detailed critical assessments of individual artistic accomplishments. This second edition of *Historical Dictionary of Russian and Soviet Cinema* contains a chronology, an introduction, and a bibliography. The dictionary section has over 600 cross-referenced entries on directors, performers, cinematographers, composers, designers, producers, and studios. This book is an excellent access point for students, researchers, and anyone wanting to know more about Russian and Soviet Cinema.
