Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Happiness 6 Shuzo Oshimi, 2017-12-19 A supernatural story of sexual awakening, growing up, and suburban vampirism, Happiness follows a dorky boy who is attacked by a girl in an alley. She sucks his blood and gives him a choice: life or death. He chooses life, but finds himself nearly overwhelmed by a new thirst and a fascination with the necks of his classmates... Praise for Flowers of Evil: A shockingly readable story that vividly--one might even say queasily--evokes the fear and confusion of discovering one's own sexuality. Recommended. -The Manga Critic A page-turning tale of sordid middle school blackmail. -Otaku USA Magazine By loving this manga I recognize what a sick and twisted individual I have become. While I can still say that I am not truly deviant, Flowers of Evil is a great

reminder of my own thirst for power and my own personal corruption. -Otaku Champloo

RSVP Murder: A man predicts his own murder, and invites Royce to investigate. You are Invited to a Murder: Someone is going to be killed live on stage, unless Royce can stop it. Can he? The Dame Who Loved Me: The wife of a man Royce murdered wants his help in finding him.

Hieroglyphics Jill McCorkle, 2020-07-28 “Hieroglyphics is a novel that tugs at the deepest places of the human soul—a beautiful, heart-piercing meditation on life and death and the marks we leave on this world. It is the work of a wonderful writer at her finest and most profound.” —Jessica Shattuck, author of *The Women in the Castle* After many years in Boston, Lil and Frank have retired to North Carolina. The two of them married young, having bonded over how they both—suddenly, tragically—lost a parent when they were children. Now, Lil has become determined to leave a history for their own kids. She sifts through letters and notes and diary entries, uncovering old stories—and perhaps revealing more secrets than Frank wants their children to know. Meanwhile, Frank has become obsessed with the house he lived in as a boy on the outskirts of town, where a young single mother, Shelley, is now raising her son. For Shelley, Frank’s repeated visits begin to trigger memories of her own family, memories that she’d hoped to keep buried. Because, after all,

not all parents are ones you wish to remember. Empathetic and profound, this novel from master storyteller Jill McCorkle deconstructs and reconstructs what it means to be a father or a mother, and to be a child trying to know your parents—a child learning to make sense of the hieroglyphics of history and memory.

Leadership for a Better World NCLP (National Clearinghouse for Leadership Programs), 2016-11-14 The essential guide to the theory and application of the Social Change Model Leadership for a Better World provides an approachable introduction to the Social Change Model of Leadership Development (SCM), giving students a real-world context through which to explore the seven C's of leadership for social change as well as approaches to socially responsible leadership. From individual, group, and community values through the mechanisms of societal change itself, this book provides fundamental coverage of this increasingly vital topic. Action items, reflection, and discussion questions throughout encourage students to think about how these concepts apply in their own lives. The Facilitator's Guide includes a wealth of activities, assignments, discussions, and supplementary resources to enrich the learning experience whether in class or in the co-curriculum. This new second edition includes student self-assessment rubrics for each element of the model and new discussion on the critical roles of leadership self-efficacy, social perspective, and social justice perspectives. Content is enriched with research on how this approach to leadership is developed, and two new chapters situate the model in a broader understanding of leadership and in applications of the model. The Social Change Model is the most widely-used leadership model for college students, and has shaped college leadership curricula at schools throughout the U.S. and other countries including a

translation in Chinese and Japanese. This book provides a comprehensive exploration of the model, with a practical, relevant approach to real-world issues. Explore the many facets of social change and leadership Navigate group dynamics surrounding controversy, collaboration, and purpose Discover the meaning of citizenship and your commitment to the greater good Become an agent of change through one of the many routes to a common goal The SCM is backed by 15 years of research, and continues to be informed by ongoing investigation into the interventions and environments that create positive leadership development outcomes. Leadership for a Better World provides a thorough, well-rounded tour of the Social Change Model, with guidance on application to real-world issues. Please note that The Social Change Model: Facilitating Leadership Development (978-1-119-24243-7) is intended to be used as a Facilitator's Guide to Leadership for a Better World, 2nd Edition in seminars, workshops, and college classrooms. You'll find that, while each book can be used on its own, the content in both is also designed for use together.
