Folk Devils and Moral Panics Stanley Cohen,2011 'Richly documented and convincingly presented' -- New Society Mods and Rockers, skinheads, video nasties, designer drugs, bogus asylum seekers and hoodies. Every era has its own moral panics. It was Stanley Cohen's classic account, first published in the early 1970s and regularly revised, that brought the term 'moral panic' into widespread discussion. It is an outstanding investigation of the way in which the media and often those in a position of political power define a condition, or group, as a threat to societal values and interests. Fanned by screaming media headlines, Cohen brilliantly demonstrates how this leads to such groups being marginalised and vilified in the popular imagination, inhibiting rational debate about solutions to the social problems such groups represent. Furthermore, he argues that moral panics go even further by identifying the very fault lines of power in society. Full of sharp insight and analysis, *Folk Devils and Moral Panics* is essential reading for anyone wanting to understand this powerful and enduring phenomenon. Professor Stanley Cohen is Emeritus Professor of Sociology at the London School of Economics. He received the Sellin-Glueck Award of the American Society of Criminology (1985) and is on the Board of the International Council on Human Rights. He is a member of the British Academy.

The Gendered Motorcycle Esperanza Miyake, 2018-06-14 What happens to gender at 120mph? Are Harley-Davidsons more masculine than Yamahas? The Gendered Motorcycle answers such questions through a critical examination of motorcycles in film, advertising and television. Whilst bikers and biker cultures have been explored previously, the motorcycle itself has remained largely under-theorised, especially in relation to gender. Esperanza Miyake reveals how representations of motorcycles can produce different gendered bodies, identities, spaces and practices. This interdisciplinary book offers new and critical

ways to think about gender and motorcycles, and will interest scholars and students of gender, technology and visual cultures, as well as motorcycle industry practitioners and motorcycle enthusiasts.

What You See Is What You Get Alan Sugar, 2010-09-30 From a Hackney council estate to the House of Lords, this is the extraordinary story of one of our greatest entrepreneurs. Alan Sugar was born in 1947 and brought up on a council estate in Clapton, in Hackney. As a kid he watched his dad struggle to support the family, never knowing from one week to the next if he'd have a job. It had a huge impact on him, fuelling a drive to succeed that was to earn him a sizeable personal fortune. Now he describes his amazing journey, from schoolboy enterprises like making and selling his own ginger beer to setting up his own company at nineteen; from Amstrad's groundbreaking ventures in hi-fi and computers, which made him the darling of the stock exchange, to the dark days when he nearly lost it all; from his pioneering deal with Rupert Murdoch to his boardroom battles at Tottenham Hotspur FC. In this compelling autobiography, he takes us into the world of *The Apprentice*, and describes his appointment as advisor to the government and elevation to the peerage. Like the man himself, *What You See Is What You Get* is forthright, funny and sometimes controversial.

Lambretta & Vespa Street Racers Stuart Owen, 2020-11-18 Scooter sales had already peaked in Britain by the mid-1960s - led by the likes of the Lambretta and Vespa. Originally designed as transportation for commuters, the scooter came to be seen more as a vehicle for leisure. Ownership shifted to the younger generation and their appetite for speed and power was insatiable. Shops appeared offering performance tuning services for the first time and a new era of scootering dawned. Production of the Lambretta ceased in 1971 and although Vespa survived, the scooter scene went underground during the 1970s. The passion for tuning continued to flourish however and the release of Quadrophenia inspired a new wave of devotees going into the 1980s. Companies began investing heavily and the introduction of the TS1 cylinder kit for the Lambretta and the T5 Vespa by Piaggio took the tuning scene in a new direction. Now the pure Lambretta and Vespa street racer came to the forefront. Owners were prepared to blow huge budgets and their stunning creations took these machines to a new level. Today there is continued investment from manufacturers and competition is still strong as the Lambretta and Vespa Street racer scene continues to thrive. In **Lambretta & Vespa Street Racers**, author Stuart Owen traces the development of scooter tuning down the decades using dozens of rare period images and highlighting every significant technological milestone along the way. The different but inseparable stories of both Lambretta and Vespa tuning are told in full with compelling insight and expert knowledge.
