Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Gurps Illuminati Nigel D. Findley, 2018-11-20 The Secret Masters have denied all knowledge of the various conspiracy theories put forth in GURPS Illuminati. To begin with, we don't even exist, said a spokesman. The Illuminati are a myth. He went on to deny specifically that: Everything you read in the tabloids is true! Aliens regularly visit Earth, and are in contact with high government officials. The Men in Black are everywhere, and will snatch you from your home if you ask too many questions or just see something you shouldn't see. Orbital Mind Control satellites cruise the skies, influencing international politics and deciding the fates of billions. The Gnomes of Zurich control the world's monetary supply, and manipulate it to fit their own sinister plans. The world is such a complex web of secrets, mysteries and conspiracies that nobody really knows what is happening. But everyone in power lies . . . all the time. The only real way to protect yourself is to join the conspiracy. But even then, you'll never know who is pulling your strings. Everything you know is a lie. Everything you suspect is true. The world is a very strange place. Hail Eris! All Hail Discordia! The publishers of GURPS Illuminati, Steve Jackson Games, admitted that it was a work of fiction, but added, It's all true anyway! Just look at the book. It's closer than you think.

Sicily 1943 Steven J. Zaloga,2013-01-20 Not only did the Sicily operation represent a watershed in tactical development of combined arms tactics, it was also an important test for future Allied joint operations. Senior British commanders left the North African theater with a jaundiced and dismissive view of the combat capabilities of the inexperienced US Army after the debacle at Kasserine Pass in Tunisia in February 1943. Sicily was a demonstration that the US Army had rapidly learned its lessons and was now capable of fighting as a co-equal of the British Army. The Sicily campaign contained a measure of high drama as Patton took the reins of the Seventh US Army and bent the rules of the theater commander in a bold race to take Palermo on the northern Sicilian coast. When stiff German resistance halted Montgomery's main assault to Messina through the mountains, Patton was posed to be the first to reach the key Sicilian port and end the campaign. The Sicily campaign contains a fair amount of controversy as well including the disastrous problems with early airborne assaults and the Allied failure to seal the straits of Messina, allowing the Germans to withdraw many of their best forces.
