Combating Desertification in Asia, Africa and the Middle East

East G. Ali Heshmati, Victor R. Squires, 2013-07-01 This book is about the 'how' of desertification control as opposed to an analysis of the 'why' and fills a gap in the desertification-related literature in that it shows what to do in situations ranging from fixing mobile sands to arresting accelerated soil erosion in sloping lands. There are numerous illustrations to show the successful techniques. This compilation demonstrates that desertification and land degradation can be controlled and reversed with existing techniques in such widely varying environments as the Sahel of Africa to Sri Lanka and the Philippines in SE Asia, from mountains in Lesotho to low lands on desert margins in Mongolia. Proven approaches include technical interventions, changes in governance and to the legislative framework and policy reform. The book fills a gap in the desertification-related literature in that it shows what to do in situations ranging from fixing mobile sands to arresting accelerated soil erosion in sloping lands.

This is a step-by-step guide that walks you through the whole process of how to escalate privilege in Windows environment using many common techniques. We start by gathering as much information about the target as possible either manually or using automated scripts. Next, we search for misconfigured services or scheduled tasks, insufficient file permission on binaries or services, vulnerable kernel, vulnerable software running with high privileges, sensitive information stored on local files, credential saved in the memory, registry settings that always elevate privileges before executing a binary, hard-coded credential contained in the application

configuration files, and many more. Table of Contents Introduction

The Low-Income Countries of the Commonwealth of Independent States Sarosh Sattar, Mr. Clinton R. Shiells, 2004-04-22
The CIS-7 Initiative was launched in 2002 and endorsed by ministers from the CIS-7 and donor countries, with the objective of promoting poverty reduction, economic growth, and debt sustainability among the seven poorest countries of the Commonwealth of Independent States (CIS). This volume draws from the follow-up conference held in Lucerne, Switzerland, in January 2003. The objective of this conference was to achieve an understanding of the development agenda in the seven countries and the key policy measures to be taken by the governments and donors to improve future prospects for the countries' populations.

Violent Entrepreneurs Vadim Volkov, 2016-03-25 Entering the shady world of what he calls violent entrepreneurship, Vadim

Volkov explores the economic uses of violence and coercion in Russia in the 1990s. Violence has played, he shows, a crucial role in creating the institutions of a new market economy. The core of his work is competition among so-called violence-managing agencies—criminal groups, private security services, private protection companies, and informal protective agencies associated with the state—which multiplied with the liberal reforms of the early 1990s. This competition provides an unusual window on the dynamics of state formation. *Violent Entrepreneurs* is remarkable for its research. Volkov conducted numerous interviews with members of criminal groups, heads of protection companies, law enforcement employees, and businesspeople. He bases his findings on journalistic and anecdotal evidence as well as on his own personal observation. Volkov investigates the making of violence-prone groups in sports clubs (particularly martial arts clubs), associations for veterans of the Soviet–Afghan war, ethnic gangs, and regionally based social groups, and he traces the changes in their activities across the decade. Some groups wore state uniforms and others did not, but all of their members spoke and acted essentially the same and were engaged in the same activities: intimidation, protection, information gathering, dispute management, contract enforcement, and taxation. Each group controlled the same resource—organized violence.

Central Asia's New States Martha Brill Olcott, 1996 Reports on selected topics from recent research in minimax theory, focusing on the classical theorems, optimization problems using duality theory, optimality, and approximate algorithms. Among the 18 papers are discussions of minimax trees and associated algorithms, an iterative method, the on-line scheduling of two-stage shops, apportioning seats to a parliament, mutually repellant sampling, problems of six points and seven points in a planar convex body, and the counterfeit coin problem. A final paper explores minimax problems in combinatorial optimization. Accessible to graduate students and researchers in optimization,

computer science, and related disciplines. No subject index.

Clan Politics and Regime Transition in Central Asia

Kathleen Collins, 2006-04-03 This book is a study of the role of clan networks in Central Asia from the early twentieth century through 2004. Exploring the social, economic, and historical roots of clans, and their political role and political transformation in the Soviet and post-Soviet periods, it argues that clans are informal political actors that are critical to understanding politics in this region. The book demonstrates that the Soviet system was far less successful in transforming and controlling Central Asian society, and in its policy of eradicating clan identities, than has often been assumed. In order to understand Central Asian politics and their economies, scholars and policy makers must take into account the powerful role of these informal groups, how they adapt and change over time, and how they may constrain or undermine democratization in this strategic region.

Preying on the State Venelin I. Ganey, 2013-08-15 Immediately after 1989, newly emerging polities in Eastern Europe had to contend with an overbearing and dominant legacy: the Soviet model of the state. At that time, the strength of the state looked like a massive obstacle to change; less than a decade later, the state's dominant characteristic was no longer its overweening powerfulness, but rather its utter decrepitude. Consequently, the role of the central state in managing economies, providing social services, and maintaining infrastructure came into question. Focusing on his native Bulgaria, Venelin I. Ganey explores in fine-grained detail the weakening of the central state in post-Soviet Eastern Europe. Ganey starts with the structural characteristics of the Soviet satellites, and in particular the forms of elite agency

avored in the socialist party-state. As state socialism collapsed, Ganev demonstrates, its institutional legacy presented functionaries who had become accustomed to power with a matrix of opportunities and constraints. In order to maximize their advantage under such conditions, these elites did not need a robust state apparatus—in fact, all of the incentives under postsocialism pushed them to subvert the infrastructure of governance. Throughout *Preying on the State*, Ganev argues that the causes of state malfunctioning go much deeper than the policy preferences of free marketeers who deliberately dismantled the state. He systematically analyzes the multiple dimensions, implications, and significance of the institutional and social processes that transformed the organizational basis of effective governance.

America's National Game Albert Goodwill Spalding, 1911 This book is Albert Spalding's work of historic facts concerning the beginning, evolution, development and popularity of base ball, with personal reminiscences of its vicissitudes, its victories and its votaries. It is one of the defining books in the early formative years of modern baseball.

Power in the New Testament Pieter De Villiers, Annette Merz, 2021-12-31 Influential research by authors like Foucault and Arendt revealed the significant role of power in shaping relationships in society and faith communities. This volume contributes to this research trend by analysing the formative role of power in early Christian documents and communities. An introductory essay investigates theoretical approaches to power and the nexus between power and religion. It functions as orientation for the exegetical analyses of individual texts in the rest of the volume. Two contributions analyse power dynamics in the Bible generally and nine others investigate its use in specific early Christian texts. They attend to the vocabulary of power as well as the networks and actors involved in the execution of diverse forms of power. They focus on how these dynamics

operate specifically in the Gospels, Pauline texts and traditions and the Apocalypse. They show that power can be abusive and dangerous, but it also is a positive, restraining force.

Kyrgyzstan Askar Akaevich Akaev,2001 The 1990s saw one of the greatest social shifts of the 20th century. Across Eurasia centrally-planned economies dissolved and political structures often collapsed. One of the most striking examples was that of the Kyrgyz Republic. This small country adopted one of the most radical reform approaches.

Pre-tsarist and Tsarist Central Asia Paul Georg Geiss,2004-11-23 This study, written from the perspective of political sociology, represents the first comparative examination of Central Asian communal and political organisation before and after the tsarist conquest of the region. It covers Turkman, Kyrgyz, Kazakh and other tribal societies, analyses the patrimonial state structures of the Emirate of Bukhara and the Khanates of Khiva and Khokand, and discusses the impacts of the established tsarist civil military administration on communal and political orientations of the Muslim population.

Galactic Pot-healer Philip K. Dick,1994 What could an omnipresent and seemingly omnipotent entity want with a humble pot-healer? Or with the dozens of other odd creatures it has lured to Plowman's Planet? And if the Glimmung is a god, are its ends positive or malign? Combining quixotic adventure, spine-chilling horror, and deliriously paranoid theology, Galactic Pot-Healer is a uniquely Dickian voyage to alternate worlds of the imagination.
