Russia Under the Old Regime Richard Pipes, 1992 The author traces with compelling detail the evolution of the Russian state, where the Tsar claimed to own the land and its inhabitants as if they were his own personal property. Professor Pipes analyzes the political behavior of Russia's peasantry, nobility and bourgeoisie as well as its clergy, showing why none of them could limit the absolute power of the state. He discusses how the intelligentsia challenged the Tsars' power, leading to increased repression and Russia's development as a bureaucratic police state. This sweeping epic brings Russia's turbulent history to life and helps us better understand the roots of modern Russia.

Leaving Mundania Lizzie Stark, 2012-05-01 Exposing a subculture only beginning to enter the imagination of mainstream America, this is the story of live action role-playing (LARP) games. A hybrid of games—such as Dungeons & Dragons, historical reenactment, fandom, and good old-fashioned pretend-LARP games are thriving and this book explores its multifaceted culture and related phenomenon, including the Society for Creative Anachronism, a medieval reenactment group that boasts more than 32,000 members. The history of LARP is detailed and is shown to have arisen from the pageantry of Tudor England and is currently being used as a training tool for the U.S. military. Along the way, the author duels foes with foam-padded weapons, lets the great elder god Cthulhu destroy her parents' beach house, and endures an existential awakening in the high-art LARP scene of Scandinavia.

Kissing Architecture Sylvia Lavin, 2011-05-09 Architecture's growing intimacy with new types of art *Kissing Architecture* explores the mutual attraction between architecture and other forms of contemporary art. In this fresh, insightful, and beautifully illustrated book, renowned architectural critic and scholar Sylvia Lavin develops the concept of kissing to describe the growing intimacy between architecture and new types of art—particularly multimedia installations that take place in and on the surfaces of buildings—and to capture the sensual charge that is being designed and built

into architectural surfaces and interior spaces today. Initiating readers into the guilty pleasures of architecture that abandons the narrow focus on function, Lavin looks at recent work by Pipilotti Rist, Doug Aitken, the firm Diller Scofidio + Renfro, and others who choose instead to embrace the viewer in powerful affects and visual and sensory atmospheres. *Kissing Architecture* is the first book in a cutting-edge new series of short, focused arguments written by leading critics, historians, theorists, and practitioners from the world of urban development and contemporary architecture and design. These books are intended to spark vigorous debate. They stake out the positions that will help shape the architecture and urbanism of tomorrow. Addressing one of the most spectacular and significant developments in the current cultural scene, *Kissing Architecture* is an entertainingly irreverent and disarmingly incisive book that offers an entirely new way of seeing--and experiencing--architecture in the age after representation.
