American Like Me America Ferrera, 2019-09-03 INSTANT NEW YORK TIMES BESTSELLER From award-winning actress and political activist America Ferrera comes a vibrant and varied collection of first-person accounts from prominent figures about the experience of growing up between cultures. America Ferrera has always felt wholly American, and yet, her identity is inextricably linked to her parents' homeland and Honduran culture. Speaking Spanish at home, having Saturday-morning-salsa-dance-parties in the kitchen, and eating tamales alongside apple pie at Christmas never seemed at odds with her American identity. Still, she yearned to see that identity reflected in the larger American narrative. Now, in *American Like Me*, America invites thirty-one of her friends, peers, and heroes to share their stories about life between cultures. We know them as actors, comedians, athletes, politicians, artists, and writers. However, they are also immigrants, children or grandchildren of immigrants, indigenous people, or people who otherwise grew up with deep and personal connections to more than one culture. Each of them struggled to establish a sense of self, find belonging, and feel seen. And they call themselves American enthusiastically, reluctantly, or not at all. Ranging from the heartfelt to the hilarious, their stories shine a light on a quintessentially American experience and will appeal to anyone with a complicated relationship to family, culture, and growing up.

**Confusions** Alan Ayckbourn, 2013-12-04 A student edition of five one-act plays by Britain's most popular playwright. Ayckbourn's series of plays for 4-5 actors typify his black comedies of human behaviour. First produced in 1976, the plays are alternately naturalistic, stylised and farcical, but underlying each is the problem of loneliness. The Mother Figure shows a mother unable to escape from baby talk; in The Drinking Companion an absentee husband attempts seduction without success; in Between Mouthfuls, a waiter oversees a fraught dinner encounter. A garden party gets out of hand in Gosforth's Fete whilst A Talk in the Park is a revue style curtain call piece for the five actors. Whether the comedies concern marital conflict, infidelity or motherhood and take

place on a park bench or at a village fete, the characters are familiar and their cries for help instantly recognisable. Principally he is respected as a radical re-inventor of form Dominic Dromgoole

**The Nurse, the Math, the Meds** Joyce L. Mulholland,Joyce M. Mulholland,2006-10 This text emphasizes the simplicity of the dimensional analysis method to help even those students with math anxiety minimize or eliminate medication calculation errors. It begins with a comprehensive review of general math skills and an explanation of basic dimensional analysis methodology. The book focuses on the analysis and setup of practice problems, formulation of a reasonable answer, and evaluation of the answer. This one-of-a-kind text is designed for nursing students at all levels, including graduate nurses and practicing nurses who want a refresher. It is an appropriate text selection for agency in-service programs as well as for physician assistant medication math courses. A companion CD-ROM packaged with the text offers additional practice problems. A self-assessment test precedes the comprehensive math review in Chapter 1, promoting a strong math foundation. Chapter 2 introduces the dimensional analysis method and includes several basic practice problems, facilitating consistent application of the method throughout the text. The analysis and setup of practice problems increases comprehension, reduces errors, and complements use of the dimensional analysis method. To help reduce medication errors, the text follows JCAHO and ISMP recommendations regarding avoidance of ambiguous abbreviations, acronyms, and symbols. Each chapter begins with a quick overview of chapter contents to orient students as they prepare to read and study the material. The text's full-color design includes a special margin section in which students can work out practice problems on the spot. Rapid Practice exercises follow each main concept, allowing students to review even when their study time is limited or frequently interrupted. Test Tips enhance comprehension and improve students' test-taking skills and comfort level. Selected Mnemonics are supplied to facilitate memorization and conserve learning time. Red Arrow Alerts call attention to critical math concepts and patient-safety theory as well as to key nursing practice issues. FAQs and Answers are derived from students' actual classroom questions. They are particularly helpful to students who are studying outside of a traditional classroom environment. Ask Yourself questions help students comprehend and synthesize content. Communication boxes, which present sample nurse-patient and nurse-prescriber dialogues, illustrate clinical applications of medication administration. Cultural boxes describe selected math-notation and medication-related cultural practices. Clinical Relevance boxes show how abstract concepts, such as legal issues, apply to everyday clinical practice. Website addresses and other useful references are provided where applicable. Two chapter finals are included at the end of each chapter, one multiple-choice format and one traditional format, with answers provided in the back of the book. Two comprehensive finals, one using an NCLEX

examination-style multiple-choice format and one following a traditional format, test the major concepts covered in the text and offer an opportunity for additional practice. An answer key in the back of the book contains step-by-step solutions to the Rapid Practice exercises, chapter finals, and comprehensive text finals, allowing the student to pinpoint specific areas for further review.
