Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

All Things Altered Marilyn Mayer Culpepper,2014-09-18 Few readers of Margaret Mitchell's *Gone with the Wind* remained unmoved by how the strong-willed Scarlett O'Hara tried to rebuild Tara after the Civil War ended. This book examines the problems

that Southern women faced during the Reconstruction Era, in Part I as mothers, wives, daughters or sisters of men burdened with financial difficulties and the radical Republican regime, and in Part II with specific illustrations of their tribulations through the letters and diaries of five different women. A lonely widow with young children, Sally Randle Perry is struggling to get her life back together, following the death of her husband in the war. Virginia Caroline Smith Aiken, a wife and mother, born into affluence and security, struggles to emerge from the financial and psychological problems of the postwar world. Susan Darden, also a wife and mother, details the uncertainties and frustrations of her life in Fayette, Mississippi. Jo Gillis tells the sad tale of a young mother straining to cope with the depressed circumstances enveloping most ministers in the aftermath of the war. As the wife of a Methodist Episcopal minister in the Alabama Conference she sacrifices herself into an early grave in an attempt to further her husband's career. Inability to collect a debt three times that of the \$10,000 debt her father owed brought Anna Clayton Logan, her eleven brothers and sisters, and her parents face-to-face with starvation.

The Really Inconvenient Truths Iain Murray, 2008-04-22 Al Gore is bad for the planet... Talk about really inconvenient truths--that's one of the many you'll find in Iain Murray's rollicking exposé of environmental blowhards who waste more energy, endanger more species, and actually kill more people (yes, that's right) than the environmental villains they finger. Did you know that estrogen

from birth control and morning after pills is causing male fish across America to develop female sex organs? Funny how pro-choice and environmentalist liberals never talk about that. Or how about this: the Live Earth concert to save the planet released more CO2 into the atmosphere than a fleet of 2,000 Humvees emit in a year? We hear a lot about AIDS in Africa, but the number one killer of children in much of Africa is malaria--and guess who was responsible for banning the pesticide that used to have malaria under control? Iain Murray, a sprightly conservative environmental analyst with a long record of skewering liberal hypocrisy, has dug up seven of the all-time great environmental catastrophes caused by the Left and exposed them in *The Really Inconvenient Truths*.

Flim-Flam Man Jennifer Vogel,2010-06-15 Major motion picture *Flag Day* starring Sean Penn and his daughter Dylan Penn is based on this father-daughter story of a charming criminal--told by the daughter who loved him. One frosty winter morning in 1995, Jennifer Vogel opened the newspaper and read that her father had gone on the run. John Vogel, fifty-two, had been arrested for single-handedly counterfeiting nearly \$20 million in U.S. currency--the fourth-largest sum ever seized by federal agents--and

then released pending trial. Though Jennifer hadn't spoken to her father in more than four years, the police suspected he might turn up at her Minneapolis apartment. She examined the shadows outside her building, thought she spotted him at the grocery store and the bus stop. He had simply vanished. Framed around the six months her father eluded authorities, Jennifer's memoir documents the police chase—stakeouts, lie detector tests, even a segment on Unsolved Mysteries—and vividly chronicles her tumultuous childhood while examining her father's legacy. A lifelong criminal who robbed banks, burned down buildings, scammed investors, and even plotted murder, John Vogel was also a hapless dreamer who wrote a novel, baked lemon meringue pies, and took his ten-year-old daughter to see Rocky in an empty theater on Christmas Eve. When it came time to pass his counterfeit bills, he spent them at Wal-Mart for political reasons. Culling from memories, photo albums, public documents, and interviews with the handful of people who knew the real John Vogel, this is an intimate and intensely moving psychological portrait of a charismatic, larger-than-life figure—as told by the daughter who nearly followed in his footsteps.

American Like Me America Ferrera, 2019-09-03 INSTANT NEW YORK TIMES BESTSELLER From award-winning actress and political activist America Ferrera comes a vibrant and varied collection of first-person accounts from prominent figures about the experience of growing up between cultures. America Ferrera has always felt wholly American, and yet, her identity is inextricably linked to her parents' homeland and Honduran culture. Speaking Spanish at home, having Saturday-morning-salsa-dance-parties in the kitchen, and eating tamales alongside apple pie at Christmas never seemed at odds with her American identity. Still, she yearned to see that identity reflected in the larger American narrative. Now, in *American Like Me*, America invites thirty-one of her friends, peers, and heroes to share their stories about life between cultures. We know them as actors, comedians, athletes, politicians, artists, and writers. However, they are also immigrants, children or grandchildren of immigrants, indigenous people, or people who otherwise grew up with deep and personal connections to more than one culture. Each of them struggled to establish a sense of self, find belonging, and feel seen. And they call

themselves American enthusiastically, reluctantly, or not at all. Ranging from the heartfelt to the hilarious, their stories shine a light on a quintessentially American experience and will appeal to anyone with a complicated relationship to family, culture, and growing up.

Statistics Frederick L. Coolidge, 2020-01-10 The Fourth Edition of *Statistics: A Gentle Introduction* shows students that an introductory statistics class doesn't need to be difficult or dull. This text minimizes students' anxieties about math by explaining the concepts of statistics in plain language first, before addressing the math. Each formula within the text has a step-by-step example to demonstrate the calculation so students can follow along. Only those formulas that are important for final calculations are included in the text so students can focus on the concepts, not the numbers. A wealth of real-world examples and applications gives a context for statistics in the real world and how it helps us solve problems and make informed choices. New to the Fourth Edition are sections on working with big data, new coverage of alternative non-parametric tests, beta coefficients, and the nocebo effect,

discussions of p values in the context of research, an expanded discussion of confidence intervals, and more exercises and homework options under the new feature Test Yourself. Included with this title: The password-protected Instructor Resource Site (formally known as SAGE Edge) offers access to all text-specific resources, including a test bank and editable, chapter-specific PowerPoint® slides.
