**Achtung-Panzer!** Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

*The Longest Trail* Alvin M. Josephy, Jr.,2015-10-27 Alvin Josephy Jr.’s groundbreaking, popular books and essays advocated for a fair and true historical assessment of Native Americans, and set the course for modern Native American studies. This collection, which includes magazine articles, speeches, a white paper, and introductions and chapters of books, gives a generous and reasoned view of five hundred years of Indian history in North America from first settlements in the East to the long trek of the Nez Perce Indians in the Northwest. The essays deal with the origins of still unresolved troubles with treaties and territories to fishing and land rights, and who should own archeological finds, as well as the ideologies that underpin our Indian policy. Taken together the pieces give a revelatory introduction to American Indian history, a history that continues both to fascinate and inform.

**Artistic Impressions** Mary Louise Adams,2011-01-01 In contemporary North America, figure skating ranks among the most 'feminine' of sports and few boys take it up for fear of being labelled effeminate or gay. Yet figure skating was once an exclusively male pastime - women did not skate in significant numbers until the late 1800s, at least a century after the founding of the first skating club. Only in the 1930s did figure skating begin to acquire its feminine image. Artistic Impressions is the first history to trace figure skating's striking transformation from gentlemen's art to 'girls' sport.' With a focus on masculinity, Mary Louise Adams examines how skating's evolving gender identity has been reflected on the ice and in the media, looking at rules, technique, and style and at ongoing debates about the place of 'art' in sport. Uncovering the little known history of skating, Artistic Impressions shows how ideas about sport, gender, and sexuality have combined to limit the forms of physical expression available to men.

**A Spectacular Leap** Jennifer H. Lansbury,2014-04-01 When high jumper Alice Coachman won the high jump title at the 1941 national championships with a spectacular leap, African American women had been participating in competitive sport for close to twenty-five years. Yet it would be another twenty years before they would experience something akin to the national fame and recognition that African American men had known since the 1930s, the days of Joe Louis and Jesse Owens. From the 1920s, when black women athletes were confined to competing within the black community, through the heady days of the late twentieth century when they ruled the world of women's track and field, African American women found sport opened the door to a better life. However, they also discovered that success meant challenging perceptions that many Americans--both black and white--held of them. Through the stories of six athletes--Coachman, Ora Washington, Althea Gibson, Wilma Rudolph, Wyomia Tyus, and Jackie Joyner-Kersey--Jennifer H. Lansbury deftly follows the emergence of black women athletes from the African American community; their confrontations with contemporary attitudes of race, class, and gender; and their encounters with the civil rights movement. Uncovering the various strategies the athletes use to beat back stereotypes, Lansbury explores the fullness of African American women's relationship with sport in the twentieth century.

**Kicking Off** Sarah Shephard,2016-03-10 There's a battle being fought. It's raging on the sports fields, in the newsrooms and behind the scenes at every major broadcaster. Women in sport are fighting for equality with more vigour than ever, but are they breaking down the barriers that stand in their way? Sarah Shephard looks behind the headlines to see whether progress is really being made and tells the stories that can no longer be ignored. It's time for women to switch their focus from the battlefield to the sports field, once and for all. This candid and revealing book asks the questions at the forefront of the debate about women in sport: · Why do the most successful female athletes earn less than their male counterparts? · Why do so few elite sportswomen have the profile their talent deserves? · Why are girls still growing up believing that sport is 'for boys'? With contributions from women involved in sport at the highest level, including Chrissie Wellington, Maggie Alphonsi, Kelly Smith and Nicole Cooke, who reveal their personal experiences of being at the top of their game.

**Two Planks and a Passion** Roland Huntford,2013-01-31 Roland Huntford's brilliant history begins 20,000 years ago in the last ice age on the icy tundra of an unformed earth. Man is a travelling animal, and on these icy slopes skiing began as a means of survival. That it has developed into the leisure and sporting pursuit of choice by so much of the globe bears testament to its elemental

appeal. In polar exploration, it has changed the course of history. Elsewhere, in war and peace, it has done so too. The origins of skiing are bound up in with the emergence of modern man and the world we live in today.

**The Prince of Los Cocuyos** Richard Blanco,2014-09-30 “In this vibrant memoir, Obama-inaugural poet Richard Blanco tenderly, exhilaratingly chronicles his Miami childhood amid a colorful, if suffocating, family of Cuban exiles, as well as his quest to find his artistic voice and the courage to accept himself as a gay man.” — O, The Oprah Magazine A poignant, hilarious, and inspiring memoir from the first Latino and openly gay inaugural poet, which explores his coming-of-age as the child of Cuban immigrants and his attempts to understand his place in America while grappling with his burgeoning artistic and sexual identities. Richard Blanco’s childhood and adolescence were experienced between two imaginary worlds: his parents’ nostalgic world of 1950s Cuba and his imagined America, the country he saw on reruns of The Brady Bunch and Leave it to Beaver—an “exotic” life he yearned for as much as he yearned to see “la patria.” A prismatic and lyrical narrative rich with the colors, sounds, smells, and textures of Miami, Richard Blanco’s personal narrative is a resonant account of how he discovered his authentic self and ultimately, a deeper understanding of what it means to be American. His is a singular yet universal story that beautifully illuminates the experience of “becoming;” how we are shaped by experiences, memories, and our complex stories: the humor, love, yearning, and tenderness that define a life.
