Images of Colonialism and Decolonisation in the Italian Media Paolo Bertella Farnetti,Cecilia Dau Novelli,2017-11-06 The twentieth century saw a proliferation of media discourses on colonialism and, later, decolonisation. Newspapers, periodicals, films, radio and TV broadcasts contributed to the construction of the image of the African “Other” across the colonial world. In recent years, a growing body of literature has explored the role of these media in many colonial societies. As regards the Italian context, however, although several works have been published about the links between colonial culture and national identity, none have addressed the specific role of the media and their impact on collective memory (or lack thereof). This book fills that gap, providing a review of images and themes that have surfaced and resurfaced over time. The volume is divided into two sections, each organised around an underlying theme: while the first deals with visual memory and images from the cinema, radio, television and new media, the second addresses the role of the printed press, graphic novels and comics, photography and trading cards.

The Western Desert of Egypt Cassandra Vivian,2008 Already the most comprehensive guide ever for desert and oasis travel in Egypt west of the Nile, The Western Desert of Egypt: An Explorer's Handbook has now been fully revised and updated for the latest generation of twenty-first century desert adventurers. Fully illustrated with some 50 maps and plans and over 270 drawings, the guide covers both the natural history and the human history of the desert and the oases. It then explores chapter by chapter the oases of Kharga, Dakhla, Farafra, Bahariya, Fayoum, and Siwa, and the desert areas of al-Diffa (the northern, semiarid edge of the desert), the Darb al-Arbain caravan route in the south, and Uwaynat (including Gilf Kebir) in the southwest. Descriptions of routes, sites, people, and places are complemented by practical information on places to stay, eat, and fill your gas tank. Global positioning system (GPS) waypoints are provided as an aid to navigation on many routes--though for the sake of conservation and the protection of unguarded antiquities they are not given for remote sites. Almost encyclopedic in its scope, this is the one guide that belongs on the bookshelf, dashboard, or rucksack of every Western Desert traveler.

Battletech Technical Readout 3085 Catalyst Game Labs,2010-10-13 In December 3076, Devlin Stone marshaled the nations of the Inner Sphere and began Operation SCOUR. The two-year final push to Terra was the bloodiest fighting seen in centuries. In the end, Terra had been freed with the Word of Blake scattered to the darkest corners of the universe. Stepping into that vacuum, Stone forged a new Terran Hegemony in The Republic of the Sphere. With the end of the Jihad, the survivors are rebuilding their shattered armies, introducing new machines to replace those whose factories ceased to exist in the fires of the Jihad. BattleTech Technical Readout: 3085 gives a detailed look at the machines introduced during the waning days of the Jihad and into the founding days of Devlin Stones Republic of the Sphere. This book includes the latest Mechs, battle armor, aerospace and vehicles as well as new late-Jihad support vehicles. In addition, this sourcebook heralds the long-awaited update of Technical Readout: Project Phoenix, featuring brand-new art and additional variants. Conventional infantry make their Technical Readout debut with fifty-six individual infantry formations from classic foot infantry to xeno-planetary soldiers. And finally, after more than twenty years of silence, Land-Air BattleMechs explode back into a Technical Readout with a look at the original four LAMs and their Star League history.
