**Music Scenes** Andy Bennett, Richard A.  
Peterson, 2004 While more than 80 percent of the  
world's commercial music is controlled by four  
multinational firms, most music is made and  
enjoyed in diverse situations divorced from such  
corporate behemoths. These fourteen original  
essays examine the fascinating world of music  
scenes, those largely inconspicuous sites where  
clusters of musicians, producers, and fans explore  
their common musical tastes and distinctive  
lifestyle choices. Although most music scenes come  
and go with hardly a trace, they nevertheless give  
immense satisfaction to their participants, and a  
few - New York bop jazz, Merseybeat, Memphis  
rockabilly, London punk, Bronx hip-hop - achieve  
fame and spur musical innovations. To date,  
serious study of the scenes phenomenon has focused  
mainly on specific music scenes while paying less  
attention to recurrent dynamics of scene life,

such as how individuals construct and negotiate scenes to the various activities. This volume remedies that neglect. The editors distinguish between three types of scenes - local, translocal, and virtual - which provide the organizing framework for the essays. Aspects of local scenes, which are confined to specific areas, are explored through essays on Chicago blues, rave, karaoke, teen pop, and salsa. The section on translocal scenes, which involve the coming together of scattered local scenes around a particular type of music and lifestyle, includes articles on Riot Grrrls, goths, art music, and anarcho-punk. Aspects of virtual scenes, in which fans communicate via the internet, are illustrated using alternative country, the Canterbury sound, postrock, and Kate Bush fans. Also included is an essay that shows how the social conditions in places where jazz was made influenced that music's development.

*Introductory Grammar of Amharic* Wolf Leslau, 2000  
This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists.

The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

The Soviet Army Department of the Army, 2019-07-19 The Soviet Army: Operations and Tactics FM 100-2-1 This field manual is part of FM series 100-2, The Soviet Army. The other volumes are FM 100-2-2, The Soviet Army: Specialized Warfare and Rear Area Support, and FM 100-2-3, The Soviet Army: Troops, Organization and Equipment. These manuals cannot stand alone, but should be used interchangeably. These field manuals serve as the definitive source of unclassified information on Soviet ground forces and their interaction with other services in combined arms warfare. These manuals represent the most current unclassified information and they will be updated periodically. More information would become available in the event of war or national emergency. Why buy a book you can download for free? We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it

using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com This book includes original commentary which is copyright material. Note that government documents are in the public domain. We print these paperbacks as a service so you don't have to. The books are compact, tightly-bound paperback, full-size (8 1/2 by 11 inches), with large text and glossy covers. 4th Watch Publishing Co. is a HUBZONE SDVOSB. <https://usgovpub.com>
