Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

How to Make Adorable Baby Animal Dolls Jonni Good,2013-06 In this book the author shows you exactly how to make your own adorable baby animal collector's dolls, leading you through the entire process every step of the way. Your dolls won't cost much to make, and every doll will be an original, one-of-a-kind work of art. Since no two dolls ever come out exactly alike, each doll will have it's own personality and character. You won't have to learn how to make molds for the doll heads, because each one is hand-sculpted over a simple armature. You don't need a kiln, because you'll be using home-made air-dry clay instead of porcelain. The resulting heads are seamless, hollow, and surprisingly strong. The bodies and ears are made out of soft, huggable cotton velour, and the toes are sculpted with a few easy stitches. Adorable!

Hand-drawn Perspectives and Sketches ,2021-05-14 ARCHITECTURAL RENDERING: HAND-DRAWN PERSPECTIVES & SKETCHES is a unique book in the form of a compendium of 412 hand-drawn perspectives, sketches, isometrics, axonometrics, paintings and posters collected personally from 27 renowned architects and artists. These drawings have been selected to represent as many styles, types, periods, and regions as possible. The architects and artists whose works have been included in this treatise belong to countries like India, Italy, Kenya, Peru, and the United States of America. They represent about four generations of illustrators - the eldest one was born in 1910 and the youngest one is 1995-born. This range covers a period of almost a century and thus is witness to the many styles and changing trends in architectural rendering. It is hoped that the drawings featured in this book are sufficient to inspire young minds to adopt, adapt and continue the trend of hand-drawn perspectives, sketches, and paintings. The drawings featured in this book are grouped into four Sections. These include: Graphic Section-1: PERSPECTIVES (224 drawings) Graphic Section-2: SKETCHES (108 drawings) Graphic Section-3: ISOMETRICS and AXONOMETRICS (34 drawings) Graphic Section-4: PAINTINGS and POSTERS (46 drawings) The book was conceived of and is presented as a reference book for the use of architects, artists, painters, sketchers, sculptors, and students of these related disciplines. It is hoped that this book will enable them to have an overview of different styles of architectural rendering in the last century and to draw inspiration to continue this art in today's digital world.

The Ninth Wave Eugene Burdick,2021-02-04 The Ninth Wave, published in 1956, follows a political campaign complete with then cutting-edge innovations of opinion polling, computers and the use of campaign consultants. Though we now know -- even in a world of Facebook and Obama -- that data and numbers can't quite predict and

control political outcomes in the way the book lays out, the world has turned out close enough to Burdick's picture of the future to make The Ninth Wave a prescient and still relevant story, and one that should be loved by people who are into the mechanics of politics. (Mark Pack)

MiniEco Kate Lilley,2013 MiniEco is the sensational craft blog of Kate Lilley. With over 250,000 followers it has taken on cult status in the international craft community, and that is purely down to Kates fresh, contemporary and beautifully explained and executed craft projects. With a book for children already under her belt, this publication focuses more on adults with 33 pieces including paper gems, an origami lampshade, macrame hangings, pop-up pixel cards, hama bead candle holders, and tie-dyed furoshiki cloths. The ideas range in complexity from the simple to the advanced, but each one is totally unique and has never before been published. The look of the book will reflect the immaculate, Japanese-inflected minimalism of the MiniEco website, with some high-end production finishes including a die-cut, dust-jacketed paperback binding and boldly pared-back photography. QR codes will link to animated gifs of the craft being made.

In addition, this title will also have a preface by Joseph Kosinski, the director of Tron Legacy; and a forward by Steven Lisberger, the director of the original Tron and producer of Tron Legacy.
