Nobuaki Tadano

Do Androids Dream of Electric Sheep? Philip K. Dick, 1975 By 2021, the Terminus War had driven mankind off-planet and entire species into extinction. Now only the rich can afford living creatures; others may buy amazingly realistic simulacra: horses, cats, sheep ... Even humans. These artificial people are so advanced it's impossible to tell them from true men and women--except for their lack of empathy. Without empathy, androids can--and do--kill their owners and blend into society, so they're illegal on Earth. It's Rick Deckard's job to find these rogues and retire them. But androids tend to fight back--with deadly results.

It Must Be Art Michael Fishel, Nigel Suckling, 2018-07-28 Throughout the 1960s and 70s, London-based Big O Posters helped define the new and democratic art medium of the psychedelic poster, a vehicle for rebellion against the old order that went hand in hand with the music, literature, and film of the time. This is a comprehensive collection of works published by Big O artists, astonishingly creative folks whose artistry developed almost completely outside the influence of the art establishment. Included in more than 300 images are works by 19 artists, including Martin Sharp, Roger Dean, H.R. Giger, Robert Venosa, and Vali Myers whose signature styles include sci-fi, fantasy, visionary, botanical, and surrealism. In addition to hundreds of original works, this book digs below the surface to offer insights and anecdotes about the era, the artistic process, and reveals connections to artists from the past (Aubrey Beardsley, Alphonse Mucha, Kay Nielsen) whose spirit chimed with the age of Big O Posters.

The Satanic Bible Nolan Aljaddou, 2019-01-08 The handbook of Freemasonry.

The Jews of Nazi Vienna, 1938-1945 Ilana Fritz Offenberger, 2017-05-11 This book examines Jewish life in Vienna just after the Nazi takeover in 1938. Who were Vienna's Jews, how did they react and respond to Nazism, and why? Drawing upon the voices of the individuals and families who lived during this time, together with new archival documentation, Ilana Offenberger reconstructs the daily lives of Vienna's Jews from Anschluss in March 1938 through the entire Nazi occupation and the eventual dissolution of the Jewish community of Vienna. Offenberger explains how and why over two-thirds of the Jewish community emigrated from the country, while one-third remained trapped. A vivid picture emerges of the co-dependent relationship this community developed with their German masters, and the false hope they maintained until the bitter end. The Germans murdered close to one third of Vienna's Jewish population in the "final solution" and their family members who escaped the Reich before 1941 chose never to return; they remained dispersed across the world. This is not a triumphant history. Although the overwhelming majority survived the Holocaust, the Jewish community that once existed was destroyed.

Konosuba: God's Blessing on This Wonderful World!, Vol. 1 (light novel) Natsume Akatsuki, 2017-02-21 Game loving shut-in Kazuma Sato's life as a young schoolboy in Japan abruptly comes to an early end...or at least it was supposed to. When he opens his eyes, though, he sees a beautiful goddess that offers him a once in an after-lifetime chance to be reborn in a parallel world. The catch is that the world is violent and threatened by a growing evil! Fortunately, he can choose any one thing to bring with him. So he chooses the goddess, Aqua! And so his adventure with his gorgeous companion begins--if he could just get enough money and food to survive, keep his goddess out of trouble, and avoid grabbing the attention of the Demon King's army!

The Gamer's Brain Celia Hodent, 2017-08-10 Making a successful video game is hard. Even games that are successful at launch may fail to engage and retain players in the long term due to issues with the user experience (UX) that they are delivering. The game user experience accounts for the whole experience players have with a video game, from first hearing about it to navigating menus and progressing in the game. UX as a discipline offers guidelines to assist developers in creating the experience they want to deliver, shipping higher quality games (whether it is an indie game, AAA game, or serious game), and meeting their business goals while staying true to their design and artistic intent. In a nutshell, UX is about understanding the gamer's brain: understanding human capabilities and limitations to anticipate how a game will be perceived, the emotions it will elicit, how players will interact with it, and how engaging the experience will be. This book is designed to equip readers of all levels, from student to professional, with neuroscience knowledge and user experience guidelines and methodologies. These insights will help readers identify the ingredients for successful and engaging video games, empowering them to develop their own unique game recipe more efficiently, while providing a better experience for their audience. Key Features Provides an overview of how the brain learns and processes information by distilling research findings from cognitive science and psychology research in a very accessible way. Topics covered include: neuromyths, perception, memory, attention, motivation, emotion, and learning. Includes numerous examples from released games of how scientific knowledge translates into game design, and how to use a UX framework in game development. Describes how UX can guide developers to improve the usability and the level of engagement a game provides to its target audience by using cognitive psychology knowledge, implementing human-computer interaction principles, and applying the scientific method (user research). Provides a practical definition of UX specifically applied to games, with a unique framework. Defines the most relevant pillars for good usability (ease of use) and good engage-ability (the ability of the game to be fun and engaging), translated into a practical checklist. Covers design thinking, game user research, game analytics, and UX strategy at both a project and studio level. Offers unique insights from a UX expert and PhD in

psychology who has been working in the entertainment industry for over 10 years. This book is a practical tool that any professional game developer or student can use right away and includes the most complete overview of UX in games existing today.

Craft: Volume 01 Carla Sinclair,2006-11-28 CRAFT is the first project-based magazine dedicated to the renaissance that is occurring within the world of crafts. Celebrating the DIY spirit, CRAFT's goal is to unite, inspire, inform and entertain a growing community of highly imaginative people who are transforming traditional art and crafts with unconventional, unexpected and even renegade techniques, materials and tools; resourceful spirits who undertake amazing crafting projects in their homes and communities. Volume 01, the premier issue, features 23 projects with a twist! Make a programmable LED shirt, turn dud shoes into great knitted boots, felt an iPod cocoon, embroider a skateboard, and much more.

Final Fantasy XIV Poster Collection Square Enix,2022-07-26 A collection of 27 premium-quality removable posters featuring the breathtaking art of the global hit game Final Fantasy XIV. Celebrate the lush, magnificent artwork of the critically acclaimed online game Final Fantasy XIV with this selection of 27 large-format, full-color illustrations. Printed on heavy, press-varnished card stock, and featuring character art from A Realm Reborn through the Heavensward, Stormblood, and Shadowbringers expansion packs, these posters are a visual tribute to the rich world of Eorzea.

Everyone Can Learn Origami Peter Saydak,2017-11-18 The ultimate book for beginners who want to learn origami! In this book you'll learn all the basic folds and techniques through incredibly detailed sets of diagrams and written instructions. After learning the basics you'll find easy to follow instructions showing how to fold 77 traditional origami models including animals, flowers, insects, boxes and much more. By working through this book and folding the different models you'll practice all the different folds and techniques, improving your skills and folding progressively more complex origami. When you reach the end you'll know everything you need to become an origami master! Please note, this book is not for you if you're already an origami expert. If you know how to fold the traditional origami frog from a frog base then you probably already know everything this book can teach you.

Konosuba: God's Blessing on This Wonderful World!, Vol. 1 (manga) Natsume Akatsuki,2016-11-22 Kazuma Sato is a video game-loving shut-in-or at least he was, until a humiliating traffic accident brings his young life to an untimely end. But after his death, a beautiful girl claiming to be a goddess invites him to enter another world and gain some respectable perks in the process. But Kazuma's choice is going to have serious consequences for the goddess and the dead man alike...

Konosuba: An Explosion on This Wonderful World!, Vol. 1 (manga) Natsume Akatsuki,2019-06-18 Crimson Magic Clan members Megumin and Yunyun are at the top of their class, but they still have a lot to learn. Yunyun's begun learning advanced magic, but Megumin has gone down a different path-the path of explosion magic! Despite being warned of its limited usefulness, Megumin believes explosion magic is the way for her to become a great, voluptuous wizard, and she won't be convinced otherwise!

Affective Health and Masculinities in South Africa Hans Reihling,2020-04-03 Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

7 Billion Needles Nobuaki Tadano,2010 Modern-day Japan is the stage for a new form of hard science fiction, as author Nobuaki Tadano revisits one of the genre's Grand Masters, Hal Clement, in his debut series, 7 BILLION NEEDLES. Loosely based on Clement's golden age title Needle (Doubleday, 1952), Tadano's gripping homage follows the life of a teenage girl whose melancholy days are dramatically changed when her body becomes host to an alien life form caught up in an interplanetary manhunt.

Vintage Games Bill Loguidice,Matt Barton,2012-08-21 Vintage Games explores the most influential videogames of all time, including Super Mario Bros., Grand Theft Auto III, Doom, The Sims and many more. Drawing on interviews as well as the authors' own lifelong experience with videogames, the book discusses each game's development, predecessors, critical reception, and influence on the industry. It also features hundreds of full-color screenshots and images, including rare photos of game boxes and other materials. Vintage Games is the ideal book for game enthusiasts and professionals who desire a broader understanding of the history of videogames and their evolution from a niche to a global market.

Tropical Plant Science G. K. Berrie,A. Berrie,J. M. O. Eze,1987

Boas and Pythons of the World Mark O'Shea,2011 Renowned snake expert Mark O'Shea takes readers on an exciting continent-by-continent journey to look at these snakes in their native habitats. Stunning color photographs and intriguing stories from O'Shea's encounters with these snakes in the wild bring these reptiles to life -- from cover.

Atlantis Sharon Gosling,2005 First there was the Stargate movie, then the TV series Stargate SG-1 (now entering its ninth season), and now there's the spin-off show: Stargate Atlantis.

The Engagement of Professional Services Barry Butcher,David Coker,1995
