The Art and Science of Fencing Nick Evangelista,1999-02-01 Often thought of as an activity just for actors or an elite few, fencing is actually an ideal sport for people of all ages. Fencing develops dexterity, endurance, flexibility, grace, and overall fitness, while also allowing participants the opportunity to hone the mind's problem-solving abilities. It is easily learned and practiced by both young and old, men and women, boys and girls. It has even been molded to fit the needs of the blind and individuals using wheelchairs. This is truly a sport for everyone. The Art and Science of Fencing covers everything from the history of the sport to the specifics of fencing technique, including the psychology of fencing, types of fencing weapons, biographies of great fencers, and information on selecting a fencing school and getting started in the sport. This book is a necessity for everyone who's ever seen an Errol Flynn movie and thought Hey, that could be me!

Kuniyoshi David R. Weinberg,2005 Kuniyoshi The Faithful Samurai is a pioneering publication which deals with the most famous series - the Seichū gishi den (1847-48) and its sequel the Seichū gishin den (1848) - of the forty-seven masterless samurai (rōnin) by artist Utagawa Kuniyoshi (1797-1861). The true 18th-century tale of revenge by forty-seven rōnin for the death of their lord was enormously popular in Japan: it was dramatised for the Kabuki theatre and its heroes were often depicted in ukiyo-e prints. Kuniyoshi was a master in the genre of warrior prints, and his series expressively portrays these warrior 'folk heroes'. Dr. Weinberg's book also includes translations of the texts which appear on the prints and which recount each hero's exploits. In addition, there are photographs of the relics of the masterless samurai and the ruins of their castle in Akō.

Art of Armor Ann & Gabriel Barbier-Mueller Museum (Dallas, Tex.),2011 This extraordinary publication presents, for the first time, the samurai armor collection of the Ann and Gabriel Barbier-Mueller Museum in Dallas. The Barbier-Mueller has selectively amassed these pieces of armor over the past twenty-five years, ultimately forming one of the largest and most important collections of its kind in the world. It is composed of nearly three hundred objects, several of which are considered masterpieces, including suits of armor, helmets, masks, horse armor, and weaponry. The objects date from the 12th to the 19th century, with a particularly strong focus on Edo-period armor. Offering an exciting look into the world of the samurai warrior, the book begins with an introduction by Morihiro Ogawa. Essays by prominent scholars in the field highlight topics such as the phenomenon of the warrior in Japan, the development of the samurai helmet, castle architecture, women in samurai culture, and Japanese horse armor. The book's final section consists of an extensive catalogue of objects, concentrating on 120 significant works in the collection. Lavishly illustrated in full color, each object is accompanied by an entry written by a scholar of Japanese armor.

Tanegashima - The Arrival of Europe in Japan Olof G. Lidin,2003-12-16 The year 1543 marked the beginning of a new global consciousness in Japan with the arrival of shipwrecked Portuguese merchants on Tanegashima Island in southern Japan. Other Portuguese soon followed and Japan became aware of a world beyond India. After the merchants came the first missionary Francis Xavier in 1549, beginning the Christian century in Japan. This is not a new story, but it is the first time that Japanese, Portuguese and other European accounts have been brought together and presented in English. Their arrival was recorded by the Japanese in Tanegashima kafu, the Teppoki and the Kunitomo teppoki, here translated and presented together with European reports. Includes maps, and Portuguese and Japanese illustrations.

Japanese Arms and Armour Ian Bottomley,2017 Japan's inherited traditions and technological skill are reflected in the material culture of the nation. Here, Curator Emeritus Ian Bottomley describes one of the most popular parts of the Royal Armouries' collection. He offers an oversight of Japanese arms and armour from the Middle Ages to the twentieth century, describing sword-making, the rise of firearms, and highlights from key military campaigns.

Samurai 1550-1600 Anthony J Bryant,2013-02-20 This title details the culture, weapons, armour and training of the elite samurai warrior class in the fascinating Age of Battles period (1550-1600). This was a period of vital importance not only because of the political effects of the chaos but also due to the changes in warfare that occurred. In 1542 the Portuguese introduced the matchlock musket into Japanese warfare, and this book traces the effect that this important innovation had on the samurai. Life outside the field of battle is also examined, making this an unmissable book for those interested in this brave warrior caste.

Early Samurai AD 200-1500 Anthony J Bryant,2013-01-20 War played a central part in the history of Japan. Warring clans controlled much of the country. The wars were usually about land, the struggle for control of which eventually gave rise to perhaps the most formidable warriors of all time: the Samurai. Ancient Yayoi warriors developed weapons, armour and a code during the ensuing centuries that became the centrepiece for the Japanese Samurai. Anthony Bryant chronicles the history, arms and armour of these truly élite warriors, from the rise of the Yayoi through the Genpei War between the Minamoto and Taira clans to the Mongol invasions of the 13th century.

Hirado Louis Lawrence,1997 The first book in the Encyclopedia of Japanese Art series is devoted to Hirado porcelain and is the only work devoted exclusively to the subject in English. This much needed volume traces the origins of one of Japan's great porcelain manufacturers from its first years in the 17th century to its closure early in the 20th century. Illustrated with over 100 color plates, almost all of which are published for the first time, it displays the extraordinary range of Hirado wares originally made exclusively for the wealthy Matsura family. It conclusively demonstrates that Hirado was an important kiln in the history of Japanese ceramics and its widely varied wares rank among the finest made. Within the appendices of this book is a unique and comprehensive section devoted to over 90 marks found on Hirado wares. The eccentric charm and superlative quality of this rare porcelain is admirably displayed in this book by scholar and dealer, Louis Lawrence with an introduction by the renowned collector David Hyatt King.--Amazon.com.
