The Loom of Life Menno Schilthuizen,2008-08-15 In an age of increasing environmental problems, ecology has had to grow up fast from a discipline dealing with relatively simple interactions between species to one that tries to explain changes in global patterns of diversity and richness. The issues are complex. Every species may seem to have its own unique role, but if that is true, then why are there hundreds of species of plankton in an ecosystem with only a handful of niches? The tropics have a high biodiversity, but does anybody know why? And how can a single introduced tree species wreak havoc in Hawaii's rainforests, when it is one of thousands of quietly coexisting tree species in its native continent, South America? The strength of this book is that it will help digest some of these more complex issues in the ecology of biodiversity. It will do this by zooming out from the local scale to the global scale in a number of steps, marrying community ecology with macroecology, and introducing unexpected nuggets of natural history along the way. The reader will notice that, the larger the scale, the more the familiar niche-concept appears to be overshadowed by exotic fields from fractal and complexity theory. However, scientists differ in opinion on the scale at which niches become irrelevant. These differences of opinion, but also the search for unified ecological theories, will form another force by which the story will be carried along to its conclusion. A conclusion which, surprisingly, seeks to find a glimpse of the globe's future in the traces from its past.

Grizzlies, Gales and Giant Salmon Pat Ardley,2018-03-03 At age nineteen, Pat Ardley packed up her belongings and left Winnipeg for Vancouver, looking for adventure. Little did she know that she'd spend the next forty years in the wilderness, thirty of which would be spent with a man known as George "Hurricane" Ardley. Pat met George soon after arriving in Vancouver, and not long after that the two of them set out for Addenbroke Island to work as junior lighthouse keepers. The journey up to the little island in the Fitz Hugh Sound, 483 km north of Vancouver, took four rolling days by Coast Guard ship—and a huge leap in lifestyle. There, the couple fell in love with the wilderness lifestyle and each other. They learned to grow their own produce, keep chickens, can clams and salmon, build their own furniture, and in the evenings they read aloud to each other for entertainment. But, of course, it wasn't always easy. Pat's fear of the ocean made for a constant struggle in her marine environment, and being the partner of an adrenaline junky (he didn't earn the nickname "Hurricane" for nothing!) sometimes made for a wild ride. Soon Pat and George were starting their own remote fishing lodge in Rivers Inlet, not so far from where the adventure began on Addenbroke Island. Financed by their wilderness odd jobs, the lodge came together slowly but surely through the couple's hard work. George proudly added a nursery to the float lodge when their family grew, and they made sure the little ones knew not to step out the door without wearing a life jacket. Life was full of both challenges and rewards, and dealt plenty of disasters and close calls (including grizzly encounters) but the lodge business supported the family, and gained a steady clientele who were enticed back year after year by the warm welcome, beautiful setting and plentiful salmon, giant halibut and ling cod. After running the lodge together for twenty-seven years, George passed away from cancer. Despite all the advice she received to the contrary, Pat decided to run the business on her own with the assistance of her two children. Through resolve and strength in adversity, Pat outgrew the shadow of Hurricane Ardley and earned an intimidating nickname of her own: Don't-Mess-with-Me Ardley. Reminiscent of British Columbia classics like *Fishing with John*, *I Heard the Owl Call My Name* and the evocative wilderness writings of Chris Czajkowski, this memoir is a touching tribute to coastal life.

New York Magazine ,1985-06-03 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for

Paper Trails Mandy Haggith, 2008-09-04 From the medical sheets in maternity wards to our death certificates, paper charts the course of our lives. Paradoxically, it spreads ideas and learning as well as thousands of tons of junk mail, yet our dependence on this material is damaging our planet and creating mountains of unnecessary waste. Mandy Haggith explores our society's obsession with paper, from its invention in China 2000 years ago to the millions of tonnes we now use every year. Following the paper trail around the world, Mandy discovers the human stories of those affected by the industry, from a Russian ecologist, a Finnish logger and Indonesian tribal leaders, to a Canadian publisher and a Vietnamese paper technologist. In the process, she uncovers the paper industry's dirtiest secrets and sets out simple, practical steps we can take to minimise our own personal use of 20 tonnes of paper over our lifetime.

My Heart Is a Chainsaw Stephen Graham Jones, 2021-08-31 Winner of the Bram Stoker Award for Best Novel In her quickly gentrifying rural lake town Jade sees recent events only her encyclopedic knowledge of horror films could have prepared her for in this latest chilling novel that "will give you nightmares. The good kind, of course" (BuzzFeed) from the Jordan Peele of horror literature, Stephen Graham Jones. "Some girls just don't know how to die..." Shirley Jackson meets Friday the 13th in *My Heart Is a Chainsaw*, written by the New York Times bestselling author of *The Only Good Indians* Stephen Graham Jones, called "a literary master" by National Book Award winner Tananarive Due and "one of our most talented living writers" by Tommy Orange. Alma Katsu calls *My Heart Is a Chainsaw* "a homage to slasher films that also manages to defy and transcend genre." On the surface is a story of murder in small-town America. But beneath is its beating heart: a biting critique of American colonialism, Indigenous displacement, and gentrification, and a heartbreaking portrait of a broken young girl who uses horror movies to cope with the horror of her own life. Jade Daniels is an angry, half-Indian outcast with an abusive father, an absent mother, and an entire town that wants nothing to do with her. She lives in her own world, a world in which protection comes from an unusual source: horror movies...especially the ones where a masked killer seeks revenge on a world that wronged them. And Jade narrates the quirky history of Proofrock as if it is one of those movies. But when blood actually starts to spill into the waters of Indian Lake, she pulls us into her dizzying, encyclopedic mind of blood and masked murderers, and predicts exactly how the plot will unfold. Yet, even as Jade drags us into her dark fever dream, a surprising and intimate portrait emerges...a portrait of the scared and traumatized little girl beneath the Jason Voorhees mask: angry, yes, but also a girl who easily cries, fiercely loves, and desperately wants a home. A girl whose feelings are too big for her body. *My Heart Is a Chainsaw* is her story, her homage to horror and revenge and triumph.

To Fell a Tree Jeff Jepson, 2009 *To Fell a Tree* was written for the professional tree cutter as well as the weekend woodcutter. It's loaded with practical information that is essential to the safety and success of any tree felling and woodcutting operation, whether it's in the forest or the backyard. With step-by-step methods and more than 200 illustrations, topics include preparations before the work begins, felling a tree using a three-step procedure, felling difficult trees, and limbing and
