Speculative Everything Anthony Dunne, Fiona Raby, 2013-12-06 How to use design as a tool to create not only things but ideas, to speculate about possible futures. Today designers often focus on making technology easy to use, sexy, and consumable. In *Speculative Everything*, Anthony Dunne and Fiona Raby propose a kind of design that is used as a tool to create not only things but ideas. For them, design is a means of speculating about how things could be—to imagine possible futures. This is not the usual sort of predicting or forecasting, spotting trends and extrapolating; these kinds of predictions have been proven wrong, again and again. Instead, Dunne and Raby pose “what if” questions that are intended to open debate and discussion about the kind of future people want (and do not want). *Speculative Everything* offers a tour through an emerging cultural landscape of design ideas, ideals, and approaches. Dunne and Raby cite examples from their own design and teaching and from other projects from fine art, design, architecture, cinema, and photography. They also draw on futurology, political theory, the philosophy of technology, and literary fiction. They show us, for example, ideas for a solar kitchen restaurant; a flypaper robotic clock; a menstruation machine; a cloud-seeding truck; a phantom-limb sensation recorder; and devices for food foraging that use the tools of synthetic biology. Dunne and Raby contend that if we speculate more—about everything—reality will become more malleable. The ideas freed by speculative design increase the odds of achieving desirable futures.

**The Manchurian Candidate** Richard Condon, 2013-11-25 The classic thriller about a hostile

foreign power infiltrating American politics: “Brilliant . . . wild and exhilarating.” —The New Yorker A war hero and the recipient of the Congressional Medal of Honor, Sgt. Raymond Shaw is keeping a deadly secret—even from himself. During his time as a prisoner of war in North Korea, he was brainwashed by his Communist captors and transformed into a deadly weapon—a sleeper assassin, programmed to kill without question or mercy at his captors’ signal. Now he’s been returned to the United States with a covert mission: to kill a candidate running for US president . . . This “shocking, tense” and sharply satirical novel has become a modern classic, and was the basis for two film adaptations (San Francisco Chronicle). “Crammed with suspense.” —Chicago Tribune “Condon is wickedly skillful.” —Time

**Safe Management of Wastes from Health-care Activities** World Health Organization,2014

This is the second edition of the WHO handbook on the safe, sustainable and affordable management of health-care waste--commonly known as the Blue Book. The original Blue Book was a comprehensive publication used widely in health-care centers and government agencies to assist in the adoption of national guidance. It also provided support to committed medical directors and managers to make improvements and presented practical information on waste-management techniques for medical staff and waste workers. It has been more than ten years since the first edition of the Blue Book. During the intervening period, the requirements on generators of health-care wastes have evolved and new methods have become available. Consequently, WHO recognized

that it was an appropriate time to update the original text. The purpose of the second edition is to expand and update the practical information in the original Blue Book. The new Blue Book is designed to continue to be a source of impartial health-care information and guidance on safe waste-management practices. The editors' intention has been to keep the best of the original publication and supplement it with the latest relevant information. The audience for the Blue Book has expanded. Initially, the publication was intended for those directly involved in the creation and handling of health-care wastes: medical staff, health-care facility directors, ancillary health workers, infection-control officers and waste workers. This is no longer the situation. A wider range of people and organizations now have an active interest in the safe management of health-care wastes: regulators, policy-makers, development organizations, voluntary groups, environmental bodies, environmental health practitioners, advisers, researchers and students. They should also find the new Blue Book of benefit to their activities. Chapters 2 and 3 explain the various types of waste produced from health-care facilities, their typical characteristics and the hazards these wastes pose to patients, staff and the general environment. Chapters 4 and 5 introduce the guiding regulatory principles for developing local or national approaches to tackling health-care waste management and transposing these into practical plans for regions and individual health-care facilities. Specific methods and technologies are described for waste minimization, segregation and treatment of health-care wastes in Chapters 6, 7 and 8. These chapters introduce the basic features of each technology and the operational and environmental characteristics required to be achieved, followed by information on the potential advantages and disadvantages of each system. To reflect concerns about the difficulties of handling health-care wastewaters, Chapter 9 is an expanded chapter with new guidance on the various sources of wastewater and wastewater treatment options for places not

connected to central sewerage systems. Further chapters address issues on economics (Chapter 10), occupational safety (Chapter 11), hygiene and infection control (Chapter 12), and staff training and public awareness (Chapter 13). A wider range of information has been incorporated into this edition of the Blue Book, with the addition of two new chapters on health-care waste management in emergencies (Chapter 14) and an overview of the emerging issues of pandemics, drug-resistant pathogens, climate change and technology advances in medical techniques that will have to be accommodated by health-care waste systems in the future (Chapter 15).

*Integrated Risk Management for Leisure Services* Robert B. Kauffman, Merry Lynn Moiseichik, 2013-01-30 Integrated Risk Management for Leisure Services provides both students and professionals with a systematic approach to safety. By integrating risk management, accident prevention, and emergency response with information on legal liability, Integrated Risk Management for Leisure Services enables leisure service providers to implement strategies to reduce or eliminate bodily injury, property damage, and financial loss. Integrated Risk Management for Leisure Services uses a four-phase integrated risk management model. The first three phases focus on negligence, the accident process, and risk management plans to reduce or eliminate injury, damage, or loss. The fourth phase focuses on what to do after an incident occurs to reduce the impact of injury, damage, or loss. Integrated Risk Management for Leisure features several unique aspects for students and professionals in the recreation and park field. It covers safety prevention and accident processes in the recreation and parks field. Then it addresses how to manage the post-incident situation to reduce impacts. Last, the text integrates these two new areas with the

traditional areas of legal liability and risk management planning in an effort to provide safer recreation and park programs.

*Working Stiff* Judy Melinek, T.J. Mitchell, 2014-08-12 “Fun...and full of smart science. Fans of CSI—the real kind—will want to read it” (The Washington Post): A young forensic pathologist’s “rookie season” as a NYC medical examiner, and the hair-raising cases that shaped her as a physician and human being. Just two months before the September 11 terrorist attacks, Dr. Judy Melinek began her training as a New York City forensic pathologist. While her husband and their toddler held down the home front, Judy threw herself into the fascinating world of death investigation—performing autopsies, investigating death scenes, counseling grieving relatives. *Working Stiff* chronicles Judy’s two years of training, taking readers behind the police tape of some of the most harrowing deaths in the Big Apple, including a firsthand account of the events of September 11, the subsequent anthrax bio-terrorism attack, and the disastrous crash of American Airlines Flight 587. An unvarnished portrait of the daily life of medical examiners—complete with grisly anecdotes, chilling crime scenes, and a welcome dose of gallows humor—*Working Stiff* offers a glimpse into the daily life of one of America’s most arduous professions, and the unexpected challenges of shuttling between the domains of the living and the dead. The body never lies—and through the murders, accidents, and suicides that land on her table, Dr. Melinek lays bare the truth behind the glamorized depictions of autopsy work on television to reveal the secret story of the real morgue. “Haunting and illuminating...the stories from her average workdays...transfix the reader with their demonstration that medical science can diagnose and console long after the heartbeat stops” (The New York Times).

Behold the Dreamers Imbolo Mbue, 2017-06-26 A compulsively readable debut novel about marriage, immigration, class, race, and the trapdoors in the American Dream—the unforgettable

story of a young Cameroonian couple making a new life in New York just as the Great Recession upends the economy New York Times Bestseller • Winner of the PEN/Faulkner Award • Longlisted for the PEN/Open Book Award • An ALA Notable Book NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR • The New York Times Book Review • San Francisco Chronicle • The Guardian • St. Louis Post-Dispatch • Chicago Public Library • BookPage • Refinery29 • Kirkus Reviews Jende Jonga, a Cameroonian immigrant living in Harlem, has come to the United States to provide a better life for himself, his wife, Neni, and their six-year-old son. In the fall of 2007, Jende can hardly believe his luck when he lands a job as a chauffeur for Clark Edwards, a senior executive at Lehman Brothers. Clark demands punctuality, discretion, and loyalty—and Jende is eager to please. Clark's wife, Cindy, even offers Neni temporary work at the Edwardses' summer home in the Hamptons. With these opportunities, Jende and Neni can at last gain a foothold in America and imagine a brighter future. However, the world of great power and privilege conceals troubling secrets, and soon Jende and Neni notice cracks in their employers' façades. When the financial world is rocked by the collapse of Lehman Brothers, the Jongas are desperate to keep Jende's job—even as their marriage threatens to fall apart. As all four lives are dramatically upended, Jende and Neni are forced to make an impossible choice. Praise for *Behold the Dreamers* "A debut novel by a young woman from Cameroon that illuminates the immigrant experience in America with the tenderhearted wisdom so lacking in our political discourse . . . Mbue is a bright and captivating storyteller."—The Washington Post "A capacious, big-hearted novel."—The New York Times Book Review "Behold the Dreamers' heart . . . belongs to the struggles and small triumphs of the Jongas, which Mbue traces in clean, quick-moving paragraphs."—Entertainment Weekly "Mbue's writing is warm and captivating."—People (book of the week) "[Mbue's] book isn't the first work of fiction to

grapple with the global financial crisis of 2007–2008, but it’s surely one of the best. . . . It’s a novel that depicts a country both blessed and doomed, on top of the world, but always at risk of losing its balance. It is, in other words, quintessentially American.”—NPR “This story is one that needs to be told.”—Bust “Behold the Dreamers challenges us all to consider what it takes to make us genuinely content, and how long is too long to live with our dreams deferred.”—O: The Oprah Magazine “[A] beautiful, empathetic novel.”—The Boston Globe “A witty, compassionate, swiftly paced novel that takes on race, immigration, family and the dangers of capitalist excess.”—St. Louis Post-Dispatch “Mbue [is] a deft, often lyrical observer. . . . [Her] meticulous storytelling announces a writer in command of her gifts.”—Minneapolis Star Tribune
