Lee Smith Mary Ellen Snodgrass,2019-02-28 This literary companion surveys the works of Lee Smith, a Southern author lauded for her autobiographical familiarity with Appalachian settings and characters. Her dialogue captures the distinct voices of mountain people and their perceptions of local and world events, ranging from the Civil War to ecology and modernization. Mental and physical disability and the Southern cultural norm of including the disabled as both family and community members are recurring themes in Smith's writing. An A to Z arrangement of entries incorporates specific titles, and themes such as belonging, healing and death, humor, parenting and religion.

Gently Does It Alan Hunter,2010-09-16 The last thing you need when you're on holiday is to become involved in a murder. For most people, that would easily qualify as the holiday from hell. For George Gently, it is a case of business as usual. The Chief Inspector's quiet Easter break in Norchester is rudely interrupted when a local timber merchant is found dead. His son, with whom he had been seen arguing, immediately becomes the prime suspect, although Gently is far from convinced of his guilt. Norchester City Police gratefully accept Gently's offer to help investigate the murder, but he soon clashes with Inspector Hansom, the officer in charge of the case. Hansom's idea of conclusive evidence appals Gently almost as much as Gently's thorough, detailed, methodical style of investigation exasperates Hansom, who considers the murder to be a straightforward affair. Locking horns with the local law is a distraction Gently can do without when he's on the trail of a killer.
