📖 Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

📖 Typographic Systems of Design Kimberly Elam, 2007-05-03 Typographic organization has always been a complex system in that there are so many elements at play, such as hierarchy, order of reading, legibility, and contrast. In Typographic Systems, Kim Elam, author of our bestselling books, Geometry of Design and Grid Systems, explores eight major structural frameworks beyond the grid including random, radial, modular, and bilateral systems. By taking the reader through exercises, student work, and professional examples, Elam offers a broad range of design solutions. Once essential visual organization systems are understood the designer can fluidly organize words or images within a structure, combination of structures, or a variation of a structure. With clarity and substance, each system from the structured axis to the nonhierarchical radial array is explained and explored so that the reader comes away with a better understanding of these intricate complex arrangements. Typographic Systems is the seventh title in our bestselling Design Briefs series, which has sold more than 100,000 copies worldwide.
