*Lockheed F-104 Starfighter* Dave Windle,Martin W. Bowman,2012-03-19 The Starfighter was once described as a delight to fly, but one mistake and it will kill you. It is one of the worlds fastest fighters with a top speed of Mach 2.2 and a service ceiling of 58,000 feet. First delivered to the USAF in 1958 it was also sold to the German, Greek, Italian, Turkish and Italian Air Forces. It could carry a variety of air to air, and air to surface missiles and was powered by a single General Electric J79 turbojet that developed 17,900lbs of thrust with afterburner. The Italian Air Force continued to fly it into the 21st Century.This book contains the world famous color profiles created by Dave Windle of the type in different operational modes, configurations and color schemes. **F-104 Starfighter Pilot's Flight Operating Instructions** United States Air Force,2008-01-01 Created by famed Lockheed designer Kelly Johnson, the F-104 Starfighter was designed to compete with Soviet Mig-15s. Equipped with a huge and powerful J79 engine, the aircraft could reach speeds well in excess of Mach 2.0, while its thin, trapezoidal wing provided extremely low drag with terrific acceleration and rate of climb. This pilot's flight operating handbook was originally produced by the USAF. It has been slightly reformatted but is reproduced here in its entirety. It provides a fascinating view inside the cockpit of one of history's great planes.

**F-104 Starfighter Pilot's Flight Operating Instructions** United States Air Force,NASA,2011-01-01 Created by famed Lockheed designer Kelly Johnson, the F-104 Starfighter was designed to compete with Soviet Mig-15s. Equipped with a huge and powerful J79 engine, the aircraft could reach speeds well in excess of Mach 2.0, while its thin, trapezoidal wing provided extremely low drag with terrific acceleration and rate of climb. Unforgiving and sensitive to control inputs, the F-104 killed many pilots and developed a reputation as a widow-maker. Despite its shortcomings, the Starfighter enjoyed a long career. It flew in the air support role during Rolling Thunder in the Vietnam War. It also saw extensive service in foreign air forces and NATO. NASA continued to use the F-104 as a support aircraft until 1995. This pilot's flight operating handbook was originally produced by the USAF. It has been slightly reformatted but is reproduced here in its entirety. It provides a fascinating view inside the cockpit of one of history's great planes.

*Lockheed F-104 Starfighter* Martin W. Bowman,2018-02 The F-104 Starfighter is quite possibly one of the most photographed aircraft of all time. It is certainly one of the most iconic. Here, Martin Bowman offers up a well researched, comprehensive and thoroughly entertaining history of this impressive interceptor aircraft and fighter bomber. Firsthand insights gathered from pilots who have flown the Starfighter in a variety of international contexts make for a rich and diverse narrative, interspersed throughout with a good selection of black and white and color illustrations that really bring the story to life. Over the course of an eventful history, the Starfighter has been caught up in an extensive variety of conflicts across the world. This book not only acquaints us with the landmark milestones of a widely utilized aircraft type, it also illuminates our understanding of the dynamic history of aviation in the second half of the twentieth century.

**F-104 Starfighter** David Doyle,2016 The Lockheed F-104 Starfighter first flew in 1954, then broke the world altitude record in May 1958 and the world air-speed record nine days later. It was the first aircraft to hold both records simultaneously. Many of the Starfighter's records stand today. With a powerful XJ79 engine and futuristic design by famed Lockheed engineer Clarence Kelly Johnson and his team, a YF-104A passed Mach 2 in 1956. The F-104 was born from combat against Communist MiG-15 jet aircraft during the Korean War. Known as a missile with a man in it and an engine with wings, Starfighters trained astronauts such as Chuck Yeager on the edge of space, fought over Vietnam, and were lethal Cold War interceptors capable of firing air-to-air nuclear missiles. During its 50-year career, it was used by no less than 15 nations from Jordan to Taiwan; Italy finally retired its fleet in 2005. It is poised to be reborn as a civilian satellite launcher in 2018.

*F-104 Lockheed Starfighter* Gerald Paloque,2012-06-19 It was in the heat of aerial combat during the Korean War that the Starfighter gained its experience. The US Air Force needed a fighter with superior abilities and the military's order for this aircraft permitted Lockheed to launch plans for a was interceptor jet. From the mythical interceptor to NASA's aircraft, and the BundesLuftwaffe widow-makers, the entire history of the fastest fighter jet of the Cold War in NATO service is chronicled here.

The book includes comparisons with the American shuttle system and offers accounts of the Soviet test pilots chosen for training to fly the system, and the operational, political and engineering problems that finally sealed the fate of Buran and ultimately of NASA's Shuttle fleet.

The Great International Paper Airplane Book Jerry Mander,Howard Luck Gossage,George Dippel,1998-08 Paper airplanes as serious science? No longer shamefully relegated to the back rows of elementary-school sports stadiums, paper airplanes come into their own with this amusing -- and instructive -- book. The Great International Paper Airplane Book documents the proceedings of the first (and possibly only) International Paper Airplane Competition conducted by Scientific American. In addition to the behind-the-scenes story and official records of the Competition, readers will discover intriguing mini-essays on the historical, aesthetic, technological, and folkloric aspects of the paper airplane and on its startling implications for the future of aviation. Best of all, there are dozens of cut-fold-and-fly-them-yourself planes to experiment with. Combining real science with outright fun, this book appeals to paper airplane enthusiasts and would-be aviators of every age.
