*Global Trends 2040* National Intelligence Council, 2021-03 The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come. -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

The Economics of Brexit Philip B. Whyman, Alina I. Petrescu, 2021-01-05 The Economics of Brexit – Revisited builds upon and extends the analysis contained within the authors' previous book, The Economics of Brexit: A Cost-Benefit Analysis of the UK's Economic Relationship with the EU, which arguably represented the most comprehensive and systematic evaluation of the UK's economic relationship with the EU. The Economics of Brexit – Revisited continues where the previous volume left off, given that the UK has now formally withdrawn from the EU, and therefore the focus of the evidence presented concerns the potential economic implications arising from Brexit and considering the options available to those negotiating the UK's future economic relationship both regionally and globally. The Economics of Brexit – Revisited seeks to provide greater clarity to a range of issues that have been hotly debated over the past few years, ranging from the trade and fiscal implications of Brexit, to the economic impact of regulation and migration. The significance of different Brexit options are discussed in detail, including the significance of demands for regulatory harmonisation (the 'level playing field'), along with their implications for UK trade with the EU and the rest of the world. A wide range of economic analyses are evaluated to determine their relative methodological strengths and weaknesses, and ultimately whether their conclusions are sufficiently robust to engender confidence. Finally, noting that a key determinant of the effectiveness of any post-Brexit economic strategy depends upon the degree of flexibility created for economic policy, the book provides an extended examination of the potential relating to different economic policy options available to the UK government, depending upon the form of final trade settlement that is agreed with the EU. These policy options include more active forms of macroeconomic management, combined with industrial and procurement policy. The Economics of Brexit – Revisited therefore seeks to combine evaluation of the available evidence indicating the economic impact of Brexit, together with consideration of policy trade-offs that lie at the heart of the choices surrounding Brexit, and how these might be resolved. The Economics of Brexit – Revisited

therefore maintains its position as the most comprehensive analysis of the economics of Brexit in the market today.

**Maybe...** Chris Haughton,2021-11-30 A trio of misbehaving, mango-loving monkeys have a close call as the creator of Don't Worry, Little Crab gives readers a taste of vicarious mischief. Three little monkeys and their big monkey are sitting high on a branch in the forest canopy. "OK, monkeys! I'm off, says the big monkey. "Remember . . . Whatever you do, do NOT go down to the mango tree. There are tigers down there." Mmm . . . mangoes! think the little monkeys. They LOVE mangoes. Hmm . . . Maybe . . . maybe they could just look at the mangoes. That would be OK, right? With vivid colors, bold shapes, and his trademark visual humor, Chris Haughton is back with a deliciously suspenseful cautionary tale about pushing boundaries—and indulging your more impish side (when nobody is looking).

**Don't Worry, Little Crab** Chris Haughton,2020-04-07 From the award-winning creator of Shh! We Have a Plan comes a vibrantly colorful story about mustering the courage to try something new. Little Crab and Very Big Crab live in a tiny rock pool near the sea. Today they're going for a dip in the big ocean. "This is going to be so great," says Little Crab, splish-splashing and squelch-squelching along, all the way to the very edge. Then comes a first glance down at the waves. WHOOSH! Maybe it's better if they don't go in? With vivid colors, bold shapes, and his trademark visual humor, Chris Haughton shows that sometimes a gentle "don't worry, I'm here" can keep tentative little crabs sidestepping ahead — and help them discover the brilliant worlds that await when they take the plunge.

The sun is setting, and everyone in the forest is getting sleepy. The mice, rabbits, and deer all give great big yawns as they snuggle up with their families for the night. But someone isn't sleepy just yet. Little Bear thinks he can stay awake a bit longer. Can he do it?

Chris Haughton's bold and vibrant illustrations will captivate little ones eager to stay up just a teeny bit longer, while sweet depictions of animals cozying up in their beds for the night will soon have them yawning off to a dreamland of their own.
