📖 [Dancers in the Afterglow](#) Jack L. Chalker,2013-02-25 First came the tourists... Ondine was a resort planet. Sixteen million tourists travelled there from just about every world you could think of to live and love in sixteen million different ways. Then came the machists... They had gobbled up world after world, spreading their culture to thousands of different races with a brutal, vicious, but most effective system. They were inhuman, unthinking...uncaring. The Combine had already seen what they had done on other worlds, seen whole populations converted into something horrible...something not quite human, non-thinking and no longer caring. Now they had captured Ondine, and no human could save the planet. And then Daniel came to judgment. Daniel was a cyborg, a former fighter pilot now wedded to a master computer and life-support system housed in a flying golden egg. He was the Combine scientists' finest creation, a spaceship that could control twenty-two robot slaves. He was the perfect saviour for Ondine, but for one thing. Everyone seemed to forget that deep inside that golden egg was a very human being...
