Alexander Calder and His Magical Mobiles Jean Lipman, Margaret Aspinwall, 1981

Alexander Calder is surely the most beloved artist of the twentieth century - as well as a major figure in the history of modern sculpture. Calder invented the mobile and the stabile; he was endlessly creative at making drawings, jewellery, toys, and household objects; he even made a miniature circus that is treasured by children of all ages. Calder has been appreciated as much for his witty and playful personality as for his artistic genius. Now aspects of both the man and the artist are captured in a beautifully produced book, created to be especially accessible for young readers. *Alexander Calder and His Magical Mobiles* with its delightful text tells the story of Calder's life and career, and relates - often in the artist's own words - his working methods and his own feelings about his art. The publication also presents a treasury of favourite works by Calder, as well as fascinating photographs of the artist at work. There is also a sequence of photographs that can be flipped to show a mobile in motion. AUTHOR: Jean Lipman, an authority on American art and modern sculpture is a long-time friend of Calder and his family and has collected his work for many years. Mrs Lipman is the author three Calder books and was the editor of *Art in America* magazine for thirty years, then following that she was editor of publications at the Whitney Museum of American Art. SELLING POINTS: \*In 95 illustrations Calder's sculptures are presented as studies of motion, which also depict his playfulness and humour \*Includes a guide to many of the Calder sculptures that can be seen in museums and public spaces around the world ILLUSTRATIONS: 40 colour & 55 b/w illustrations

If Anything Happens I Love You Will McCormack, Michael Govier, 2022-09-27

Unimaginable loss yields to the power of human connection in this simple, moving story from the filmmakers of the eponymous Oscar-winning film. An elegy on grief. Heavy pain exquisitely rendered. Kirkus Starred Review Based on the Academy Award-winning animated short by the same name, *If Anything Happens I Love You* is a young adult graphic novel that follows two parents as they reckon with the loss of their young daughter, Rose, in a school shooting. Readers follow Rose from "above" as she watches her parents slowly break down under the weight and pain of their loss. Throughout the novel, Rose's soul seeks to help her parents reconnect. We learn who Rose was and how much life she lived in her short time. By incorporating a wide range of characters, her boyfriend, teacher, and her cat, Rose is able to introduce healing into the lives of the people she left behind. *If Anything Happens I Love You* may be a story about loss, but in it we see ourselves—in the grief, the pain, and, most importantly, in the fight toward human connection, love, and acceptance.

*Achtung-Panzer!* Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

**Humble Homes, Simple Shacks, Cozy Cottages, Ramshackle Retreats, Funky Forts** Dr Derek Diedricksen, 2012-02-01 This Old House meets Wayne's World in this zany guide to designing and building tiny homes Derek Diedricksen has always had a love for small, modest houses ever since his father gave him the book *Tiny Tiny Houses* by Lester Walker for his tenth birthday. Combining his artistic abilities, wild imagination, and his passion for small houses, he self-published *Humble Homes, Simple Shacks, Cozy Cottages, Ramshackle Retreats, Funky Forts, and Whatever the Heck Else we could Squeeze in Here* in 2009. This book is a collection of Diedricksen's creative/imaginative sketches for building small houses, shacks, cottages, and forts. The sketches are accompanied with hand-written commentary, both instructive and comical. Derek's main purpose is to get your creative juices flowing and encourage you to get off the couch and use your hands. Believing that specific building plans squash creativity, he avoids too many detailed instructions, giving you the chance to put your own creative spin on your very own small abode (even if it is just in your imagination).
