**The Text Book of Weightlifting** Arthur Saxon,2011-10-24 To my mind, every man should devote at least some small attention to Weight-lifting. I don't think that I have come to this conclusion simply because I myself have gained some distinction as a weight- lifter, but rather for the reasons set forth below. First of all, why does a man learn to box ? Well, because it is asserted that every man should learn how to defend himself in case of necessity. A good and sufficient reason, you will say. The same may also be put forward as an excuse for learning wrestling and ju-jutsu no doubt, but I am inclined to fancy that the noble art would possibly be more useful than either. As to fencing, club-swinging, etc., I know no reason for their practice except it be that of pleasure or a desire for physical exercise, which said reasons may be equally advanced for Weight-lifting, which it will, I think, be further readily admitted is the most sure and certain means of developing strength —a quality which would be most undeniably useful in any means of self-defence. Now, beside all this, every man in every walk of life is certain, sooner or later, to be confronted with a heavy object, bulky or otherwise, which he strongly desires to lift. - Arthur Saxon This is an original version, restored and re-formatted edition of Saxon's 1910 classic. **Music Scenes** Andy Bennett, Richard A. Peterson, 2004 While more than 80 percent of the world's commercial music is controlled by four multinational firms, most music is made and enjoyed in diverse situations divorced from such corporate behemoths. These fourteen original essays examine the fascinating world of music scenes, those largely inconspicuous sites where clusters of musicians, producers, and fans explore their common musical tastes and distinctive lifestyle choices. Although most music scenes come and go with hardly a trace, they nevertheless give immense satisfaction to their participants, and a few - New York bop jazz, Merseybeat, Memphis rockabilly, London punk, Bronx hip-hop - achieve fame and spur musical innovations. To date, serious study of the scenes phenomenon has focused mainly on specific music scenes while paying less attention to recurrent dynamics of scene life, such as how individuals construct and negotiate scenes to the various activities. This volume remedies that neglect. The editors distinguish between three types of scenes - local, translocal, and virtual - which provide the organizing framework for the essays. Aspects of local scenes, which are confined to specific areas, are explored through essays on Chicago blues, rave, karaoke, teen pop, and salsa. The section on translocal scenes, which involve the coming together of

scattered local scenes around a particular type of music and lifestyle, includes articles on Riot Grrrls, goths, art music, and anarcho-punk. Aspects of virtual scenes, in which fans communicate via the internet, are illustrated using alternative country, the Canterbury sound, postrock, and Kate Bush fans. Also included is an essay that shows how the social conditions in places where jazz was made influenced that music's development.
