Becca Hill longs to serve the Lord in a deeper capacity. She's felt unfulfilled in her ministry since the death of her husband, the pastor of the small Pleasant Springs Community Church. Despite a desire to return to ministry, Becca rejects a marriage proposal she receives in the mail from a pastor friend she's long admired but hasn't seen in twelve years. Ben Peterson needs a wife. He's convinced the megachurch in Orlando where he serves as the mission's pastor will terminate him if he doesn't remarry soon. He's battling grief over the loss of his wife two years earlier and believes Becca is the woman God has called him to marry. But he doesn't want to date, and time is against him. He must persuade her that they must marry soon, and more importantly, this arrangement could benefit them both. Will Becca leave the warmth and love of her small, close-knit community to marry Ben, a man she hasn't seen in twelve years and someone who may never love her? Find out now in this wholesome Christian romance.

Typographic Systems of Design Kimberly

Elam, 2007-05-03 Typographic organization has always been a complex system in that there are so many elements at play, such as hierarchy, order of reading, legibility, and contrast. In *Typographic Systems*, Kim Elam, author of our bestselling books, *Geometry of Design* and *Grid Systems*, explores eight major structural frameworks beyond the grid including random, radial, modular, and bilateral systems. By taking the reader through exercises, student work, and professional examples, Elam offers a broad range of design solutions. Once essential visual organization systems are understood the designer can fluidly organize words or images within a structure, combination of structures, or a variation of a structure. With clarity and substance, each system from the structured axis to the nonhierarchical radial array is explained and explored so that the reader comes away with a better understanding of these intricate complex arrangements. *Typographic Systems* is the seventh title in our bestselling *Design Briefs* series, which has sold more than 100,000 copies worldwide.
