Grand Prix Cars Denis Jenkinson,2015-10-02 “ In compiling this brief history of Grand Prix racing, along with descriptions of the more successful cars, I have limited myself to the period since World War II as the present day Grand Prix cars are mostly derived from the development and design of the early post war years. Although many ideas were taking shape in the period of the mid-thirties — such as the use of De Dion rear axle layouts, independent front suspension systems and hydraulic brakes — the main interest lay in engine design under a free ruling on capacity. It was not until about 1950 that a renaissance began in chassis design for Grand Prix cars and from then on a great deal of knowledge was gained; enough in fact, to enable roadholding to become a very exact science rather than a hit-and-miss affair. This development in the chassis and the search for improved road holding and higher cornering power was accentuated by the beginning of the era of unsupercharged racing, when power outputs were severely curtailed and speed had to be found by other means ...” (1959 - Denis Jenkinson)

The Oxford Handbook of the Archaeology of the Contemporary World Paul Graves-Brown, Rodney Harrison, Angela Piccini, 2013-10-17 It has been clear for many years that the ways in which archaeology is practised have been a direct product of a particular set of social, cultural, and historical circumstances - archaeology is always carried out in the present. More recently, however, many have begun to consider how archaeological techniques might be used to reflect more directly on the contemporary world itself: how we might undertake archaeologies of, as well as in the present. This Handbook is the first comprehensive survey of an exciting and rapidly expanding sub-field and provides an authoritative overview of the newly emerging focus on the archaeology of the present and recent past. In addition to detailed archaeological case studies, it includes essays by scholars working on the relationships of different disciplines to the archaeology of the contemporary world, including anthropology, psychology, philosophy, historical geography, science and technology studies, communications and media, ethnoarchaeology, forensic archaeology, sociology, film, performance, and contemporary art. This volume seeks to explore the boundaries of an emerging sub-discipline, to develop a tool-kit of concepts and methods which are applicable to this new field, and to suggest important future trajectories for research. It makes a significant intervention by drawing together scholars working on a broad range of themes, approaches, methods, and case studies from diverse contexts in different parts of the world, which have not previously been considered collectively.

The Economics of Motorsports Paulo Mourão, 2017-05-29 This book, the first study of its kind, examines the economics behind motorsports, in particular Formula One. Chapters discuss the costs involved in Formula racing and how they are borne by teams, promoters and racers. The book also looks at how society, the public and the private sectors stand to benefit economically from the motorsport industry. Other issues like the economics of TV rights, sponsorship and sustainability are also addressed, again for the first time in an economics book. Moving beyond the economics of what happens off the track, the book also undertakes a serious examination of what goes in to making a winning team and what having a winning racer can do for a team's fortunes. Mourão's highly relevant and contemporary book also looks at how motorsport teams confront the challenges of the modern sporting world, including the changing dynamics of sports media and considers the future of Formula 1 as motorsports evolve.

Maserati 250F Ian Wagstaff, 2016-05-15 This is the story of a uniquely special example of the Maserati 250F, the breed of car that epitomizes the 2.5-liter, front-engined Formula 1 era of 1954-60, and took part in the first and last races of that classic period. The finest flowering of the 250F came in 1957 with the lightweight version in which Juan Manuel Fangio won the last of his five World Championship titles. Three lightweights were built and the one featured in this book, chassis 2528, was driven to victory by Fangio in the Monaco Grand Prix and by Jean Behra in three non-championship Grands Prix at Pau, Modena and Casablanca. The fascinating story of 2528, from its construction to the present day, is accompanied by 400 photographs, many of them never previously published. This book presents the life of a truly Great Car - the most original and widely raced of all Maserati 250Fs.

Salvatore Scarpitta Salvatore Scarpitta, Luigi Sansone, Lawrence Rinder, Anne-Marie Russell, 2011 American painter and sculptor Salvatore Scarpitta (1919-2007) spent his childhood in Hollywood, where he fostered a love of dirt track racing. He moved to Italy in 1936 to study painting, and later fostered friendships with artists such as Alberto Burri, Lucio Fontana and Piero Manzoni. Scarpitta's mature work was to emerge from a unique mid-terrain between the unlikely twin influences of drag racing and Arte Povera; it led to his well-known wrapped or bandaged paintings, shaped canvases and even to replica racing cars, which frequently saw service before being exhibited. In the 1970s he made a series of sleds, the first of which was bought by Willem de Kooning. Despite Scarpitta's associations with both Abstract Expressionists and Pop artists, his work remained on the fringes of the postwar period's defining movements. As his influence emerges on a younger generation, this volume assesses his oeuvre.

Driven by Desire Alan Wilson, 2011-10-15 From a five-year-old girl racing 60mph micro-midgets in South Africa, to a Formula One driver in the British Championship during her first full year of racing in the UK, and on to becoming the first and only woman ever to win a Formula One race, Desire Wilson was a winner bested by very few of her male rivals. But single-seater racing was just the start of Desire's ascent in motorsport. She won two FIA World Championship Sports Car Endurance races in 1980, and went on to compete in well over 120 types of race car at more than 100 race tracks around the world. Always competitive, she earned a reputation for an intense, no-nonsense approach to racing, shrugging off the media glamour to focus on the hard grind of staying competitive in one of the world's toughest sporting arenas. Moving to the male-dominated world of North American racing, Desire became a pioneer for women racing in the harsh world of Indy Cars, facing discrimination, financial problems, and other obstacles ranging from tragedy to farce. Her career is unique in the world of racing, encompassing everything from club racing to Formula One and World Championship sports cars, to the evil monsters of the IndyCar World Series - the world's fastest race cars. Hers is a story of hardships, fun, tragedy, perseverance, injury, and the amazing behind-the-scenes world masked by the public face and glamour of racing. It tells, too, of the consequences of politics and discrimination in the male world of professional auto racing.

Senna Versus Prost Malcolm Folley, 2009-05-07 In the late eighties and early nineties, Formula One was at its most explosive, with thrilling races, charismatic drivers, nail-biting climaxes - and the most deadly rivalry ever witnessed in sport. Two of Formula One's most honoured champions and iconic figures drove together for McLaren for two seasons, and their acrimonious and hostile relationship extended even after one of them had left the team. ALAIN PROST, France's only F1 world champion, the intelligent, smooth driver with the epithet 'Le Professeur'. Ayrton Senna, the mercurial kid from a privileged background in Sao Paulo who would become the most intense and ruthless racing driver the world has ever seen. It was a story that would have a tragic ending. As the great rivals raced to victory, their relationship deteriorated badly, beginning with the breaking of a gentleman's agreement, and public spats followed, culminating in Prost accusing Senna of deliberately trying to ride him off the circuit, and fearful that the Brazilian would get someone killed with his daring overtaking feats. And the final, sad act of this drama happened at the San Marino Grand Prix at Imola in May 1994, when Senna was killed. Featuring a rare interview with Prost, and insight from Martin Brundle, Damon Hill, Sir Frank Williams, Bernie Ecclestone, Derek Warwick, Johnny Herbert, Gerhard Berger, plus McLaren insiders and other F1 figures, Malcolm Folley provides us with a breath-taking account of

one of the all-time classic sporting rivalries.
