Burnished Rows of Steel Jeremy Davies,2016-01-05 Most who read the Declaration of Independence find three foundational liberties promised to our citizens: life, liberty, and the pursuit of happiness. An increasing number of citizens seem to be discovering the fourth: the right to alter or abolish a form of government that leads invariably to tyranny. Since leaving the military and his security contracting work behind, Dave has been preparing himself for the time when exercising the right to alter

or abolish may become necessary. When he is approached on behalf of some powerful men who are prepared to risk their fortune to strike a blow against the political tyranny embodied by the president, Dave is prepared to accept the role of assassin. As he prepares to accept the mission of a lifetime, an alternate narrative begins to unfold. He struggles to discover whether the hit will be on behalf of a besieged gun maker or whether it has been orchestrated by members of the president's own party, who feel that his death would rescue the chances of their party heading into an election. As the motive becomes clear, so does Dave's course of action. He is caught in a race against time to thwart their plans, not for the leader of a country but for the life of a friend.

Atari Assembly Language Programmer's Guide Allan E.

Moose, Marian J. Lorenz, 1987-06-01 Presenting the fundamentals of machine language programming on the Atari 800 XL and 130 XE computers, this book discusses 6502 instruction set, 6502 programming, sound and graphics and I/O programming. Ideal for the those with a working knowledge of BASIC but with little or no assembly language experience.

Dangerous Curves Doyald Young, 2008-01-01

Designing Books Jost Hochuli, Robin Kinross, 2003 Newly

revised and expanded, this classic in book design argues for a non-dogmatic approach, one open to traditional and modern, and symmetrical and asymmetrical solutions. Jost Hochuli's work of over 30 years as a book designer is showcased, along with detailed comments by noted designer and critic Robin Kinross. As a designer, Hochuli's main concern is to work out individual solutions for individual books. This book is sure to help anyone who is seeking to develop a considered attitude toward the design and production of the book as a codex. -Fernand Baudin, Logos

Afrikan Alphabets Saki Mafundikwa, 2007 Due to popular demand for the first edition, Mark Batty Publisher proudly announces a reissue of this title in paperback. Because the book sets the record straight about how colonial powers suppressed the rich cultural and artistic histories of Afrikan alphabets, this title should appeal to individual readers as well as schools and universities. Both entertaining and anecdotal, *Afrikan Alphabets* presents a wealth of highly graphical, attractive and inspiring illustrations. Writing systems across the Afrikan continent and the Diaspora are analyzed and illustrated; syllabaries, paintings, pictographs, ideographs and symbols are compared and contrasted. This colourful, extensively illustrated and informative visual journey will be of interest to everyone seeking inspiration from, or more information about, Afrikan culture and art.

Theory of Type Design Gerard Unger, 2018-09 *Theory of Type Design* by internationally renowned type designer Gerard Unger is the first comprehensive theory of typeface design. This volume consists of 24 concise chapters, each clearly describing a different aspect of type design, from the influence of language to today's digital developments, from how our eyes and brain process letterforms to their power of expression. This splendid book includes more than 200 illustrations and practical examples that illuminate the theoretical material. The terminology is succinctly explained in the volume's extensive glossary. The theory is internationally orientated and relevant for typography

courses, professionals and those with a general interest in text and reading all over the world. --Publisher description.

ABC 3D Marion Bataille,2008 'S' spins, 'V' becomes 'W' via a mirrored page and other letters reveal themselves in pop-ups and sliding panels. All in simple black, white and red tones.
