Lame Deer, Seeker of Visions Lame Deer, Richard Erdoes, 1994-10 Lame Deer Storyteller, rebel, medicine man, Lame Deer was born almost a century ago on the Rosebud Reservation in South Dakota. A full-blooded Sioux, he was many things in the white man's world -- rodeo clown, painter, prisoner. But, above all, he was a holy man of the Lakota tribe. Seeker of Vision The story he tells is one of harsh youth and reckless manhood, shotgun marriage and divorce, history and folklore as rich today as ever -- and of his fierce struggle to keep pride alive, though living as a stranger in his own ancestral land.

Digital Design of Nature Oliver Deussen, Bernd Lintermann, 2006-03-30 What is computer graphics and what are the conceptual tasks of research in this area? To the average person the term still conveys more or less the design of - gos and the manipulation of pictures with the help of image-editing programs. However, during the past four decades, computer graphics has evolved into an innovative multifaceted ?eld of research and computing that affects many other sciences. In many areas and for many problems we can best convey an und- standing through images that trigger our sense with the highest capability: our eye. And, what is more, aside from algorithms, formulas, and tables, the c- puter graphics scientist often is able to create beauty. Though it is a beauty of its own, it often fascinates the viewer, especially when complex aesthetic images emerge from simple mathematical concepts. Also, there are only a few other areas that advance as dynamically as inf- matics and especially computer graphics. While CPU capacity still increases and is almost doubled every 18 months, the rendering speed and ef?ciency of graphics boards has increased even more during recent years. Today, images can be rendered in real time that some years ago still required several hours of computing. Parallel to the rapid improvement of computer hardware, many new algorithms were developed that today form the basis for some fundamental changes and achievements in graphics.

Out of Hand Museum of Arts and Design (New York, N.Y.), 2013 Out of Hand: Materializing the Postdigital examines the increasingly important role of digital fabrication in contemporary art, design, and architecture practice from 2005 to the present. New levels of expression will demonstrate the reciprocal relationship between art and innovation as seen through the lens of emerging twenty first century aesthetics. Out of Hand, the first publication to examine this interdisciplinary trend, accompanies a major exhibition at the Museum of Arts and Design, New York, bringing together for the first time an array of seminal works by more than 80 international artists, architects, and designers, including Ron Arad, Barry X Ball, Wim Delvoye, Zaha Hadid, Stephen Jones, Anish Kapoor, Marc Newson, Hiroshi Sugimoto, and Frank Stella. The book is organised around six themes. Magnus Larsson's proposed mobile 3D printer in Modeling Nature uses microbes to create habitable structures from desert sand. In New Geometries mathematical formulae inform the creation of intricate designs with distinctive angles and whorls. Historical decorative styles inspire the artists in Rebooting Revivals to rework the past for the present. 280 colour and b/w illustrations

The Marriage of Heaven and Earth Marlin Watling,2016-10-07 On the lookout for a mind-blowing new perspective on the nature of God and humanity's place in the world today? Dive into *The Marriage of Heaven and Earth*, and enter the mind of a veritable rock star of contemporary theology- N. T. Wright. Marlin Watling takes abstract and complex ideas and grounds them in simple terms through his unique combination of readable summaries and fifty accompanying illustrations. He distills a lifetime of complex theological analysis and data into easy-to-consume sketches with explanations to provide one thing: universal access to a brilliant mind. Watling's guide comprises four parts □ An introduction to N. T. Wright □ Summaries of Wright's four key concepts □ Wright's proposal of a new worldview □ An overview of humanity's mission, with an eye toward the end times Following in the footsteps of reformer Martin Luther, N. T. Wright makes the old story new again with his paradigm-shifting worldview. And in *The Marriage of Heaven and Earth*, Watling does something equally novel. He enters the ivory tower, strips away the pomp and ceremony of untouchable academia, and presents to believers of all interest levels Wright's theology as it's truly meant to be: easy to understand and full of grace.

Picasso's Ladies Wendy Ramshaw,Anna Beatriz Chadour-Sampson,1998 Wendy Ramshaw who lives in London is one of the leading artist-jewellers of the late 20th century whose distinctive style is internationally admired and widely influential. Picasso, one of the most prolific artists of the 20th century, and his painted records of his wives, mistresses and friends have been the focus of Ramshaw's study since the mid-Eighties. The sheer beauty of the women and the full range of emotions expressed in these paintings provided the impetus to design one or more jewels for each of the 66 portraits of 'Picasso's Ladies' illustrated in this book. In this publication the collection is for the first time being presented in its entirety alongside Picasso's paintings, the source of stimulus. In an unusual approach the artist gives in her notes an insight into her working process. She reveals to us the personal messages of each painting which led to a number of amazing designs and how her choice of stones either reflect or go against the colours on the paintings. Four authors have illuminated various aspects of what are undoubtedly some of the most intellectually complex and aesthetically accomplished jewels.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. One of the special challenges of making a good brooch is to find an adequate solution for the pin, which connects the piece securely to the wearer but goes beyond being a mere functional and invisible part of the backside.
