**Thirteen Moons** Charles Frazier,2006-10-03 This magnificent novel by one of America's finest writers is the epic of one man's remarkable journey, set in nineteenth-century America against the background of a vanishing people and a rich way of life. At the age of twelve, under the Wind moon, Will is given a horse, a key, and a map, and sent alone into the Indian Nation to run a trading post as a bound boy. It is during this time that he grows into a man, learning, as he does, of the raw power it takes to create a life, to find a home. In a card game with a white Indian named Featherstone, Will wins—for a brief moment—a mysterious girl named Claire, and his passion and desire for her spans this novel. As Will's destiny intertwines with the fate of the Cherokee Indians—including a Cherokee Chief named Bear—he learns how to fight and survive in the face of both nature and men, and eventually, under the Corn Tassel Moon, Will begins the fight against Washington City to preserve the Cherokee's homeland and culture. And he will come to know the truth behind his belief that "only desire trumps time." Brilliantly imagined, written with great power and beauty by a master of American fiction, Thirteen Moons is a stunning novel about a man's passion for a woman, and how loss, longing and love can shape a man's destiny over the many moons of a life.

Mastering The Market Cycle Howard Marks,2018-10-02 A NEW YORK TIMES, WALL STREET JOURNAL, AND USA TODAY BESTSELLER The legendary investor shows how to identify and master the cycles that govern the markets. We all know markets rise and fall, but when should you pull out, and when should you stay in? The answer is never black or white, but is best reached through a keen understanding of the reasons behind the rhythm of cycles. Confidence about where we are in a cycle comes when you learn the patterns of ups and downs that influence not just economics, markets, and companies, but also human psychology and the investing behaviors that result. If you study past cycles, understand their origins and remain alert for the next one, you will become keenly attuned to the investment environment as it changes. You'll be aware and prepared while others get blindsided by unexpected events or fall victim to emotions like fear and greed. By following Marks's insights—drawn in part from his iconic memos over the years to Oaktree's clients—you can master these recurring patterns to have the opportunity to improve your results.
