**The Death of Nature** Carolyn Merchant, 2019-09-10 UPDATED 40TH ANNIVERSARY EDITION WITH 2020 PREFACE An examination of the Scientific Revolution that shows how the mechanistic world view of modern science has sanctioned the exploitation of nature, unrestrained commercial expansion, and a new socioeconomic order that subordinates women.

*The Mindful Hand* Lissa Roberts, Simon Schaffer, Peter Dear, 2007 Although manual labour and theoretical invention might now seem separate ventures, history teaches us that they are closely linked processes. The Mindful Hand explores innovative areas of European society between the late Renaissance and the period of early industrialisation where the enterprise of knowledge and production relied on the most intimate connexions of thought and toil. This volume explains how philosophers and labourers collaborated in an environment where artisans and instrument-makers, administrators and entrepreneurs simultaneously pioneered technical change alongside knowledge formation. The essays gathered here help show how these projects were pursued together, yet why, in retrospect, the very categories of science and technology emerged as seemingly distinct endeavors.

The Gutenberg Galaxy Marshall McLuhan, 1962-01-01 Since its first appearance in 1962, the impact of The Gutenberg Galaxy has been felt around the world. It gave us the concept of the global village; that phrase has now been translated, along with the rest of the book, into twelve languages, from Japanese to Serbo-Croat. It helped establish Marshall McLuhan as the original 'media guru.' More than 200,000 copies are in print. The reissue of this landmark book reflects the continuing importance of McLuhan's work for contemporary readers.

**The English of Tourism** Georgeta Rață, 2013-01-03 The English of Tourism is a collection of essays on the English specific to the Tourism Industry. The approach is a linguistic one: the different aspects of the English used in the field of tourism (tourism industry, types of tourism, travel agencies, Internet sites of travel agencies, eco-tourism, travel) and in tourism-related fields (accommodation, advertising, entertainment, food services, hospitality, transportation) are analysed from a morphological (combination, derivation), syntactical (nominal phrases, verbal phrases), lexical and lexicographical, semantic (homonymy, semantic fields, synonymy, terminology), pragmatic (academic discourse, idiom, metaphor), etymological (etymon, Latin heritage), and contrastive (Croatian–Romanian, English–Croatian, English–Romanian, French–English, Romanian–English) points of view. This book will appeal to people employed in industries including hotels, transportation, events, food and beverage, parks and recreation, as well as to professors, researchers, students, and translators from Croatian-, English-, French-, and Romanian-speaking countries, active in their own countries or abroad. The types of academic readership it will appeal to include: academic teaching staff, researchers and students in the field of tourism, of tourism-related fields – accommodation, advertising, entertainment, food services, hospitality, and transportation – and of languages.

**The Columbia Guide to the Literatures of Eastern Europe Since 1945** Harold B. Segel, 2003 The Iron Curtain concealed from western eyes a vital group of

national and regional writers. Marked by not only geographical proximity but also by the shared experience of communism and its collapse, the countries of Eastern Europe--Poland, Hungary, Albania, Romania, Bulgaria, and the former states of Yugoslavia, Czechoslovakia, and East Germany--share literatures that reveal many common themes when examined together. Compiled by a leading scholar, the guide includes an overview of literary trends in historical context; a listing of some 700 authors by country; and an A-to-Z section of articles on the most influential writers.

**No-Signal Area** Robert Perisic, 2020-05-05 Oleg and Nikola--hustlers, entrepreneurs, ambassadors of capitalism--have come to the town of N to build an obsolete turbine, never mind why. Enlisting the help of former engineer Sobotka, they reopen the old turbine factory, preaching the gospel of "self-organization" and bringing new life to the depressed post-communist town. But as the project spins out of control, Oleg and Nikola find themselves increasingly entangled with the locals, for whom this return to past prosperity brings bitter reckonings and reunions. At once a savage sendup of our current political moment and a rueful elegy for what might have been, this sprawling novel blends tragedy and comedy in its portrayal of ordinary people wondering where it all went wrong, and whether it could have gone any other way.
