War of the Rats David L. Robbins, 2009-12-16 For six months in 1942, Stalingrad is the center of a titanic struggle between the Russian and German armies—the bloodiest campaign in mankind's long history of warfare. The outcome is pivotal. If Hitler's forces are not stopped, Russia will fall. And with it, the world.... German soldiers call the battle Rattenkrieg, War of the Rats. The combat is horrific, as soldiers die in the smoking cellars and trenches of a ruined city. Through this twisted carnage stalk two men—one Russian, one German—each the top sniper in his respective army. These two marksmen are equally matched in both skill and tenacity. Each man has his own mission: to find his counterpart—and kill him. But an American woman trapped in Russia complicates this extraordinary duel. Joining the Russian sniper's cadre, she soon becomes one of his most talented assassins—and perhaps his greatest weakness. Based on a true story, this is the harrowing tale of two adversaries enmeshed in their own private war—and whose fortunes will help decide the fate of the world.

Surprise, Kill, Vanish Annie Jacobsen, 2019-05-14 From Pulitzer Prize finalist Annie Jacobsen, the untold USA Today bestselling story of the CIA's secret paramilitary units. Surprise . . . your target. Kill . . . your enemy. Vanish . . . without a trace. When diplomacy fails, and war is unwise, the president calls on the CIA's Special Activities Division, a highly-classified branch of the CIA and the most effective, black operations force in the world. Originally known as the president's guerrilla warfare corps, SAD conducts risky and ruthless operations that have evolved over time to defend America from its enemies. Almost every American president since World War II has asked the CIA to conduct sabotage, subversion and, yes, assassination. With unprecedented access to forty-two men and women who proudly and secretly worked on CIA covert operations from the dawn of the Cold War to the present day, along with declassified documents and deep historical research, Pulitzer Prize finalist Annie Jacobsen unveils -- like never before -- a complex world of individuals working in treacherous environments

populated with killers, connivers, and saboteurs. Despite Hollywood notions of off-book operations and external secret hires, covert action is actually one piece in a colossal foreign policy machine. Written with the pacing of a thriller, *Surprise, Kill, Vanish* brings to vivid life the sheer pandemonium and chaos, as well as the unforgettable human will to survive and the intellectual challenge of not giving up hope that define paramilitary and intelligence work. Jacobsen's exclusive interviews -- with members of the CIA's Senior Intelligence Service (equivalent to the Pentagon's generals), its counterterrorism chiefs, targeting officers, and Special Activities Division's Ground Branch operators who conduct today's close-quarters killing operations around the world -- reveal, for the first time, the enormity of this shocking, controversial, and morally complex terrain. Is the CIA's paramilitary army America's weaponized strength, or a liability to its principled standing in the world? Every operation reported in this book, however unsettling, is legal.

German Pionier 1939-45 Gordon L. Rottman, 2010-06-01 The German Army of World War II (1939-1945) collectively referred to its various engineer units as Pioniere - what would be called combat engineers in the West. This organization included Pioniertruppen (Pionier Troops), Bautruppen (Construction Troops), Eisenbahtruppen (Railway Troops), and Technische Truppen (Technical Troops). They were first and foremost assault troops, and construction workers second. They were tasked with overcoming manmade and natural obstacles, and in the attack they supported the infantry as specialist assault troops, attacking fortified positions with demolitions and flamethrowers. In the defence they constructed fortifications and shelters, erected obstacles, laid minefields, planted booby traps, cleared fields of fire, erected camouflage, and maintained supply routes. This book examines the recruitment and special training of a German Pionier. It also covers life in the field while on campaign and the of a Pionier role in supporting infantry assaults.

In Broad Daylight Father Patrick Desbois, 2018-01-23 How the Murder of More Than Two Million Jews Was Carried Out--In Broad Daylight Based on a decade of work by Father Patrick Desbois and his team at Yahad-In Unum that has culminated to date in interviews with more than 5,700 neighbors to the murdered Jews and visits to more than 2,700 extermination sites, many of them unmarked. One key finding: Genocide does not happen without the neighbors. The neighbors are instrumental to the crime. In his National Jewish Book Award-winning book *The Holocaust by Bullets*, Father Patrick Desbois documented for the first time the murder of 1.5 million Jews in Ukraine during World War II. Nearly a decade of further work by his team, drawing on interviews with neighbors of the Jews, wartime records, and the application of modern forensic practices to long-hidden grave sites. has resulted in stunning new findings about the extent and nature of the genocide. In *Broad Daylight* documents mass killings in seven countries formerly part of the Soviet Union that were invaded by Nazi Germany. It shows how these murders followed a template, or script, which included a timetable that was duplicated from place to place. Far from being kept secret, the killings were done in broad daylight, before witnesses. Often, they were treated as public spectacle. The Nazis deliberately involved the local inhabitants in the mechanics of death--whether it was to cook for the killers, to dig or cover the graves, to witness their Jewish neighbors being marched off, or to take part in the slaughter. They availed themselves of local people and the structures of Soviet life in order to make the Eastern Holocaust happen. Narrating in lucid, powerful prose that has the immediacy of a crime report, Father Desbois

assembles a chilling account of how, concretely, these events took place in village after village, from the selection of the date to the twenty-four-hour period in which the mass murders unfolded. Today, such groups as ISIS put into practice the Nazis' lessons on making genocide efficient. The book includes an historical introduction by Andrej Umansky, research fellow at the Institute for Criminal Law and Criminal Procedure, University of Cologne, Germany, and historical and legal advisor to Yahad-In Unum.

Fort Eben Emael Simon Dunstan, 2012-11-20 At the outbreak of World War II, Fort Eben Emael in Belgium was the strongest fortress in the world, and it lay exactly across the German invasion route of Belgium and France. The fort's elimination was essential for the success of Hitler's invasion of the West. Deemed impregnable to conventional attack, Hitler himself suggested the means for its capture with the first glider-borne assault in military history. On 10 May 1940, ten gliders carrying just 77 paratroopers landed on top of the fort. Using top-secret hollow-charge weapons for the first time in warfare, the assault pioneers of Sturmgruppe Granit subdued Fort Eben Emael within just 30 minutes, and the fortress surrendered within 30 hours. It remains one of the greatest raids in the annals of Special Forces.
