Papertoy Monsters Brian Castleforte,2010-12-29 A breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that’s hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), Papertoy Monsters offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own back-story. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck, the lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

Covering Immigration Leo R. Chavez,2023-11-10 On October 17, 1994, The Nation ran the headline The Immigration Wars on its cover over an illustration showing the western border of the United States with a multitude of people marching toward it. In the foreground, the Statue of Liberty topped by an upside-down American flag is joined by a growling guard dog lunging at a man carrying a pack. The magazine's coverage of emerging anti-immigrant sentiment shows how highly charged the images and texts on popular magazine covers can be. This provocative book gives a cultural history of the immigration issue in the United States since 1965, using popular magazine covers as a fascinating entry into a discussion of our attitudes toward one of the most volatile debates in the nation. Leo Chavez gathers and analyzes over seventy cover images from politically diverse magazines, including Time, Newsweek, U.S. News and World Report, Business Week, The New Republic, The Nation, and American Heritage. He traces the connections between the social, legal, and economic conditions surrounding immigration and the diverse images through which it is portrayed. Covering Immigration suggests that media images not only reflect the national mood but also play a powerful role in shaping national discourse. Drawing on insights from anthropology, sociology, and cultural studies, this original and perceptive book raises new questions about the media's influence over the public's increasing fear of immigration.

Social Choice and Individual Values Kenneth J. Arrow,2012-06-26 Originally published in 1951, Social Choice and Individual Values introduced Arrow's Impossibility Theorem and founded the field of social choice theory in economics and political science. This new edition, including a new foreword by Nobel laureate Eric Maskin, reintroduces Arrow's seminal book to a new generation of students and researchers.Far beyond a classic, this small book unleashed the ongoing explosion of interest in social choice and voting theory. A half-century later, the book remains full of profound insight: its central message, 'Arrow's Theorem, ' has changed the way we think.--Donald G. Saari, author of Decisions and Elections: Explaining the Unexpected

Women’s Manga in Asia and Beyond Fusami Ogi,Rebecca Suter,Kazumi Nagaike,John A. Lent,2019-03-14 Women’s Manga in Asia and Beyond offers a variety of perspectives on women’s manga and the nature, scope, and significance of the relationship between women and comics/manga, both globally as well as locally. Based on the activities since 2009 of the Women’s MANGA Research Project in Asia (WMRPA), the edited volume elucidates social and historical aspects of the Asian wave of manga from ever-broader perspectives of transnationalization and glocalization. With a specific focus on women’s direct roles in manga creation, it illustrates how the globalization of manga has united different cultures and identities, focusing on networks of women creators and readerships. Taking an Asian regional approach combined with investigations of non-Asian cultures which have felt manga’s impact, the book details manga’s shift to a global medium, developing, uniting, and involving increasing numbers of participants worldwide. Unveiling diverse Asian identities and showing ways to unite them, the contributors to this volume recognize the overlaps and unique trends that emerge as a result.

Mechademia 3 Frenchy Lunning,2014-11-01 Dramatic advances in genetics, cloning, robotics, and nanotechnology have given rise to both hopes and fears about how technology might transform humanity. As the possibility of a posthuman future becomes increasingly likely, debates about how to interpret or shape this future abound. In Japan, anime and manga artists have for decades been imagining the contours of posthumanity, creating dazzling and sometimes disturbing works of art that envision a variety of human/nonhuman hybrids: biological/mechanical, human/animal, and human/monster. Anime and manga offer a constellation of posthuman prototypes whose hybrid natures require a shift in our perception of what it means to be human. Limits of the Human—the third volume in the Mechademia series—maps the terrain of posthumanity using manga and anime as guides and signposts to understand how to think about humanity's new potentialities and limits. Through a wide range of texts—the folklore-inspired monsters that populate Mizuki Shigeru’s manga; Japan’s Gothic Lolita subculture; Tezuka Osamu’s original cyborg hero, Atom, and his manga version of Fritz Lang’s Metropolis (along with Ôtomo Katsuhiro’s 2001 anime film adaptation); the robot anime, Gundam; and the notion of the uncanny in Ghost in the Shell 2: Innocence, among others—the essays in this volume reject simple human/nonhuman dichotomies and instead encourage a provocative rethinking of the definitions of humanity along entirely unexpected frontiers. Brown, Joshua Paul Dale, Michael Dylan Foster, Crispin Freeman, Marc Hairston, Paul Jackson, Thomas LaMarre, Antonia Levi, Margherita Long, Laura Miller, Hajime Nakatani, Susan Napier, Natsume Fusanosuke, Sharalyn Orbaugh, Ôtsuka Eiji, Adèle-Elise Prévost and MUSEbasement; Teri Silvio, Takayuki Tatsumi, Mark C. The Economics of Information Kenneth Joseph Arrow,1984

Immigrant Families Cecilia Menjivar,Leisy J. Abrego,Leah C. Schmalzbauer,2016-09-12 Immigrant Families aims to capture the richness, complexity, and diversity that characterize contemporary immigrant families in the United States. In doing so, it reaffirms that the vast majority of people do not migrate as isolated individuals, but are members of families. There is no quintessential immigrant experience, as immigrants and their families arrive with different levels of economic, social, and cultural resources, and must navigate various social structures that shape how they fare. Immigrant Families highlights the hierarchies and inequities between and within immigrant families created by key axes of inequality such as legal status, social class, gender, and generation. Drawing on ethnographic, demographic, and historical scholarship, the authors highlight the transnational context in which many contemporary immigrant families live, exploring how families navigate care, resources, expectations, and aspirations across borders. Ultimately, the book analyzes how dynamics at the individual, family, and community levels shape the life chances and wellbeing of immigrants and their families. As the United States turns its attention to immigration as a critical social issue, Immigrant Families encourages students, scholars, and policy makers to center family in their discussions, thereby prioritizing the human and relational element of human mobility.

Undocumented Latino College Students William Pérez,Peurez William Corteus Richard Douglas,2011 P(r)rez and Cort(r)s examine how undocumented Latino community college students cope with the challenges created by their legal status. They find that students experience feelings of shame, anger, despair, marginalization, and uncertainty stemming from discrimination, anti-immigrant sentiment, fear of deportation, and systemic barriers (e.g., ineligibility for financial aid). Despite moments of despair and an uncertain future, rather than become dejected, students reframe their circumstances in positive terms. Findings also highlight the importance of student advocates on campus, as well as the need to educate college personnel. The conclusion discusses the socioemotional implications of studentsOCO ongoing legal marginality, and makes suggestions for institutional practices.

A New Language for Psychoanalysis Roy Schafer,1976-01-01 Should be of considerable interest to a wider public, since it proposes a radical reformulation of psychoanalytical theory which, if accepted, would render outmoded almost all the analytical jargon that has crept into the language of progressive, enlightened post-Freudian people.-Charles Rycroft, The New York Review of Books Schafer's arguments have considerable cogency. The tendency to over-theorize so that the translation of abstractions into the language of ordinary discourse between analyst and patient has become increasingly difficult is a fault; Schafer goes a long way towards redressing it, and his efforts to include meaning and the person in the form of his language is an achievement.-Michael Fordham, The Times Higher Education Supplement
