A Soldier's Way Colin Powell, Joseph E Persico, 2011-07-31 'The man who might have been America's first Black president' Guardian 'An exemplary patriot . . . he helped pave the way for so many who would follow' Barack Obama THE #1 INTERNATIONAL BESTSELLER _____ Colin Powell is the embodiment of the American dream. He was born in Harlem to immigrant parents from Jamaica. He knew the rough life of the streets. He overcame a barely average start at school. Then he joined the Army. The rest is history - Vietnam, the Pentagon, Panama, Desert Storm - but a history that until now has been known only on the surface. *A Soldier's Way* is the powerful story of a life well lived and well told. At a time when Americans feel disenchanted with their leaders, Powell's passionate views on family, personal responsibility, and, in his own words, 'the greatness of America and the opportunities it offers' inspire hope and present a blueprint for the future. An utterly absorbing account, it is history with a vision _____ 'A patriot of unmatched honor and dignity' President Joe Biden 'He always showed the world the best of who we are. He upheld the highest standards, representing our nation with dignity, grace, and strength' Vice President Kamala Harris 'He was such a favorite of presidents that he earned the Presidential Medal of Freedom - twice. He was highly respected at home and abroad. And most important, Colin was a family man and a friend.' George W Bush 'One of the greatest leaders that we have ever witnessed' Lloyd Austin, US Defense Secretary

Aristide Jean-Bertrand Aristide, Christophe Wargny, 1993 In this riveting memoir, Jean-Bertrand Aristide, a Catholic priest who became Haiti's first democratically-elected president, recounts his life--from his early education through his formal training as a priest, scripture scholar, and psychologist. Building Internet Firewalls Elizabeth D. Zwicky, Simon Cooper, D. Brent Chapman, 2000-06-26 In the five years since the first edition of this classic book was published, Internet use has exploded. The commercial world has rushed headlong into doing business on the Web, often without integrating sound security technologies and policies into their products and methods. The security risks--and the need to protect both business and personal data--have never been greater. We've updated Building Internet Firewalls to address these newer risks. What kinds of security threats does the Internet pose? Some, like password attacks and the exploiting of known security holes, have been around since the early days of networking. And others, like the distributed denial of service attacks that crippled Yahoo, E-Bay, and other major e-commerce sites in early 2000, are in current headlines. Firewalls, critical components of today's computer networks, effectively protect a system from most Internet security threats. They keep damage on one part of the network--such as eavesdropping, a worm program, or file damage--from spreading to the rest of the network. Without firewalls, network security problems can rage out of control, dragging more and more systems down. Like the bestselling and highly respected first edition, Building Internet Firewalls, 2nd Edition, is a practical and detailed step-by-step guide to designing and installing firewalls and configuring Internet services to work with a firewall. Much expanded to include Linux and Windows coverage, the second edition describes: Firewall technologies: packet filtering, proxying, network address translation, virtual private networks Architectures such as screening routers, dual-homed hosts, screened hosts, screened subnets, perimeter networks, internal firewalls Issues involved in a variety of new Internet services and protocols through a firewall Email and News Web services and scripting languages (e.g., HTTP, Java, JavaScript, ActiveX, RealAudio, RealVideo) File transfer and sharing services such as NFS, Samba Remote access services such as Telnet, the BSD `r` commands, SSH, BackOrifice 2000 Real-time conferencing services such as ICQ and talk Naming and directory services (e.g., DNS, NetBT, the Windows Browser) Authentication and auditing services (e.g., PAM, Kerberos, RADIUS); Administrative services (e.g., syslog, SNMP, SMS, RIP and other routing protocols, and ping and other network diagnostics)

Intermediary protocols (e.g., RPC, SMB, CORBA, IIOP) Database protocols (e.g., ODBC, JDBC, and protocols for Oracle, Sybase, and Microsoft SQL Server) The book's complete list of resources includes the location of many publicly available firewall construction tools.

Record of a Life Georg Lukacs,1985-07-17 This revealing autobiography of the Hungarian Marxist philosopher Georg Lukács is centered on a series of interviews that he gave in 1969 and 1971, shortly before his death on 4 June 1971. Stimulated by the sympathetic yet incisive questioning of the interviewer, the Hungarian essayist István Eörsi, Lukács discusses at length the course of his life, his years of political struggle, and his formation and role as a Marxist intellectual. From a highly evocative account of his childhood and school years, Lukács proceeds to discuss his political awakening; the debates within the socialist movement over the First World War form the prelude to an assessment of Tactics and Ethics, written in 1919; from there the discussion turns to Lukács's early major contribution to Marxist philosophy, History and Class Consciousness. After considering at length the years of emigration in Vienna and the Soviet Union, Lukács finally recalls his return to Hungary after the Second World War, and his new position as a revolutionary left critic of actually existing socialism. "By socialist democracy," he wrote in 1970, "I understand democracy in ordinary life, as it appears in the Workers' Soviets of 1871, 1905 and 1917, as it once existed in the socialist countries, and in which form it must be re-animated." This Record of a Life, which includes an introduction by István Eörsi, furnishes a compelling tribute to a remarkable man.

Death Waits in the Dark Mark Edward Langley,2020-08-04 It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur

learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

To My Arrogant Boss J. S. Cooper, 2021-01-01 To Mr. Tate Howard, You are quite possibly the most infuriating, annoying and grumpy man I've ever met in my life. I know you think that you're God's gift to women, but I have a secret to let you in on: you're not. You're God's gift to yourself. Get over your wanna-be cool surfer self and grow up. I thought it was time that someone addressed your big head and told you straight to your face that you're not all that. Just because you have an Ivy league education doesn't mean you're the smartest man in the world. In fact, I'm not even sure if you would have gotten in if you didn't have rich parents. Yes, I went there. Every woman doesn't want to sleep with you and I'm sure you're not even good in bed. And I'm someone that would know. From, Your Secret Not Admirer

Self-images André Rival, Klaus Honnef, 1995 Andre Rival, at home in both Paris and Berlin, has created a fascinating project out of a relatively simple idea: 100 women taking photographs of themselves. The outcome is both startling and impressive. It is an expression of contemporary female identity - self-aware, distinctive and thoroughly positive, in a series of nude photographs that inexorably capture and hold our attention, revealing at the same time the artist's highly creative approach to the medium of photography and to the individual selves of the women portrayed. The author describes his project in this way: We are inundated with pictures of women in the media. Ordinarily, the pictures we see seek to achieve a kind of 'sameness' based on unwritten ideals of beauty; physical perfection, total fitness become the determining factors. These images of women, provoked as they are by the media

industry, awakened in me the urge to confront both that industry and myself with something else. I chose to set aside my own ways of thinking and do a series of 100 women in which it was not I who would put together the photographs, but the women themselves. For this purpose, I gave them each a shutter-switch and left the room. That represented the beginning of the attempt to enable the women to become photographic subjects rather than objects; they were left to decide on their own which personal image of themselves they wanted to convey. The conditions were the same for all of the women: the same lighting, the same white background and the same unchanged camera position. It was essential to fix the location of the camera, so that the women did not perceive themselves as being pursued by an 'observer'; instead, they were able to establish distance and camera angle themselves with the aid of a video screen that showed them each camera exposure as a still photo.

The Highlander's Surrender Eliza Knight, 2019-09-10 Eliza Knight's bestselling Scottish historical romance series, The Stolen Bride Series, is back with another amazing tale of adventure, passion and love! Ceana Montgomery had notions of marrying for love after her first disastrous marriage ended in widowhood. But now Robert the Bruce has ordered her to marry a stranger, securing a strong alliance and ending a decades-old feud. Already used as a pawn once in marriage, she is devastated that she will once more have to give up her happiness in order to please the edicts of men. And while the braw warrior standing before her might incite feelings inside her she thought long since buried, desire is a far cry from love. The rivalry between Brochan Lamont and his twin brother, John, began in the womb, and only grew worse from there. They were pitted against each other in childhood, and their father left them with a legacy that was a race to the finish-whoever has an heir first inherits the lands. The only problem is that Brochan has given his loyalty to the Scots, and his brother to the English. In order to keep the lands and ships under Scottish control, Robert the Bruce demands Brochan marry to break the iron-clad will. His new bride harbors a fiery temperament that lures Brochan into stoking her passions instead of her ire. Aligned to strengthen the Scottish claims on the realm, Brochan and Ceana must work together to overcome the obstacles that bind them. But perhaps seeing their duties through does not have to be as painful as they both predicted. Is it possible that love can be forged from a union born in alliance? Maybe Fate knew all along just who was meant for who...
