Battletech Technical Readout 3085 Catalyst Game Labs, 2010-10-13 In December 3076, Devlin Stone marshaled the nations of the Inner Sphere and began Operation SCOUR. The two-year final push to Terra was the bloodiest fighting seen in centuries. In the end, Terra had been freed with the Word of Blake scattered to the darkest corners of the universe. Stepping into that vacuum, Stone forged a new Terran Hegemony in The Republic of the Sphere. With the end of the Jihad, the survivors are rebuilding their shattered armies, introducing new machines to replace those whose factories ceased to exist in the fires of the Jihad. BattleTech Technical Readout: 3085 gives a detailed look at the machines introduced during the waning days of the Jihad and into the founding days of Devlin Stones Republic of the Sphere. This book includes the latest Mechs, battle armor, aerospace and vehicles as well as new late-Jihad support vehicles. In addition, this sourcebook heralds the long-awaited update of Technical Readout:

Project Phoenix, featuring brand-new art and additional variants. Conventional infantry make their Technical Readout debut with fifty-six individual infantry formations from classic foot infantry to xeno-planetary soldiers. And finally, after more than twenty years of silence, Land-Air BattleMechs explode back into a Technical Readout with a look at the original four LAMs and their Star League history.

Mechwarrior Vanguard Wizkids LLC,2006-05-31 Power and war abhor vacuums, and the lack of structure in the Inner Sphere means a free-for-all as Houses and Clans grab as many worlds as possible! MechWarrior: Vanguard brings this frantic drive to consolidate power to the MechWarrior collectable miniatures game (CMG), and House Liao's military might leads the charge. As infrastructure further crumbles, new high-risk, high-reward gear is introduced, which could mean the key to victory - or self-destruction!

Warrior Michael A. Stackpole,1998 Stripped of his rank, exiled Justin Allard is given one last chance to save his honor--by risking his life in the gladiatorial arenas of Solaris VII. But his newest Game World opponent--more skilled at 'Mech-to-Mech' combat than any other rival--raises the stakes even higher. It's Justin's own

half brother, Daniel, lance commander in the dreaded Kell Hounds mercenary battalion. But Daniel has more serious worries than dealing with his estranged and bitter brother. Princess Melissa Steiner, heir apparent of the Lyran Commonwealth, has been hijacked--and the future of the Inner Sphere depends on her fate. Both Daniel and Justin face fierce battles, but in the Inner Sphere, where nobles have schemed for centuries to win the ultimate power, those who interfere with the Successor Lords are sometimes called heroes, and sometimes called victims.
