The manual includes a full military history of the rebellion-riddled confederation, from the Succession Wars to the Andurien Civil War and beyond, and profiles of every League regiment, including the elite Marik Guard and the chivalrous Knights of the Inner Sphere. BattleTech: Forever Faithful Blaine Lee Pardoe,2019-02-23 SEMPER FIDELIS In the year 3060, the reborn Star League has destroyed Clan Smoke Jaguar, conquered their home world Huntress, and scattered the few remaining Jaguar warriors to the winds. Now the League seeks to end the Clan invasion for good by using former Smoke Jaguars against their own people. Meanwhile, two bitter enemies seek to salvage a future for the last Jaguars in existence: Trent, who betrayed his wayward Clan to help them regain their honor, and Paul Moon, a disgraced warrior torn between his pledged loyalty to the Star League and a duty to the Smoke Jaguar civilization he was born to protect. But power-hungry predators lurk in Clan space, waiting for the right time to strike the vulnerable Star League forces. And to the victor will go the spoils: the priceless artifacts of a destroyed Clan and the sacred genetics of the final generation of Smoke Jaguar warriors. Trent and Paul Moon must fight tooth and nail against would-be conquerors to save the soul of the surviving Jaguar people before they are consigned to the annals of history. But will their divergent plans tear the survivors apart, or lead them toward freedom?

Twelve Years a Slave Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US,on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Their target: the cradle of humankind, and the ultimate symbol of the Inner Sphere...Terra. La+ Design Upenn Design,2019-04-15 From the stone blade and the fire stick to the latest algorithms of genetic code, we shape our world through the act of design. With its roots in the Renaissance notion *disegno*, design is the ability not only to make something, but also to conceive of its invention and reflect on its meaning. Whether we valorize it as the democratization of design or critique it as the perversion of the commodity fetish, designed things are now ubiquitous. Not only things but entire systems must now be designed and objects reconceived and redesigned as mere moments in unfathomably complex ecological flows. The planet itself, and even space beyond, is now presented as a design problem. What does landscape architecture bring to the broader culture of design? What lessons can be learned from other disciplines at the cutting edge of design? What role does design play in a time of transformative technological change? In LA+ DESIGN we move beyond the designed outcome to explore the myths, methods, meanings, and futures of design. In this issue: - Engineer and physicist Adrian Bejan outlines his constructal theory, which predicts natural design and its evolution in engineering, scientific, and social systems. - Design researchers Craig Bremner + Paul Rodgers take us through an A-Z of design ecology. - Architects Lizzie Yarina + Claudia Bode open our eyes to new ways of seeing things through subject-object relations. - Jenni Zell explores life as a woman landscape architect through a Kafkaesque lens. - Daniel Pittman interviews MoMA's curator of architecture and design, Paola Antonelli. - Architect David Salomon explores methods of using data as both fact and fiction. - Christopher Marcinkoski interviews Anthony Dunne + Fiona Raby (Dunne + Raby) to discuss how their practice continuously redefines the role of design in society. - Thomas Oles challenges stereotypes of landscape architecture's professional identity. - Richard Weller discusses the terrarium as the ultimate design

experiment. - Dane Carlson goes deep into the culture of Nepal's hinterlands to explore new modes and geographies for landscape architecture beyond the first world. - Through LA's signage, anthropologist Keith Murphy shows how different groups of people interact with and give meaning to the landscapes they inhabit. - Interviewed by Colin Curley, architect Andrés Jaque (Office for Political Innovation) discusses the role of technology and agency of architecture in society today. - Game designer Colleen Macklin shows how public space can be redefined and subverted through the agency of play. - Javier Arpa interviews urban design guru Winy Maas (MVRDV, The Why Factory) to discuss his views on the future of design and design education. - Experimental psychologist Thomas Jacobsen describes current neurological research into the subjectivity of beauty.
